BDE PROCEDURE MEMORANDUM

NUMBER: 24-05

SUBJECT: BDE Manual Revision – Chapters 41 and 63

DATE: November 25, 2024

Chapters 41 and 63 as well as accompanying forms (BDE 2342 and BC 2259) have been revised to address requirements from the re-issued ILR10 permit as well as to address more recent concerns from the Illinois Environmental Protection Agency (IEPA). Please see the BDE Manual on-line to view the revisions.

Background

On September 22, 2023, the IEPA reissued the NPDES Permit No. ILR10. As part of this process, forms such as BDE 2342 Storm Water Pollution Prevention Plan and BC 2259 Storm Water Pollution Plan and Sediment Control Inspection Report have been revised. In addition, accompanying language in Chapters 41 and 63 have been revised as well.

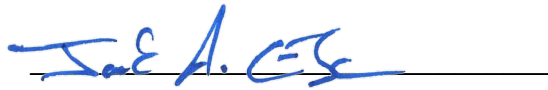

Furthermore, concerns from the IEPA were brought to the Department's attention and those concerns have been addressed in procedure revisions as well.

Section 41-4

This section provides guidance on preparing a Storm Water Pollution Prevention Plan (SWPPP). This guidance was revised to accompany revisions to BDE 2342 and BC 2259.

Section 63-4.09

This section discusses preparation of the Erosion and Sediment Control Details. The ILR10 has specific requirements for these details and are required as part of the ILR10 permit submittal process.
