## **Delegation of MMARS / Contract and Transaction Processing Authority and Quality Assurance**

### **Executive Summary**

This policy is jointly issued by the Office of the Comptroller (CTR) and the Operational Services Division (OSD).

In an effort to balance risk efficiency with appropriate levels of control, the Office of the Comptroller (CTR) and the Operational Services Division (OSD) provide the delegation of MMARS processing authority to all departments that demonstrate compliance with state finance and procurement laws, regulations and policies. MMARS document processing (transaction) delegation enables departments to process MMARS encumbrance transactions for goods and service contracts within certain dollar limits to final status without prior review by CTR, OSD or another state agency, provided the department complies with CTR, OSD and other identified laws, policies and procedures and the use of specified Contract Forms. Delegation enables departments to process high volume/low risk MMARS documents within a delegated dollar limit and provides the opportunity to use procurement card (P-card) for making small, emergency and other authorized purchases. Delegation does not affect any underlying procurement or contracting requirements.

The Quality Assurance Program is a collaborative effort between CTR and OSD. CTR and OSD each have a separate Quality Assurance Team dedicated to review of the areas of risk assigned for review. The objective of the Quality Assurance Program is to support departmental compliance with state finance and procurement laws, regulations, and policies, promote administrative efficiencies and reduce audit findings.

### **Policy**

#### **Delegation of MMARS Document Processing (Transaction Delegation) - Balance Efficiency of Operations and Risk Mitigation**

MMARS document processing (transaction) delegation enables departments to process MMARS encumbrance documents for goods and service contracts within specified dollar limits to final status without prior review by CTR, OSD or another state agency, provided the department complies with CTR and OSD and other identified laws, policies and procedures and uses specified Contract Forms. CTR and OSD conduct comprehensive Quality Assurance (QA) reviews on selected procurements and contracts which are also subject to post audit by the Single Audit Team, SAO, IGO, ETH and AGO.

Departments within the Legislative or Judicial Branch or non-Executive department or institution that agree to comply with state finance and/or procurement laws, which do not otherwise apply to them,

#### **Delegation of MMARS Document Processing Authority and Quality Assurance**

including CTR/OSD laws, regulations, policies and procedures, will not by implication extend application of Executive Orders or other Executive Branch directives that these departments would not normally be subject to, unless the ability to use certain MMARS transactions, system functionality or benefits (such as transaction delegation or incidental purchases) requires compliance with certain minimum requirements (such as the use of standard Commonwealth boilerplate contracts, or compliance with minimum procedures). If a department chooses to take advantage of these benefits, the department must comply with the minimum requirements for these benefits identified in CTR/or OSD policies, unless otherwise specified.

Departments are afforded greater responsibility and accountability as a result of the delegation of high volume/low risk transaction encumbrance processing. Delegation means that a department will have more authority, accountability and responsibility in processing financial transactions and filing contracts.

Increased authority includes the ability to:

1. Process encumbrance transactions up to a certain dollar limit to final status.
2. Make incidental purchases up to a certain dollar limit without a structured procurement process or contract.
3. Eliminate individual payments up to a certain dollar limit by using the Commonwealth's P- card program.
4. Ensure and validate the correctness of vendor's contract and payment information prior to adding the vendor to the vendor file in MMARS.

Increased responsibility includes creating and maintaining a management environment that:

1. Provides the appropriate level of review and approval of encumbrance transactions processed within the departments.
2. Provides a framework to achieve best value for incidental purchases without a structured procurement or contract.
3. Trusts and empowers employees to use Commonwealth Procurement cards for Commonwealth business, thus eliminating multiple processes for incidental transactions.

The Comptroller has statutory authority to request full access to the books and papers of all departments unless specifically exempted by general or special law. The Comptroller has the authority to access all departments' records related to accounting transactions and may conduct Quality Assurance reviews to ensure department compliance with state finance law and Comptroller accounting instructions. OSD has similar authority for procurements and contracts under its jurisdiction.

**MMARS Document Processing Delegation Limits**

As of the opening of FY05, the following MMARS document processing limits have been implemented. Limits are set by document type (transaction) and by object class (subsidiary), if applicable. Limits are calculated based upon the total dollar amount of a MMARS document for its entire duration, including all amendments (versions). A department may be able to process the initial MMARS document and several amendments. However, an additional amendment could increase the total value to one that exceeds the delegation limit and triggers secondary review of that amendment. Delegation limits will apply universally to all departments regardless of department procurement level or previous delegation limits. CTR and OSD reserve the right to adjust delegation limits based upon department procurement, contracting performance, and compliance in response to new procurement and purchasing that may be developed and in order to mitigate risk. Delegation authority may be adjusted or revoked for any department at any time CTR and OSD deem appropriate.

<b>MMARS DOCUMENT</b>	<b>DELEGATION LIMIT FOR TOTAL DURATION OF DOCUMENT</b>	<b>RESTRICTIONS</b>
-----------------------	--	---------------------

MA Master Agreement	no limit	Documents referencing Statewide Contract MAs managed by OSD will process automatically without secondary review.
PC Commodities	150,000	Includes Departmental MAs referencing a PC
CT Services	\$500,000	Includes Departmental MAs referencing a CT
RPO Ready/Recurring Services/Leases	\$500,000	Includes Department MA referencing RPO
GAE/INP Incidental Purchases	\$5,000	One-time, non-recurring need

**Delegation Does Not Affect Procurement or Contracting Requirements**

MMARS document processing delegation is limited only to document processing in MMARS and ***DOES NOT CHANGE*** any underlying procurement or contracting requirements. Even though departments will be able to process MMARS documents without secondary review by CTR/OSD, they are still responsible for procuring and contracting in accordance with applicable state finance and procurement laws, regulations and policies.

Departments must be able to document and verify that all purchases have been made in accordance with prescribed laws, regulations, policies and procedures to ensure the most cost effective (“best value”) use of Commonwealth funds. Departments may not manipulate contracts or contract amendments to avoid secondary review by CTR/OSD for encumbrances exceeding the delegation limit (e.g. splitting contracts or contract amendments or encumbering less than the maximum obligation of a contract).

**Transaction Encumbrance Processing Responsibilities**

**MMARS Documents with Total Amount Equal to or Less than Delegation Limit**

- Departments are responsible for review and processing of all CT and PC encumbrance transactions equal to or less than the authorized delegation limit. MMARS will automatically process to “FINAL” any CT or PC document equal to or less than the authorized delegated limit.
- When a department electronically submits a transaction to final status in MMARS, the department head is certifying to the Comptroller that the individual, on behalf of the department head, certifies under the pains and penalties of perjury that any expenditure or other obligation is supported by sufficient authorized funds and is in accordance with the department’s enabling legislation and funding authority **and that** the MMARS transaction and any underlying supporting documentation are accurate and complete and comply with all applicable general and special laws, regulations and policies including public record retention and disposal requirements.

**MMARS Documents with Total Amount Exceeding Delegation Limit**

- Departments are responsible for review and processing of all CT and PC encumbrance transactions, which exceed the authorized delegation limit. Once the department has fully approved the CT or PC transaction, MMARS will automatically workflow the document to CTR or OSD (as applicable) for secondary review.
- CTR or OSD will process to “Final” all CT and PC encumbrance transactions with an amount greater than the authorized delegation limit. Once a MMARS transaction is validated and submitted by a department, the transaction will appear in a “PENDING” status on the MMARS document catalog and will appear on the workflow list for either CTR or OSD.
- To trigger secondary review, the department must submit photocopies of the required supporting documentation for that document **referencing the relevant MMARS document identification and version**. The supporting documentation required to be submitted to CTR or OSD is listed in

the "Document Profiles" for each document and also in the "Quick Reference" Tables for Subsidies, Grants, Goods and Services Contracts and Interdepartmental Service Agreements (ISAs).

- Departments **should not include** screen prints of the MMARS documents, original copies, department signoff forms or any other documentation, which is not prescribed as required for secondary review.
- If CTR or OSD are unable to process a transaction due to errors, omissions or other compliance issues, the document will be "rejected" and a rejection reason(s) will be inserted in the Comments field. The rejected transactions will be in the document catalog with a 'Yes' in the "Comment" column. It is the Department's responsibility to check the document catalogue and to take immediate action to correct rejected transactions and resubmit the transaction along with any supporting documentation for CTR and OSD processing. CTR and OSD will not modify MMARS transactions with errors or omissions since all changes require department head or designee's approval. CTR or OSD will process a document to "Final" status once the secondary review is completed.

## **QUALITY ASSURANCE**

The Quality Assurance Program is a collaborative effort between CTR and the OSD. Delegation offers departments the authority to process high volume/low risk transactions, process incidental purchases within a delegated dollar limit and provide the opportunity to use a P- Card for making payments. The Quality Assurance Team from CTR and from OSD will monitor and assist departments to ensure compliance with state finance law and procurement laws. These objectives will be achieved as follows:

### **Create a Supportive Environment Among CTR, OSD, and Departments**

The role of each of the Quality Assurance Teams is to be facilitators. Each of the OSD and CTR Teams strive to create a strong and supportive relationship with departments. The Quality Assurance Review will continue to be a vital tool to monitor the procurement and contracting processes and serves as the context in which to remedy problems and improve department's contractual and financial practices. OSD and CTR Quality Assurance Teams will be available to advise departments on procurement and contracting issues.

### **Monitor Compliance – Queries**

To monitor contracts within a department's transaction delegation and incidental purchase limit, CTR and OSD will conduct routine MMARS Warehouse queries that track encumbrance and payment activity. The Team will flag irregularities for more in-depth review during site visits. If irregularities are detected, a department may be contacted between scheduled visits to verify compliance or provide justification for the irregularity of specific contracts

### **Quality Assurance Team Visits**

In addition to conducting queries on department encumbrance activity, each Team may conduct regular site visits to review department procurement files and internal procurement practices. These in-depth reviews are needed to determine compliance with state finance law, procurement requirements and Comptroller policies and also to provide on-site training, technical support or assistance as needed.

### **Quality Assurance Performance Measurements**

Another component of the Quality Assurance program is an analysis of overall fiscal activities at the department level. This information will be discussed with the department CFO and is considered in the Quality Assurance Team's overall review of the department. CTR and/or OSD will provide the results of the performance measurement reviews in a summary document provided to the CFO. Each performance measure is reviewed and ranked as pass or needs improvement. A passing rank would indicate there are no significant concerns for this performance measure. A "needs improvement" rank would indicate there are concerns and action needs to be taken by the department to address the identified concerns.

Following are performance measurements that are conducted by CTR and OSD as part of the Quality Assurance Team visit indicating team reviewer:

1. **Procurement File and RFR Components Review (OSD)** –These two components are reviewed to ensure compliance with purchasing regulations and the accompanying guidelines. Procurement files are reviewed on site and assess the department’s maintenance of appropriate documentation in their procurement files. The RFR review is an audit of individual RFRs (on [COMMBUYS](#) and in procurement files) to assure all required components are included in each RFR.
2. **COMMBUYS Policy Compliance (OSD)** – This category assesses a department’s compliance with the established [COMMBUYS](#) polices regarding information required to be entered on [COMMBUYS](#) and the timelines to enter the information. This review assists departments in maintaining accurate information.
3. **Incidental Purchasing Review (OSD / CTR)** – This review assists in identifying purchasing patterns that may not be in compliance with the incidental purchasing guidelines. Warehouse Reports are analyzed to document purchasing patterns and may be used as a tool by departments to make **improvements** if needed.
4. **Contract and Records Management Review (CTR)** - This component assesses the department’s compliance regarding the execution and management of contract documents and procurement files. The ranking includes a percentage of contracts processed by CTR and by the department. Both reviews are performed utilizing internal CTR or OSD review forms.
5. **Bill Payment Performance (CTR)** - This ranking is part of an ongoing policy review. Each department’s payments are analyzed on a quarterly basis, using the Warehouse, for compliance with “Comptroller Bill Payment Policy”.
6. **Audit Findings (CTR)** - This measurement only applies to departments that had a Statewide Single Audit within the last several years. In reviewing the findings, OSC considers both the number of findings and the materiality of the findings. A large number of findings, whatever the cause, and repeat findings indicate an inadequate internal control environment in the department. The materiality of the findings, if due to reportable conditions, is also considered.

In addition to evaluating the department’s procurement and contracting procedures the Quality Assurance Team also reviews the department’s internal controls and other fiscal business procurement and contracting procedures. Risks may vary with the department’s organizational structure and mission. Departments are free to determine the best method for control of contracting and procurement activities. However, state finance law and relevant regulations must be followed as applicable.

## **Records Management**

In accordance with 815 CMR 10.00, and other applicable record keeping laws, the department is the keeper of the official record copy of the contract documents and the contract/procurement file and, as such, is responsible for maintaining all contract/procurement documents in MMARS, [COMMBUYS](#) and/or in hard copy files, as applicable. MMARS is the official record retainer of the encumbrance and payment documents will supersede any paper copies of the same information. The contract/procurement file must contain, or refer to the location of, all documentation related to procurement and resulting contract(s). A department is responsible for retaining and archiving contract records in accordance with the disposal schedules issued by the Secretary of State Records Conservation Board. Please see Policy Chapters on [“Records Management”](#).

## **Internal Controls**

The Comptroller publishes internal control guidelines in consultation with the State Auditor’s Office. All departments are required to file an Internal Control Plan and review and update this plan to ensure fiscal responsibility and accountability. [M.G.L. c. 7A, § 9A](#). ## **REVISIONS**

- November 1, 2005. Updates to reflect joint issuance of policy with OSD concurrent with launch of Procurement Information Center (PIC).
- November 1, 2006 – Removed language referencing Knowledge Center and updated relevant links to Mass.gov/osc portal site.
- November 16, 2011 – Increased PC Commodities Threshold Level to \$150,000.
- May 4, 2012 - Policy was updated to clarify language for P-Card references and minor wording changes.
