

# ABOUT ONCOLOGY SERVICES AT CRHC

At Clarinda Regional Health Center, you'll receive cancer care close to home, in a place where you are treated like the neighbors and friends you are.

Dr. Muhammad Raza Naqvi visits via telemedicine while Sarah Lochman, PA-C, is available in the clinic, hand-in-hand with our patients and families.

Our providers coordinate individualized treatment plans to meet each patient's needs. We offer a range of treatments for all types of cancer, including chemotherapy, immunotherapy, hormone therapy, surgery, and support services. We can arrange radiation services as needed. During your treatment journey, you may need to see different types of specialists. Our team will coordinate those visits and research potential clinical trials. We understand that cancer treatment is uncharted territory for most families. Once diagnosed, the medical terms, testing, and treatment decisions can become overwhelming. The oncology team at CRHC is deeply committed to helping patients and families navigate the cancer journey, from diagnosis to treatment to survivorship. Our goal is to provide comprehensive cancer care close to home.

# OUR PROVIDERS

**DR. MUHAMMAD RAZA NAQVI**

*is a board-certified Medical Oncologist and Hematologist committed to delivering compassionate, evidence-based cancer care. He brings more than a decade of experience across nationally recognized cancer programs, with expertise in GI and GU oncology, immunotherapy, hematologic disorders, and collaborative multidisciplinary cancer management. Dedicated to advancing cancer care, Dr. Naqvi has been actively involved in clinical trials, authored peer-reviewed publications, and presented research at national and international conferences. His work emphasizes high-quality, patient-centered care and the thoughtful integration of emerging oncology innovations into everyday practice.*

**SARAH LOCHMAN, PA-C**

*is a Physician Assistant and focuses on Hematology and Oncology patients at Clarinda Regional Health Center. She began her practice in 2020 after graduating from Des Moines University and enjoys being able to care for patients in a rural community. Sarah works alongside Dr. Devon Webster as part of a collaborative team taking care of patients with cancer and blood disorders.*

*"I deeply value walking side-by-side with patients and their families as they face challenging times. I appreciate the trust our patients place in us, and I listen to their concerns as if they were my own. We have an incredible team here and I am so proud to be part of it."*
