RELY CENTER

Phone: (855) 765-7359

Open 24/7

17840 Cumberland Road, Noblesville, IN 46060

A SAFE PLACE FOR HELP

Rely Center is a psychiatric urgent care and adult stabilization center for people experiencing a mental health and/or substance use crisis.. Anyone age 5 and up may enter for care and support, whether they come on their own or are brought by family or first responders. No appointment required.

Upon entering Rely, visitors will receive immediate triage to assess their medical, behavioral health and social support needs. The goal is to reduce the crisis event and stabilize their symptoms, then create a personalized plan for further support and treatment options. Any medication support is at the discretion of our medical team and may not be available 24/7.

OUR TEAM

Rely Center uses a multidisciplinary approach with a treatment team that includes trained medical, certified peer, clinical therapy and psychiatric professionals. This approach allows us to immediately screen, assess and treat patients' medical, mental health and social needs.

INSURANCE

Rely Center accepts Medicaid/Medicare as well as most traditional insurance. Even if someone has no insurance or ability to pay, they will not be turned away from care.

Aspire Indiana Health

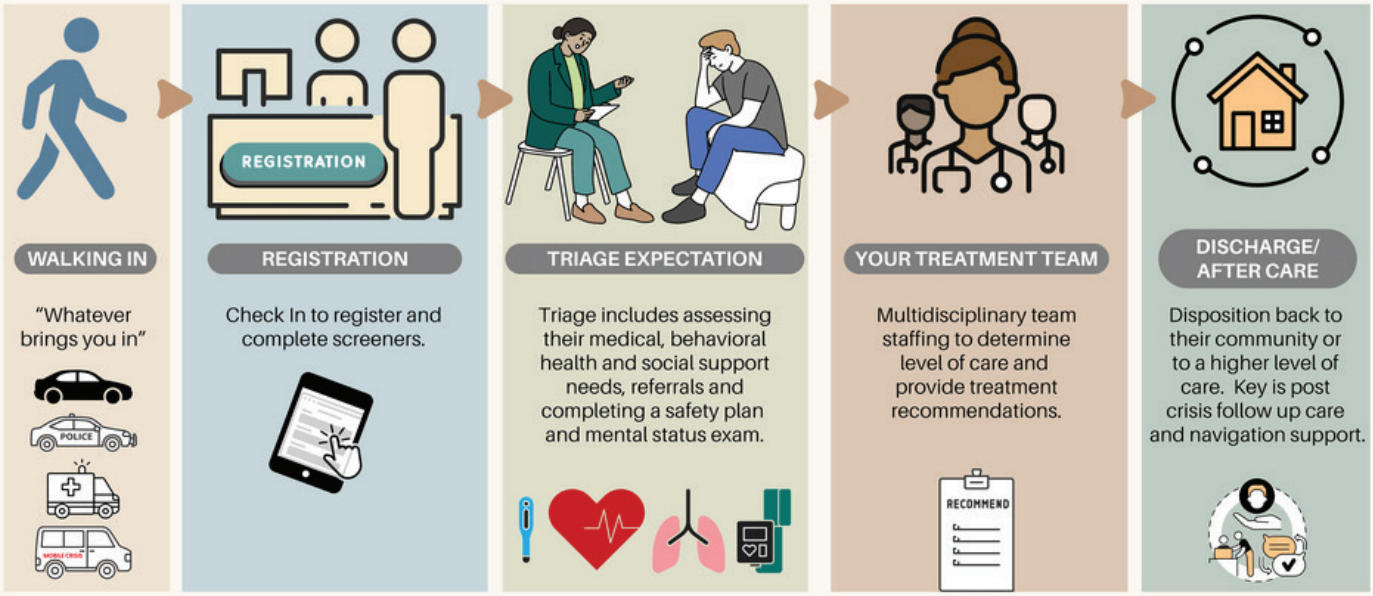

ASL INTERPRETING SERVICES AVAILABLE.

How It Works

If it is a medical emergency please call 911.
Aspire 24/7 Crisis: (800) 560-4038

Revised October 2026

A COMFORTABLE, CARING SPACE

Snacks and drinks are provided free of charge including water, soda, nugget ice, coffee, cappuccino, hot chocolate and tea.

The adult stabilization unit features semi-private recliners, warming blankets and headphones connected to a tablet device loaded with calming music, apps and other coping tools.

WHAT HAPPENS NEXT?

After stabilization of the crisis event, what happens next is entirely up to the individual. They will work alongside the team to develop a plan for safety measures, next steps, follow-up appointments and/or warm handoffs to community support. Should a higher level of care be needed, our team will arrange safe and appropriate transportation to ensure a smooth transition. And because Rely is co-located at our Noblesville health center, patients can easily access its full array of primary care, behavioral health and addictions services.
