General:

- You must change your name with the Social Security Administration **prior** to changing your name with the Office of Motor Vehicles (OMV). OMV will verify that the name change has been made with the Social Security Administration using online verification.
 - The turn-around time for the name to be changed on the Social Security database is approximately 24 hours.
- If you have two credentials (driver's license and identification card), the name must be consistent on both cards.
 - Name changes may only be processed on a valid credential. If a name is changed on an identification card, but the driver's license is suspended and/or expired, only the identification card name change will be processed. When the driver's license is reinstated and/or renewed, the name change will be processed to match the identification card.
- Altered documentation and/or copies of documents will **not** be accepted.
