318 CANINES

318.1 PURPOSE AND SCOPE

This policy governs agency-owned or controlled canines, and provides information for the following:

- a. authorization, conditions, and limitations on usage;
- b. qualifications and training for personnel assigned to control the animal(s);
- c. prerequisite training, qualifications for canine animals;
- d. ongoing maintenance training for canine teams
- e. documentation requirements for all training;
- f. selection of handlers;
- g. handler responsibilities
- h. the process for 24-hour care and maintenance for the police canine;
- i. a listing of equipment required; and
- j. provisions for the collection of deployment data including defined use of force.

318.2 POLICY

The canine program was established to augment law enforcement services to the community. The Columbia Police Department will deploy highly skilled and trained teams of handlers and canines to supplement law enforcement operations in locating individuals, contraband and to apprehend criminal offenders.

318.3 GUIDELINES FOR THE USE OF CANINES

A canine may be used in the investigation of a crime or possible crime, in the execution of a warrant, and to locate and apprehend a suspect if the canine handler reasonably believes that the individual has either committed or threatened to commit any serious offense and if any of the following conditions exist:

- a. There is a reasonable belief the individual poses an imminent threat of violence or serious harm to the public, any officer or the handler.
- b. The individual is physically resisting or threatening to resist arrest and the use of a canine reasonably appears to be necessary to overcome such resistance.
- c. The individual is believed to be concealed in an area where entry by other than the canine would pose a threat to the safety of officers or the public.

It is recognized that situations may arise that do not fall within the provisions set forth in this policy. In any such case, a standard of objective reasonableness shall be used to review the decision to use a canine in view of the totality of the circumstances.

COLUMBIA POLICE DEPARTMENT

Policy and Procedure Manual

CANINES

Absent a reasonable belief that an individual has committed or threatened to commit a serious offense, mere flight from a pursuing officer shall not serve as good cause for the use of a canine to apprehend an individual.

Once the individual has been located and no longer reasonably appears to represent a threat or risk of escape, the canine should be placed in a down-stay or be otherwise secured as soon as it becomes reasonably practical.

318.3.1 PREPARATIONS FOR UTILIZING A CANINE

Prior to the use of a canine to search for or apprehend any individual, the canine handler and/or the supervisor on-scene shall carefully consider all pertinent information reasonably available at the time. The information should include, but is not limited to:

- a. The individual's perceived age.
- b. The nature of the suspected offense.
- c. Any potential danger to the public and/or other officers at the scene if the canine is released.
- d. The degree of resistance or threatened resistance, if any, the subject has shown.
- e. The potential for escape or flight if the canine is not utilized.
- f. The potential for injury to officers or the public caused by the suspect if the canine is not utilized.

As circumstances permit, the canine handler should make every reasonable effort to communicate and coordinate with other involved personnel to minimize the risk of unintended injury.

A canine handler shall have the ultimate authority to decide whether the canine will be deployed. The handler will evaluate each situation and determine if the use of a canine is technically feasible. Generally, the decision to deploy the canine shall remain with the handler. However, a supervisor sufficiently apprised of the situation may decide against deploying the canine.

318.3.2 WARNINGS GIVEN TO ANNOUNCE THE USE OF A CANINE

Unless it would otherwise increase the risk of injury or escape, a clearly audible warning to announce that a canine will be released if the person does not come forth shall be made prior to releasing a canine. The canine handler, when practicable, shall first advise the supervisor of his/her decision if a verbal warning is not given prior to releasing the canine. In the event of an apprehension, the handler shall document in any related report whether a verbal warning was given and, if none was given, the reasons why.

318.3.3 USE OF NARCOTIC-DETECTION CANINES

A narcotic detection-trained canine may be used in accordance with current law under the following circumstances:

- a. To assist in the search for narcotics during a search warrant service.
- b. To obtain a search warrant by using the detection canine in support of probable cause.
- c. To search vehicles, buildings, bags and any other articles as deemed necessary.

COLUMBIA POLICE DEPARTMENT

Policy and Procedure Manual

CANINES

- d. A narcotic detection-trained canine will not be used to search a person for narcotics.

318.3.4 GUIDELINES FOR NON-APPREHENSION USE

Because canines have senses far superior to those of humans, they may be effectively utilized to track or search for non-criminals (e.g., lost children, individuals who may be disoriented or in need of medical attention) or even suspects wanted for minor criminal offenses. In such circumstances it will be necessary for the handler to evaluate the conditions and ability of the canine to determine the feasibility of such an application.

- a. Absent a change in circumstances that present an immediate threat to officers, the canine or the public, such applications should be conducted on-leash or under such conditions that the canine will not bite or otherwise injure the individual, if located.
- b. Throughout the deployment of the canine in such circumstances, the handler should give periodic verbal assurances that the canine will not bite or hurt the person.
- c. Unless otherwise directed by a supervisor, assisting personnel should take direction from the handler in order to minimize interference with the canine.
- d. Once the individual has been located, the canine should be placed in a down-stay or otherwise secured as soon as it becomes reasonably practicable.

318.3.5 REPORTING CANINE USE, BITES AND INJURIES

Whenever a canine is deployed and intentionally bites or otherwise causes injury to a suspect, a supervisor shall be promptly notified and the injuries documented. The deployment and injuries should also be included in any related incident or arrest report and Blue Team Entry.

Any unintended bite or injury caused by the canine during deployments, operations, training, and presentations or under any other circumstances, either on- or off-duty, shall be promptly reported to the canine unit supervisor. Unintended bites or injuries caused by the canine should be documented.

318.3.6 RENDERING AID

Appropriate medical aid shall be obtained anytime a person is injured as a result of an interaction with a department owned or controlled canine. Any such incidents will be reported to the canine supervisor as soon as practicable and the incident documented in appropriate reports.

318.3.7 REPORTING CANINE INJURIES

In the event that a canine is injured, the injury will be immediately reported to the Watch Commander and the canine unit supervisor.

Depending on the severity of the injury, the canine shall either be treated by the designated veterinarian or transported to a designated emergency medical facility for treatment. If the handler and canine are out of the area, the handler may use the nearest available veterinarian.

CANINES

The injury will be documented.

318.3.8 ASSIGNMENT OF CANINES

The canine teams shall be assigned to the Operations Support Bureau to supplement and assist the Patrol Bureau.

Canine teams should function primarily as cover units. However, they may be assigned by the Watch Commander to other functions based on the needs of the watch at the time.

Canine teams should not be assigned to handle matters that will take them out of service for extended periods of time unless absolutely necessary and only with the approval of the Watch Commander.

318.4 REQUESTS FOR USE OF CANINE TEAMS

Personnel within the Department are encouraged to freely solicit the use of the canines. Requests for a canine team from outside of the Patrol Bureau shall go through the canine unit supervisor or the Watch Commander.

3. Canine teams shall not be called out while off-duty or used outside the jurisdiction of the Columbia Police Department unless authorized by the Watch Commander or the canine unit supervisor.
4. It shall be the responsibility of the canine handler to coordinate with outside agency personnel in order to minimize the risk of unintended injury.

318.4.2 REQUEST FOR PUBLIC DEMONSTRATIONS

All public requests for a canine team shall be approved by the canine unit supervisor prior to making any commitment.

Handlers shall not demonstrate any apprehension work to the public unless authorized to do so by the canine unit supervisor.

318.5 SELECTION OF CANINE HANDLERS

The following are the minimum qualifications for the assignment of canine handler:

1. The handler is a Columbia Police Department officer currently off probation.

COLUMBIA POLICE DEPARTMENT

Policy and Procedure Manual

CANINES

The Chief of Police or the authorized designee, at his/her discretion, may authorize a member to seek a court order to allow controlled substances to be maintained in the member's possession for training purposes. - a. The controlled substances are no longer needed as criminal evidence.
- b. The person receiving the controlled substances, if required by the Drug Enforcement Administration (DEA), possesses a current and valid DEA registration that specifically authorizes the recipient to possess controlled substances while providing substance abuse training to law enforcement or the community or while providing canine drug detection training.
