

**DOUGLAS COUNTY
SHERIFF'S OFFICE**

JOB TITLE: CRIME TECHNICIAN / FORENSIC CHEMIST

Exempt: No

Pay Grade: E405

Approved By: Sheriff Darren Weekly

Job Type: 4056E

Department: Office of the Sheriff

Date: 01-10-23

General Duties: Performs a variety of crime laboratory forensic analysis duties, crime scene processing, photography and photographic processing to be utilized as evidence in criminal proceedings by the Office and other related agencies. Performs professional forensic work conducting qualitative chemical analysis of evidence. Must prepare technical reports and have ability to testify in criminal proceedings.

General Duties: This position reports to the Douglas County Sheriff's Office and works primarily at The Unified Metropolitan Forensic Crime Lab.

The Unified Metropolitan Forensic Crime Lab (UMFCL) provides forensic laboratory and field services to law enforcement agencies within Aurora, Arapahoe and Douglas Counties in Colorado. The UMFCL is an entity designed to support all investigative functions of the agencies it serves. Responsible for all technical issues regarding the Chemistry section that provides the comprehensive forensic Chemistry service to the law enforcement agencies within these Counties and others, as necessary. Performs mandatory technical review of cases and provides scientific consultation as necessary. Performs Chemistry analysis on case work to include interpretation of test results, forming opinions and conclusions, preparing reports and testifying as an expert witness. This position will also be on-call for crime scene processing and photography.

Supervision Exercised: No supervision exercised. May give guidance to other crime scene technicians, investigators, and other personnel as well as training new chemists.

Supervision Received: Works under general supervision of the Chemistry Section Supervisor. Work is assigned on a case-by-case basis and reviewed for accuracy and completeness.

Examples of Duties and Responsibilities:

- Conduct independent chemical analyses of evidence to identify and confirm compositions and interpret results.
- Analyze drug evidence for the presence of controlled substances as defined by the Colorado State Statutes and Federal Department of Justice.
- May analyze blood for the presence of ethanol in DUI cases and other criminal cases as requested.
- May analyze Fire Debris cases for the presence of accelerants to assist any law enforcement or fire agencies services by the UMFCL.
- Determine the best method or methods to perform analysis.

- Interpret test results obtained from the proper microscopic, chemical and instrumental methods and prepares detailed reports of analysis.
- Operate, calibrate, troubleshoot, and perform preventative maintenance and repairs on state-of-the-art laboratory and analytical instruments and equipment, to include Gas Chromatograph / Mass Spectrometer (GC/MS), Fourier Transform Infrared Spectrometer (FTIR), microscopes, balances and others.
- Prepare a variety of reagents, solutions, standards and controls using established forensic laboratory practices.
- Review and assist in revising standard operating procedures, training, quality control, and safety manuals, etc., within the chosen/related discipline.
- Assist with and/or coordinate laboratory maintenance, audits and certifications.
- Regularly testifies as an expert witness in a court of law while maintaining composure under intense cross-examination.
- Perform independent research to develop and implement new techniques and recommends acquisition of instrumentation.
- Complete annual proficiency testing in chosen discipline.

Other Duties as Assigned to Include:

- Collect, receive, preserve and handle physical evidence, implement evidence control, document and maintain chain-of-custody, and preserve the integrity of evidence examined.
- Processing of crime scenes to identify, document, collect and preserve items of evidence.
- Documentation of crime scenes, to include photography and crime scene sketches, from rough draft to courtroom presentation.
- Preparation of written and oral reports.
- Assist at post-mortem examinations in the collection of evidence and fingerprints.
- Perform classification, comparison and identification of fingerprints from latent and 10 print fingerprints.
- Processing of evidence for latent prints, utilizing current techniques, to include chemicals, fuming and powders.
- Collection and preservation of shoe/tire impressions, tool marks, etc., utilizing casting techniques.
- Must successfully complete a competency test in controlled substance analysis prior to performing casework. Must maintain proficiency through successful completion of appropriate proficiency testing.
- Maintenance and stocking of crime lab supplies and crime lab vehicles.
- Teaching/training in specific specialty areas.
- Crime scene photography and photo development
- Sketch and documentation of crime scene
- Evidence collection and preservation of evidence
- Court room testimony

Note: The successful applicant must be able to perform ALL the above job functions, unassisted, and at a pace and level of performance consistent with actual job requirements

Minimum Requirements:

- Must be eligible to work in the United States.
- Graduation from an accredited college or university with a bachelor's degree in chemistry, natural science or a forensic science related field with a minimum of 24 college level semester hours of chemistry/physical chemistry.
- Minimum of three years professional criminalist and forensic analysis experience, conducting independent case work in a forensic laboratory required, excluding training.
- The applicant shall meet the education requirements of the Quality Assurance Standards for Forensic
- Working knowledge of crime scene processing and associated responsibilities is required.
- Knowledge of the operation, maintenance and repair of complex laboratory instruments.
- Thorough knowledge of scientific principles, standard laboratory procedures, analytical methods, and standard reagents. Knowledge of criminal laboratory procedures.
- Possess a valid Colorado driver's license at time of employment, or ability to obtain a Colorado driver's license.
- Ability to pass various qualifying examinations and background investigation.
- Have no convictions for felonies or crimes of moral turpitude.

Essential Job Functions:
