

Hazard Communication Pictograms

This is an example of Hazard Communication Pictograms. The following pictogram files, and others, can be downloaded from the following link: <https://www.osha.gov/dsg/hazcom/pictograms/index.html> The size of each pictogram can be adjusted and will remain proportional.

EPS is a standard format (vector image) for printing materials professionally or for producing materials for large projects (e.g., labels for signs, tanks, vessels).

NOTE: Appendix C, Section C.2.3.1 of 29 CFR 1910.1200 states the following: Pictograms shall be in the shape of a square set at a point and shall include a black hazard symbol on a white background with a red frame sufficiently wide to be clearly visible. A square red frame set at a point without a hazard symbol is not a pictogram and is not permitted on the label.

Flame

Exploding Bomb

Skull and Crossbones

Corrosion

Gas Cylinder

Health Hazard

Environment
