MARCH – 2024

To the residents, business owners, and visitors of Chatham Borough,

I welcome you to review our newly developed crime, incident, and traffic monthly report. This report keeps with our commitment to provide increased transparency regarding all aspects of the police department.

As you view our newly published report, which will be broadcasted on a monthly basis, note that it contains our in-house stats and not the FBI's Uniform Crime Reported (UCR) data. Our stats are updated regularly and audited periodically for accuracy which may result in changes to the numbers. I urge readers to avoid the pitfalls of comparing municipalities based solely on crime data of any type, especially the data released by my office. To that point, the FBI Uniform Crime Report manual developed the "Proper Use" document that explains the following as it relates to crime data submitted to the State and FBI:

"These incomplete analyses have often created misleading perceptions which adversely affect geographic entities and their residents. For this reason, the FBI has a longstanding policy against ranking participating law enforcement agencies on the basis of crime data alone."

"When providing/using agency-oriented statistics, the FBI cautions and, in fact, strongly discourages, data users against using rankings to evaluate locales or the effectiveness of their law enforcement agencies."

Perspective is everything, so keep that in mind as you view our data and know that this data is prepared and used to help us identify trends, deploy equipment and personnel more effectively, prepare budgets, and assess police operations in a constructive manner. As the analytics change, as they often do, so too will our police strategies.

Thank you for taking the time to review this report and for staying informed!

Chief Brian K. Gibbons
