Referring Allergist Agreement

The Indiana University Student Health Center Allergy Clinic now serves over 130 student patients referred by different allergy specialists. Each allergy specialist has a unique form they use in their office. As you can imagine, navigating different forms is very challenging and has significant potential for error. Therefore, to maximize the safety margin for all student patients, our clinic has developed our own Allergen Immunotherapy Administration Form that we will utilize for every student patient in our allergy clinic.
