## APPENDIX A

"Zip Code-Based Mileage Fees" for the service of civil process by Sheriff's deputies are based on round-trip mileage from the location of the El Paso County Sheriff's Office Civil Unit, 210 South Tejon Street, Colorado Springs, Colorado, to a center point in each of the zip codes served by the Sheriff's Office. It is then rounded to the nearest mile (see calculated mileages below).

The fee assessed will be calculated based upon the round-trip mileage established for the address where the paper is to be served in the applicable zip code, multiplied by the current mileage rate set pursuant to § 30-11-1 07(1)(t), C.R.S., as amended. This is regardless of the number of attempts made, or the actual number of miles traveled by the deputy in effecting service per operational period, for that day. It is the customer's responsibility to inform the Sheriff's Office Civil Section of the number of days to be attempted for each paper to be served.

### **Civil Service Zip Code-Based Mileage Supporting Documentation**

The Zip Code-Based Mileage structure was determined by using two Internet map and driving-direction programs to determine the center point of each zip code. That center point was confirmed by using a zip-code boundary map provided over the Internet by the United States Postal Service at <http://www.usnaviguide.com/zip.htm>. The Internet map and driving direction programs were then used to compute the distance from the El Paso County Sheriff's Office Civil Unit location, 210 South Tejon Street, Colorado Springs, CO, to the center point of that zip code. In the event that the map and driving-direction sites disagreed as to mileage, Global Positioning Satellite (GPS) technology was used to establish the distance, using an intersection near the geographical center of the zip code to compute the distance. In the event that the center point of the zip code appeared to be in a wilderness area with no recognized road access, the nearest intersection recognized by the GPS technology was used to establish the distance. If that method was unsuccessful, a "city center" of a nearby town or village was used to establish the distance.

The distance for each zone was then doubled to establish the required single round trip ("R/T") mileage fee total to be charged per day, regardless of the number of attempts for that individual process, during that deputy's operational period for that day. The total mileage per day is then multiplied by the current per mile amount pursuant to § 30-11-107(1)(t), C.R.S., as amended, to establish the actual dollar amount of the fee to be charged, per day, to the person requesting the service of the process.
