KEY STATE FINANCE LAW COMPLIANCE ROLES AND RESPONSIBILITIES

Individuals appointed by the Department Head to fill the positions listed below are responsible for the department's compliance with various aspects of state finance law. The Office of the Comptroller (CTR), as well as other oversight departments will communicate key information to these individuals and will rely on them as the knowledge base of the departments in their areas of expertise. These key roles are *appointments* by the Department Head with very specific duties.

These responsibilities are vital for maintaining the series of reliance CTR uses to approve the warrant. It is critical that departments notify CTR within **ten** days of any changes so that they can be updated and communicated accordingly.

If CTR receives no update within **ten** days, the department head becomes the key contact until the department head designates someone to be the key contact.

It is the responsibility of each of these individuals to ensure that all communications from CTR and other oversight agencies are disseminated to the appropriate department personnel. In addition to the very important role that these individuals play in ensuring the timely and accurate dissemination of information, other specific responsibilities are as follows:
