

## **EX 203 Reform and Reinventing**

February 18, 2021

The Essex County Sheriff's Office serves the law enforcement needs of all citizens of the County, and strives to do so in a professional manner, respecting the rights of all citizens without regard to race, color, nationality, creed, gender, or sexual orientation. Policies and procedures are developed and carried out with that goal in mind and the fourteen deputy sheriffs, two patrol sergeants and the chief deputy are selected, trained, and supervised with that goal in mind.

Professional knowledge, experience and judgement are used, combined with available information, data, analysis, and research to develop the Essex County Sheriff's Office policing strategies, policies, and procedures.

The Sheriff's Office will be working with Essex County Board of Supervisors and County Manager to develop a plan involving the feedback received from these meetings.

Thank you to everyone who participated.
