

ASPIRE INDIANA HEALTH PHARMACY

PHARMACY & SPECIALTY SERVICES

Aspire Indiana Health is proud to operate its own pharmacies with a mission of bringing high-quality medications at a low cost to the community as well as expanded services including **Whole-Person Specialty Care** and **Specialty Pharmacy**.

The pharmacies, located at our health centers in Noblesville and Anderson, are **available to everyone** and accept Medicaid, Medicare and most traditional insurance. In addition, Aspire patients can access **sliding-scale fees** to lower costs for those lacking insurance and **free delivery** of prescriptions to your home or workplace – no matter which Aspire health center you go to.

In addition, Aspire has a Consumer Medication Coordinator (CMC) at other locations, who serves as a liaison between pharmacy, clinic and patients.

OUR EXPANDED PHARMACY SERVICES INCLUDE:

- Free home or work delivery for added convenience (Aspire patients only)
- Fulfillment of most prescription types (including retail and specialty medications and customized packaging)
- Time-saving medication bundling
- Support with medication access and insurance
- A variety of over-the-counter health items
- Translation services available as needed, including American Sign Language (ASL)

SPECIALTY SERVICES

Aspire Indiana Health Specialty Pharmacy services are available to provide easier and more affordable access to specialty medications and biologics to treat specialty conditions. Specialty pharmacy services are now available for several conditions including but not limited to:

- **Rheumatology** (Ankylosing Spondylitis, Psoriasis, Psoriatic Arthritis and Rheumatoid Arthritis)
- **Dermatology** (Psoriasis and Psoriatic Arthritis)
- **Neurology** (Chronic Migraines)

Your personal care team of specialists and pharmacists will work together for you to avoid any refill interruptions and find the lowest medical copay costs.

SPECIALTY PHARMACY SERVICES INCLUDE:

- Free home or work medication delivery
- Lower cost specialty medication options
- Assistance with prior authorization
- Easy prescription transfers
- Personalized care plans
- 24/7 clinical team support
- Virtual access to your providers

Your clinical pharmacist can provide injection training, answer your questions, and help you determine whether your biologics are working as well as possible.
