

Essex County Sheriff's Department and Jail

1999 Annual Operations Report

Sheriff Henry H. Hommes

JAIL

Jail bookings in 1999: The jail processed 366 males and 46 females for a total of 411 bodies incarcerated - an increase of almost 15% over 1998.

Among these bookings were:

2 Murder *	20 Sex Offenses
48 Assaults **	55 Burglary and Theft
1 Arson	14 Controlled Substances
5 Dangerous Weapons	57 DWI
19 Unauthorized Use of Motor Vehicle and Auto theft	

* We are still holding one convicted inmate convicted of Murder and one Capital Murder Suspect for trial <convicted of 2 counts of 1st degree Murder in 2000>. They have been incarcerated for over 830 days waiting disposition of their cases as well as 2 additional defendants awaiting trial for attempted murder.

** Among these assaults is one for a vicious attempted murder and rape.

Female inmates were a large part of the "housing out" 1999 saw 45 female inmates for a total of 862 days - up over 300% from 1998.

Boarding out of inmates remains a continued financial, transportation and overtime drain to our budget. 1999 we saw many times when we had more inmates in other counties than here in Essex. Our boarding of inmates increased by 266% over 1998.

"Out" days include: Clinton County Jail - 2,524 days

Franklin County Jail	3,337 days
Lewis County Jail	129 days
Fulton County Jail	138 days

The housing of these overflow inmates cost Essex County over \$425,000.00 for the year 1999.

Mental Health issues also account for a large increase in board outs. 1999 saw 3 inmates in Mental Health facilities for a total of 181 days - up almost 400%.

Medical care occasionally results in having an inmate being hospitalized while committed to the Sheriff's custody. This requires 24 hour guarding of the inmate requiring overtime to accomplish. During 1999 we had 17 days of hospitalized inmates.

Another area of increased travel is in Court appearances. The budget crisis has hit all agencies and one area that has been cut is in the transport of inmates. Arresting agencies are no longer doing us the courtesy of transporting their arrestees to court appearances. By law, once a judge drops his gavel committing an inmate to the custody of the Sheriff, he/she is our responsibility (including transport to any and all court appearances). Due to the varied court schedules around the county and the fluctuating number of inmates for each court, scheduling for these transports rarely is successful, necessitating a high number of overtime hours.

In 1999, Court, Board and medical transports resulted in the following:

- 379 transports;
- 179 for housing;
- 160 for court appearances;
- 36 for medical;
- 4 inmates escorted to family funerals;
(This is a provision of New York State Law allowing incarcerated inmates to attend funerals of immediate family.)
- 693 inmates transported;
- almost 50,000 miles;
- 3,307 hours of staff time;

In particular, juvenile transports have been a budgetary drain lately. We have been tasked with 4 juvenile transports requiring 46 hours of regular time and 39 hours of overtime. Some of these were as simple as a trip to Willsboro and back, but they have also entailed sending personnel to Watertown to transport an Essex County juvenile from their holding out to Buffalo for placement.

State overcrowding is also reflected in our figures as we housed 5 Parole Violators for a period of 531 days waiting for the return process to be completed and the offender to be returned to the State System. This is an average of 87 days per inmate and is up 438% over last year. When the jail is full, these extra state inmates cause us to board out. 531 bed days boarded out cost us \$37,170.00 and in return, state reimbursement allows \$18,054.00 for housing these inmates. This is a net loss to Essex County of \$19,116.00.

We also have a problem with the holding of inmates between sentencing to a State facility and the actual transport into State custody. The Department of Corrections is under Court order to take these inmates within 10 days, but due to overcrowding, this deadline is seldom met. When this happens, we receive \$34.00 per day for their housing in excess of the statutory 10-day period.

In 1999, we held 12 State Ready inmates for a total of 365 days. This is an average of 36 days per inmate. In the same scenario as Parole Violators, these beds cost us \$25,550.00 in board out costs while reimbursement was \$12,410.00 leaving a deficit of \$13,140.00.

Another area of "State" inmates in the county jail is inmates convicted of and sentenced for a felony, but sentenced to a term of 1 year or less. This results in the inmates doing their time in the county jail with state reimbursement. Again, this reimbursement does not make up for the costs of housing out the overflow county inmates. In 1999, we had 34 of these inmates for a total of 2,280 days of housing after their sentences. These days, if boarded out would cost \$159,600.00. This is a total loss to the county as the previous \$17.00 per day reimbursement was eliminated last year.

To recap "state" responsible inmates:

3,176 inmate days (if board out is necessary)	\$228,672.00
State reimbursement billable	30,464.00
Net Loss to Essex County -----	\$198,208.00

PATROL

During 1999, this department received 51 Arrest Warrants for execution. These warrants were for individuals anywhere in the state or country. As of January, 2000, 43 of these warrants were closed through arrests, vacated by the courts or otherwise withdrawn. The 8 outstanding warrants are still in process of locating the defendant/respondents or when located have been filed with other agencies awaiting the defendant to be available for arrest. Some are out of the state or country, others have moved and the whereabouts are unknown, still others are located in other counties in New York State and we are at the mercy of their Warrant Squads to make the arrest and turn them over to us.

Our patrols accomplished 95 arrests during 1999. These were Family Court Warrants as well as criminal offenses ranging from felonies down to violations.

These patrols also investigated numerous motor vehicle accidents. Of these, 13 were serious enough, either in physical injury or property damage to necessitate formal written investigations.

As a police agency, this department also logs incidents. An incident is a term given to any type of complaint, response or action. Our incidents ranged from citizen assists, to stranded motorists, lockouts from cars and houses, prowler complaints, missing children, suspicious vehicles, loud parties, animal complaints, alarms, etc. Also, in these incidents are assists to other agencies such as Police, Ambulance squads and assisting in the search for escapees such as the one from New York State Department of Corrections Shock Camp Moriah and Federal Correctional Institute Ray Brook in past years. The remainders of the incidents range from domestic disputes and family offenses to alcohol complaints, DWI, traffic complaints, Burglary, dangerous drugs, vehicular accidents, etc.

Some noteworthy events during 1999 were assisting New York State Department of Corrections, Camp Moriah staff apprehend an escapee from a work crew on the Elizabethtown golf course and assisting Lake Placid Police and New York State Police in the search and apprehension of a bank robbery suspect in Lake Placid.

Ironman USA in Lake Placid and the Adirondack Marathon in Schroon Lake also involved a high number of personnel and man-hours but with devotion to detail, the event was a huge success.

D.A.R.E.

Essex County trained its first D.A.R.E. officer in 1998 and supplemented this training with High School level certification in 1999.

Deputy Martin has given presentations to numerous civic organizations including the American Legion, Lions, Essex County School Boards as well as visiting all of the Essex County elementary schools and promoting the program for future implementation into their curriculum.

As a result, this program was taught to Kindergarten through 5th grades in 11 Essex County schools with 585 students in 1998/1999 receiving the program and 898 in the 1999/2000 school year in progress.

This program is funded through donated materials and monies for supplies. Each student receives workbooks, a t-shirt at graduation and at various times in the curriculum, incentives such as pencils, certificates, stickers, etc. These items are all funded through public support.

NARCOTICS ENFORCEMENT

We created a Narcotics Officer this year. This individual works closely with any and all Law Enforcement agencies in this part of the state to combat the sale, manufacture and distribution of controlled substances. In the partial year that our officer worked covert operations, he worked cooperatively with 15 different agencies, ranging from local police (such as Albany, Schenectady, Lake Placid, Ticonderoga, Plattsburgh, etc) to State Police and Federal Agencies such as the Border Patrol and the Drug Enforcement Administration.

NYSPIN

Another tool that the Sheriff's Department utilizes in both the field of Corrections and Law Enforcement is the New York State Police Information Network computer terminal. This is a computer interface with the New York State, other states as well as Federal agencies in the criminal justice field. Through this computer system we can obtain information on drivers' licenses, registrations, weather statements, road closings, criminal warrant checks, criminal histories and send instantaneous teletype messages to other agencies throughout the country. We can also enter information on warrants on subjects wanted in Essex County. If this individual is stopped and any information is checked through the system, such as a driver's license check, the warrant information will immediately print out resulting in the arrest and return of the wanted individual.

Every inmate booked into the jail is run through the system for criminal history and warrant checks. In this way we can have information on the individual's history and criminal status. We are then better informed and prepared to deal with this inmate knowing his/her history.

In cooperation with other county agencies in the criminal justice field we also run criminal history information for their official usage. In 1999, this office ran over 2,600 criminal history checks.

An approximate break down is as follows:

In November 1998, the new "QICS" system became active. Under this system, any gun purchaser must undergo a background check prior to obtaining the weapon. This computer check covers all aspects from involuntary commitment to mental institutions, military discharge history, criminal history, domestic violence, citizenship and deportation status, etc.

DISPATCH

Essex County Sheriff's Department is also responsible for dispatching of Emergency Equipment in the county. In 1999, this office received 1,780 citizen calls for emergency services. These calls can range from a single ambulance dispatch to a multiple fire department mutual aid. Time involved can be as little as 20 minutes for a very simple call to tying up 2 or 3 men for an entire shift for a major incident such as flooding, forest fire, major structure fire, etc.

These 1,780 calls represent 62.5% of the squads in the county, but only 43.6% of the population as the larger towns are handled through their own or neighboring county emergency centers. When 9-1-1 becomes a reality, the numbers above will then increase accordingly as well as this agency becoming the point of contact for all police calls within the county.

CIVIL

By law, the Sheriff is the designated official in the County to affect the service of civil process, execute court mandated orders such as evictions, seize property ranging from vehicles to bank accounts, cash register contents, land and property, etc and conduct sales to raise funds necessary to satisfy court ordered judgments.

Any civil, Family Court, Grand Jury or trial action requires notification of the people involved. This notification comes in the form of a civil summons, subpoena, summons and petition, etc. These are the documents that the Sheriff is charged with serving. As you can imagine, people in serious legal difficulties are not easily found. We find that the services contain the address at the time of the incident and the people have moved numerous times since. This requires a large amount of time and resources to locate and serve the documents or take the mandated action necessary to satisfy the court order.

Unfortunately, when the economy slumps, our business soars as credit and monies are not available and people are forced to default on their obligations.

Monies collected in this office were \$415,312.95 (up over 17%) in 1999. The majority of these monies (\$203,167.66) were in the area of execution collections for bad debts. These are monies collected on income garnishees, levies on tangible property such as bank accounts, sales of motor vehicles seized, etc. that are then passed on to the creditors in the action. 1999 saw revenue for Essex County in the amount of \$28,916.35 for Civil Process.

Last year, we also processed well over 1,490 summons for service initiating new civil actions, requiring attendance in court, etc. In addition to these, we also opened 257 new collection files on bad debts. These are income executions as well as property executions requiring seizing of assets to satisfy a debt. This office also processes bail and fines paid on behalf of inmates in the county jail. In 1999, we processed \$177,490.00 in bail and \$8,950.94 in fines and forwarded it on to the appropriate jurisdictions.

COURT SECURITY

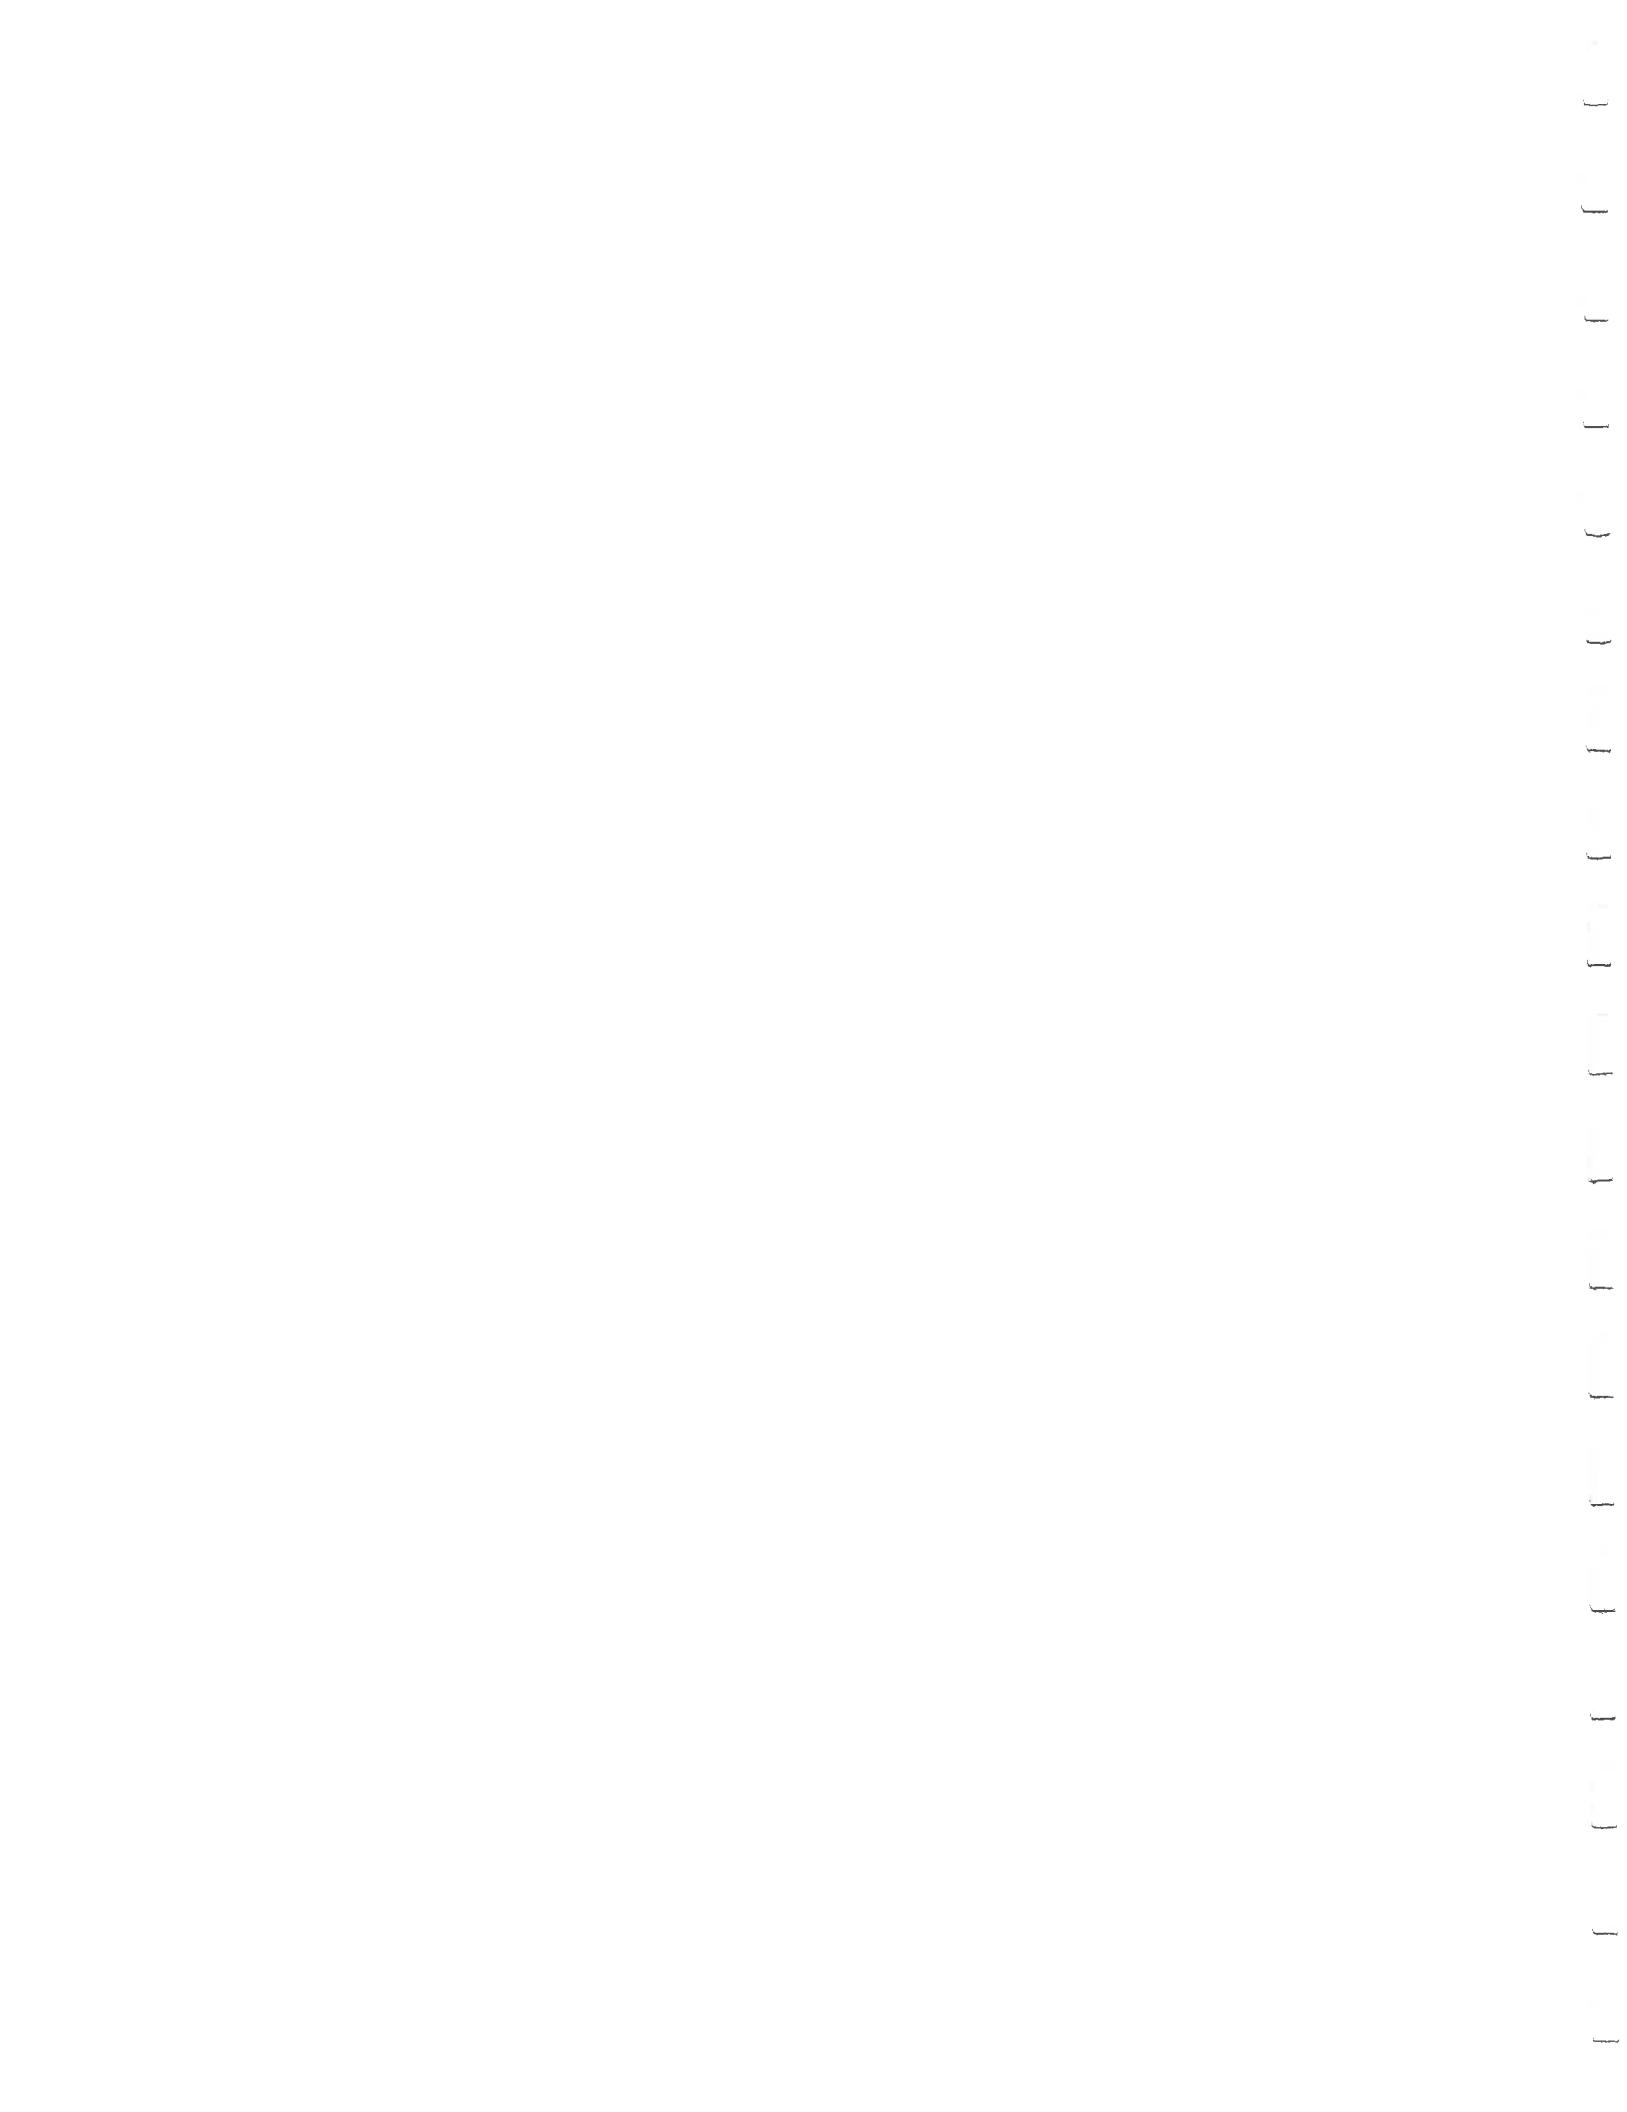

The Sheriff's Department is also charged with the security of the County, Supreme, Family and Surrogate's Courts held in and for the County of Essex. Currently we have 3 full time officers, 7 part-time attendants and supplement their services with overtime as the court schedule demands.

In 1999, the court load required not only the regular staffing, but also hours of additional overtime in order to satisfactorily fulfill our contract with the Unified Court System. This does not include the officers assigned to physically transport or supervise the inmate during his/her court time. Should an inmate be involved in a trial, we are mandated to provide a full time officer to stay with the inmate from the time he/she leaves the jail until such time as the court adjourns for the day. This time is not included in the court reimbursable allowances and has to be resolved through overtime.

As a part of the contract, we are reimbursed for services rendered. This reimbursement for 1999 totaled \$175,618.93.

1999 saw Essex County Court System handle 503 Supreme and County Court Cases with 38 instances of juries being called resulting in 13 jury trials. Family Court also began 1,943 new cases as well as handling 4,166 active cases.

The Essex County Court Building houses the Supreme, County, Surrogates' and Family Courtrooms and offices, the Essex County Clerk's Office, Department of Motor Vehicles, District Attorney's Office and Essex County Law Library. In 1999, excluding employees and Officers of the Courts, these offices had a total of over 125,000 visitors pass through the security desk in the lobby of the building.
