

WHAT IS OCCUPATIONAL HEALTH & WHY IS IT IMPORTANT?

Clarinda Regional Health Center is dedicated to improving the health of employees and the community through occupational health services. We want to be a resource for our community members while controlling the healthcare costs of employers big and small.

WORKER'S COMPENSATION

Our Occupational Health Nurse will manage return-to-work injuries, worksite assessment, case management services, and communication between your Work Comp carrier and the provider!

If you feel that there is a service or program you want to know more about as an employee or employer, please let us know!
