Sole Source and Proprietary Purchases

1. Sole Source

A Sole Source purchase is permissible only if a required item is available from a single supplier. This means the item is sold only by a single supplier, which is usually the manufacturer. If the item is manufactured by a single supplier but is sold through multiple distributors, it is a proprietary purchase.

*All DCFS budget units must submit all Sole Source purchases electronically through ISIS/AGPS as a requisition and through ProAct as a new transmittal to the OSP for processing when the estimated amount of the Sole Source purchase is over \$5,000. Follow procedures in the [ISIS/AGPS Procedure Manual Section 8](#) for requisitions and [ProAct User Guide](#) for ProAct transmittals.

Sole Source purchases cannot be renewed without the following verification actions:

- 1) Securing new letter(s) from the vendor as sole source.
- 2) Confirming that justification(s) is still valid from the agency user.
- 3) Assuring that the vendor's(s') declaration and marketing strategy have not changed.

All DCFS budget units must obtain and provide the following documentation through ProAct for Sole Source purchases:

- a. Sole Source justification letter and justification form from the agency signed by the Appointing Authority or his/her designee. Other approvals may be applicable depending on the agency or commodity.
- b. Sole Source letter from the vendor, on the vendor's letterhead signed by the national marketing representative (if applicable), not a sales representative, stating:
 - The unique or compatibility characteristics of the product.
 - That the vendor is the only known source for the particular product.
 - That the vendor does not sell the product through distributors.
- c. A firm, fixed price quote from the vendor.
- d. Published price list from the vendor to determine that the State of Louisiana is getting a fair price, preferably at a lower price than list price but no higher than list price. If the vendor does not have a published price list available, then a notarized letter is required from the vendor. The letter must state that the firm, fixed price quote does not exceed the published pricing or justification as to why a published price listing is not available.
- e. Other conditions that justify a purchase from a Sole Source are:
 - Where compatibility (with existing equipment such as interface requirements, connections, etc.) is the paramount consideration.
 - A sole supplier's item is needed for trial use or testing.
 - Procurement of items for resale.
 - Procurement of public utility services.
 - Registered breeding stock on a selective basis and other livestock on a selective basis with special approvals.**

2. Proprietary Purchases

*A proprietary purchase is similar to Sole Source in that a certain unique product is the only one that will meet the needs of the Agency, but the manufacturer has chosen to distribute the product through more than one source.

- a. Sole Source justification letter and Justification form from the agency signed by the Appointing Authority or his/her designee. Other approvals may be applicable depending on the agency or commodity.

Equipment Financing Programs

The MIPA and LEAF programs have proven to be more cost effective than traditional leases.

A. Louisiana Equipment Acquisition Financing (LEAF) Program

LEAF is a self-administered, internally financed program established to provide state agencies the means to acquire equipment on an installment purchase basis. The financing program allocates state funds for use in financing projects. Traditionally, the LEAF Program is applied to purchases under \$100,000 although there have been exceptions. IT equipment may be purchased using the LEAF Program, but will not be considered if the total cost of the software exceeds 30% of the total project cost. The financing vendor will require verification of that fact.

Detailed instructions on how to process LEAF orders can be found at:
<http://www.doa.louisiana.gov/osp/agencycenter/financialserv.htm>

Small Entrepreneurship Program (Hudson Initiative)

The Small Entrepreneurship (SE) Program, also known as the Hudson Initiative, was created by Act 440 of the 2005 Regular Legislative Session. This is a goal-oriented program which encourages state agencies to contract with certified SE's, as well as encouraging contractors who receive contracts from the state to use good-faith efforts to utilize certified SE's in the performance of the contract. The Hudson Initiative is a race and gender-neutral program. The primary intent of this program is to provide additional opportunities for Louisiana-based small entrepreneurs that are certified by the Louisiana Department of Economic Development to participate in contracting and procurement with the State. the implementation of the program are located at www.doa.louisiana.gov/osp/se/se.htm and [Executive Order No. BJ 2008 – 66](#). This program is under the auspices of the Division of Administration (D of A), and all State Departments/Agencies are required to participate.

DCFS budget units may purchase items with an estimated cost of less than \$5,000 without competitive bidding when purchasing from a small entrepreneurship that is registered with the Department of Economic Development. Documentation must be made in the file to confirm the cost is fair and reasonable. Any documentation must be kept according to [DCFS Policy 6-02, Retention of Departmental Records](#).

Louisiana Initiative for Veteran and Service-Connected Disabled Veteran-Owned Small Entrepreneurships (The Veteran Initiative)

The Louisiana Initiative for Veteran and Service-Connected Disabled Veteran-Owned Small Entrepreneurships, also known as the Veteran Initiative, was created by Act 167 of the 2009 Regular Legislative Session. This program encourages state agencies to use veteran and service-connected disabled veteran-owned small businesses for state procurement and public contracts. The purpose of the Veteran Initiative is to create an environment where veteran and service-connected disabled veteran-owned small businesses have an opportunity to thrive and enhance the growth and stability of Louisiana's economy. The comprehensive rules governing the implementation of the program are located at: www.doa.louisiana.gov/osp/se/se.htm.

The Department of Economic Development has responsibility for certifying businesses under this law, and the D of A will establish policies and procedures, develop standard contract clauses, and train state agencies on the administration of the program. The DCFS coordinator for the Veteran Initiative will be the Undersecretary. DCFS will collect and report data regarding its procurements and contracts under the Veteran Initiative to the Commissioner of Administration, who must report this information each year by January 15th.

Louisiana Pricing Schedules (LaPS)

In order to ensure that the Department is a good steward of the taxpayer's money, the Office of State Purchasing issued rules for a program called Louisiana Pricing Schedules. LaPS is the acronym that will be used to describe those contracts that were established as Brand Name, LaMAS or Multi-State Contracts. This program requires all eligible users of these contracts to compare contracts and seek best value procurements where multiple contracts exist for like or similar items.

Where LaPS exist for the same or similar items or the total procurement exceeds \$25,000, all eligible users of these contracts are to obtain at least three price quotes.

Submit the request for response to at least three (3) LaPS contract holders, whenever available, offering functionally equivalent products and/or services that will meet the Agency's need. After the responses have been evaluated, the order shall be placed with the contractor offering the best value that meets the Agency's needs. The ordering Agency should give preference to small-entrepreneurships or small and emerging businesses when two or more contractors can provide the services and/or products at the same firm fixed total price. For additional purchasing procedures refer to:

www.doa.louisiana.gov/osp/agencycenter/memos/2008/OSP08-02.pdf

A listing of all contracts applicable to these new rules is maintained by the Office of State Purchasing and can be viewed at: [Welcome to the Office of State Procurement Website](#)

Request for Proposals

The Procurement Code allows for best-value procurement through the Request for Proposal (RFP) process to obtain high technology acquisitions, complex services, and to contract with a group purchasing organization. This procurement method is used when criteria other than cost is considered in determining the best value for the state. To assist in utilizing this process, procedures, examples, exhibits, samples and attachments can be obtained at the Office of State Purchasing website: [Office of State Purchasing \(OSP\) - Request for Proposal \(RFP\)](#). For RFP procedures, refer to [DCFS Policy 1-06](#).

Every effort shall be made to obtain quotations from three or more vendors when supplies, services, or major repairs are to be purchased on an emergency basis, except for standard equipment parts for which prices are established. Immediate purchasing shall be discouraged as much as is practicable. When supplies, services, or major repairs are urgently required, and time does not permit the obtaining of written quotations, the Procurement Officer may obtain quotations by telephone or otherwise, but such quotations shall be made on the relative purchase requisitions.
