ACKNOWLEDGMENTS

In an effort to keep up with current law enforcement trends, criminal justice issues, and Florida Statutes, the Standards Review and Interpretations Committee (SRIC) and the Commission have been accepting and reviewing input from law enforcement practitioners for improving the Florida Standards Manual. The fifth edition is the final result of various committee and subcommittee meetings, executive workshops, and numerous individual hours dedicated to addressing all suggestions and concerns.

The work of the Standards Review and Interpretations Committee is endless and many dedicated professionals contributed to this edition. The Commission for Florida Law Enforcement Accreditation, Inc. thanks the past and present members of the SRIC for ensuring the fifth edition continues to meet the needs of the Florida law enforcement community.

MISSION STATEMENT

The Commission for Florida Law Enforcement Accreditation establishes standards, oversees an accreditation program, and awards accreditation to compliant Florida law enforcement agencies. The Commission strives to improve the ability of law enforcement agencies to deliver professional public safety services.

VISION STATEMENT

To have every eligible law enforcement agency in Florida state accredited, maintaining their accredited status as a continued goal.

PROGRAM DEVELOPMENT

An accreditation program has long been recognized as a means of maintaining the highest standards of professionalism. Schools, universities, and hospitals are some of the most well-known organizations required to maintain accredited status. The accreditation process is an outstanding management tool for criminal justice agencies. Accreditation provides a blueprint for building an agency committed to providing value-based services through accountability and transparency to the communities it serves.

Commission for Florida Law Enforcement Accreditation, Inc. (CFA)

In 1993, Florida Statute 943.125 encouraged the Florida Sheriffs Association (FSA) and the Florida Police Chiefs Association (FPCA) to create an independent voluntary law enforcement agency accreditation program.

Representatives from FSA and FPCA developed an accreditation program, which requires compliance with more than 250 professional standards designed specifically for Florida law enforcement agencies. These standards are practical, easily understood, and achievable for all law enforcement agencies. The program has the following objectives:

- Establish and maintain standards that represent current professional law enforcement practices
- Increase effectiveness and efficiency in the delivery of law enforcement services
- Establish standards that address and reduce liability for the agency and its members
- Establish standards that make an agency and its personnel accountable to the constituency they serve.

Feasibility study and status reports were delivered to the Speaker of the House of Representatives in November 1993. A joint FSA/FPCA Charter Review Committee was then formed, headed by Sheriff Neil J. Perry of St. Johns County. This committee developed the charter for the CFA and established the overall framework for its operation. The CFA awarded its first agency accreditation in 1996.

THE COMMISSION

The CFA was established by charter December 13, 1994 and incorporated on February 9, 1995. It is an independent, not-for-profit corporation designated as the accrediting body for Florida law enforcement and inspectors general accreditation. The Commission's purpose is to establish a program for accreditation that can be achieved by all Florida law enforcement agencies and Inspectors general investigations offices. The Commission is comprised of 15 volunteer members:

- Five sheriffs appointed by the FSA
- Five police chiefs appointed by the FPCA
- Representative appointed by the State Law Enforcement Chiefs Association
- Mayor, city commissioner, city manager, or other representative appointed by the Florida League of Cities
- County commissioner appointed by the Florida Association of Counties
- Appellate or Circuit Court Judge appointed by the Florida Supreme Court
- Representative appointed by the Office of the Chief Inspector General

The Role of the Commission

The Commissioners set forth all policies and procedures for the accreditation process. They are responsible for the direction and operation of the Florida Accreditation Office (FAO).

The Commission holds three meetings annually for reviewing agencies for accreditation or reaccreditation. Assessors play a key role in this review process by serving as representatives of the Commissions. Commissioners determine an agency's accredited status based on the information provided by the assessment team. The Commissions hear all appeals and are responsible for resolving any conflicts that cannot be resolved during the assessment.

The Philosophy of the Commission

The Florida accreditation process is designed to reflect best practices in the areas of law enforcement, inspectors general, corrections and pretrial management, administration, operations, and support services. The Commission expects agencies to maintain compliance and presumes agencies operate in compliance with their established directives.

Commission Staff

The Florida Department of Law Enforcement (FDLE) provides funding for positions in an effort to support the Commissions and agencies going through the accreditation process. In conjunction with the FDLE, the CFA and the FCAC appoint the Executive Director, who manages the FAO staff and the accreditation programs.

The Executive Director and staff have the responsibility and authority to carry out all policies, procedures, and activities of the Commissions and their committees. This

includes supporting agencies working toward accreditation or reaccreditation, overseeing the assessment process, coordinating Commission meetings and review, and handling all business matters and daily operations.

The FAO serves as the Commissions' information and materials resource center. Training classes are regularly held for accreditation managers and new assessors. Specialized training is also offered during each accreditation conference.

PROGRAM OVERVIEW

The Commission currently offers two ways for a law enforcement agency to become state accredited: full compliance or participation in the CFA Core Competencies program. Agencies addressing all applicable state standards will be candidates for full compliance accreditation. Agencies currently accredited through the Commission for Accreditation of Law Enforcement Agencies (CALEA) Advanced Law Enforcement accreditation may participate in the CFA Core Competencies program.

INITIAL ACCREDITATION

Agencies begin the accreditation process with an application. Once the application is completed and submitted to the Commission for review to determine eligibility, an agreement and invoice are sent to the applicant agency. The formal accreditation process begins when the agency executes this agreement, which specifies the obligations of the agency and the Commission. The agency has 24 months to complete the self-assessment phase from the date the executive director signs the accreditation agreement.

REACCREDITATION

Initial accreditation is valid for three years and annual reports must be submitted by January 31st of each year. The accreditation manager should continue to evaluate the agency's progress toward meeting accreditation standards by monitoring changes to the written directive system and how they affect agency compliance.

Proofs for a reaccreditation are required to show compliance from assessment to assessment. The Commission review for reaccreditation will occur on or about the agency's anniversary date.

THE STANDARDS

Scope

The Commission expects accredited agencies to maintain compliance and live by the letter and spirit of the standards. The Commission presumes agencies operate in compliance with their written directives. The agency must consider its mission, its legally mandated responsibilities, and the demands of its service community when determining which standards are applicable and how to comply with applicable standards. The standards provide a description of “what” must be accomplished by the applicant agency. The agency has wide latitude in determining “how” to achieve compliance.

Composition

Each chapter begins with an “Introduction”, which provides important guidance to an agency regarding the subject area, its applicability, or related standards.

Each standard is composed of the standard statement and at least one proof of compliance. The standard statement is a declarative sentence that places a requirement on the agency. Many standards require the development and implementation of directives. Other standards require an activity, a report, an inspection, equipment, or other action that may be observed. The standard statement is binding on the agency.

Proofs of compliance are the recommended means for the agency to demonstrate compliance with standards. The proofs are included to help the Accreditation Manager and others involved in the process to understand the type and sufficiency of proofs necessary to demonstrate compliance.

Applicability

Standards may or may not be applicable depending upon the functions performed by the agency. Assessors must review all standards to identify those not applicable by function. For example, if an agency does not perform the court security function, then the chapter dealing with court security becomes not applicable (N/A). However, simply because an agency may not perform the function, the standard may still apply. For example, standards in the communication chapter of the CFA standards manual would need to be addressed even if the agency does not perform these functions internally. Standards are considered applicable if the function is an integral element for improving the delivery of services or professional management of an agency. Standards beginning with an “if” statement indicates a conditional requirement. If the condition pertains to a function not applying to the agency, the standard becomes N/A. Assessors will verify that functions are not applicable during the assessment. The Commission reserves the right to require compliance with any standard.

Standards that are mandatory address life, health, and safety issues; legal matters; or essential law enforcement requirements. These standards have a letter “M” placed immediately following the standard number. The agency is required to meet all of these standards unless a standard does not apply to the agency’s function.

If an agency is prevented from complying with an applicable mandatory standard due to circumstances beyond its control, such as labor contracts, court decrees, it may ask the Commission to waive the obligation to comply. The agency must make the request in writing during the self-assessment phase. Assessors will verify waiver conditions during the assessment and complete the form. The Commission will make a final determination during the agency's review.

All remaining standards are non-mandatory and address good business practices. Law enforcement agencies may select any of these standards to satisfy accreditation requirements, but must comply with at least 80 percent of the applicable non-mandatory standards.

Proofs of Compliance

A standard is in compliance when the proofs demonstrate an agency has met all of the standard requirements to include interviews, observations and time-sensitive requirements.

New or Amended Standards

Unless otherwise directed by the Commission, new or amended standards are effective upon publication. Agencies seeking initial accreditation, reaccreditation, or having already achieved accreditation or reaccreditation must demonstrate compliance with new or amended standards at their first assessments following the publication dates of those standards. However, if those assessments occur within one year after publication of new or amended standards, agencies may delay compliance for up to one year after the enactment dates of those standards.

These standards are predicated on routine, day-to-day operational procedures in the law enforcement profession. Agencies must describe the weapons that may be used and provide training in use of force policies for officers.

Training

Training is one of the most important responsibilities of any law enforcement agency. It contributes greatly toward the overall professionalism of the agency while the consequence for lack of training jeopardizes the credibility of the agency and exposes the agency to civil liability.

Smaller agencies may not have special operations (or tactical) components. Regardless, these types of emergency situations arise in jurisdictions of any size and every agency may be the “first responder” even when another, larger agency may be called to assist or even resolve the incident. For this reason, every agency must have written plan(s) that outline the procedures for how the situations will be handled.

A locked door does not make an interview room a holding area. The room's usage is the determining factor. Immediate response will be evaluated on a case-by-case basis with consideration given to time, distance and obstacles to overcome. Video monitoring can be used for continuous supervision only when the person watching the monitors is not distracted by other tasks and can immediately respond to intervene.

Panic or duress alarms should provide agency members with appropriate response to emergencies occurring in interview rooms. This does not require the installation of specific alarm hardware, but can be accomplished using standard portable radios or pre-designated signals to communicate the need for immediate response.
