

between the purchase and retail delivery of any handgun. A 1998 revision to the state constitution grants individual counties to increase that period to 5 days. However, waiting periods do not apply to concealed weapon license holders.

FIREARM REGISTRATION

There is no requirement for weapon or firearm registration in the state of Florida regardless of whether the person has a concealed weapons permit or not.

FIREARM SAFETY TIPS

- Never store or handle a loaded firearm in the home. Tragedy can occur during a single instance of negligence.
- Keep a trigger-locking device on the firearm, in addition to keeping it locked away, as an additional safety factor. There is no such thing as overemphasizing firearm safety.
- Lock firearms and ammunition in separate locations. This is a good backup precaution.
- Never point a firearm at anyone, loaded or unloaded. Too often the unintentional discharge of guns, even those believed to be unloaded, has killed or wounded innocent persons.
- Educate everyone in the home about firearms safety — especially children. Firearms are not toys. Emphasize the danger in, and outside, the home. Give reinforcement training frequently.

Firearm owners must always remember that a firearm may protect life, but it can also be a potential deadly threat to innocent persons. The proper storing and handling of a firearm must always be foremost in the mind of the owner who is responsible for the safety of those in the home. [Section 790.174](#), Florida Statutes, requires a loaded firearm in the home to be stored in a locked box container or secured with a trigger lock if the owner reasonably knows that a child under the age of 16 can gain access to the firearm. A violation of this law is a misdemeanor.
