The universities, through a memorandum of understanding, will operate a student health insurance committee. This committee, subject to the oversight of the Enterprise Executive Committee, will request and approve proposals from one or more insurance carriers for the right to offer a student health insurance program to students and their dependents through the registration procedures of each university. One carrier will be selected for all three universities. The committee may select a health insurance consultant to work with the student health insurance committee in the planning, management, marketing, bidding, and annual negotiations involved with the administration of the student health insurance plan.
