

GEORGIA DEPARTMENT OF CORRECTIONS

Standard Operating Procedures

Policy Name: Patient Tracking Systems

Policy Number: 507.04.04

Effective Date: 02/10/2022

Page Number: 1 of 17

Authority:
Commissioner

Originating Division:
Executive Division (Physical
Health)

Access Listing:
Level I: All Access

I. Introduction and Summary:

Each facility will maintain logs of selected clinical activities for the purposes of scheduling, ensuring continuity of care, and data collection. This procedure is applicable to all facilities that house Georgia Department of Corrections (GDC) offenders to include private and county prisons.

II. Authority:

A. GDC Standard Operating Procedures (SOPS): 227.02 Statewide Grievance Procedure, 507.04.10 Consultations and Procedures, 507.04.28 Chronic Care, 507.04.27 Sick Call, 507.04.25 Health Screening- Offender Transfers, 507.04.37 Urgent and Emergent Care Services, 507.04.42 Infirmary Care, Observation, Accommodative Living Unit, 507.04.43 Medication Distribution System, and 507.04.54 Management of Offenders with Suspected or Active Tuberculosis.

III. Definitions: None.

IV. Statement of Policy and Applicable Procedure:

A. Patient Tracking Systems and Data Collection:

1. Each facility will maintain logs that are designated by the Office of Health Services as mandatory.
2. A computerized program may be used, provided the program can display and print forms which are entirely equivalent to official logs, including all columns and categories found in the approved logs. Additional columns are permitted.

B. Maintenance of Official or Approved Logs:

1. The following logs are currently mandatory:
 - a. Medical Database (Alpha Roster);

3. Incorrect entries will be corrected by striking a single line through the entry, dating, and initialing the corrected entry. Deletions should be corrected in the same manner.
 4. The log pages will not be recopied solely to alphabetize new arrivals. Computerized logs should be arranged in alphabetical order with respect to offender's last names.
 5. Logs should be maintained in retrievable storage for a minimum of three (3) years in order to facilitate responding to grievances, gathering statistics, etc.
- C. Defining the Specific Logs:
1. Medical Database (Alpha Roster):
 - a. A current institutional alphabetical roster will be maintained so the staff can determine which offenders are currently in the facility.
 - b. The roster should be printed twice a week. The most current roster should be maintained in the health care delivery area.
 2. Diagnostic Intake Tracking Log:
 - a. Each Diagnostic Center will maintain a Diagnostic Tracking Log for the purpose of ensuring the timely completion of all components of the medical diagnostic process.
 - b. The log must be completely filled out to include the following:
 - 1) Date of arrival;
 - 2) Offender name;
