EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

I. INSTRUCTIONS

The Office of the Comptroller (CTR) is required to establish a schedule of object classes and object codes pursuant to [M.G.L. c. 29, § 27](#) to be used in all accounting for expenditures under the Massachusetts Management Accounting and Reporting System (MMARS). The object classes and object codes contained in this Expenditure Classification Handbook indicate the types of goods and services for which Commonwealth funds are expended.

TYPE OF EXPENDITURE	OBJECT CLASS/CODE
EMPLOYEE COMPENSATION AND RELATED EXPENSES	AA, BB, CC, DD
DEPARTMENT ADMINISTRATIVE EXPENSES AND OPERATIONAL SERVICES	EE, JJ
CONSULTANT SERVICE CONTRACTS	HH, NN1-N14, U05
PURCHASED CLIENT HUMAN AND SOCIAL SERVICES AND NON-HUMAN SERVICES PROGRAMS	MM
EQUIPMENT PURCHASE, TELP, LEASE, RENTAL, MAINTENANCE, AND REPAIR	KK, LL, N62, N63, U08, U09
FACILITY SUPPLIES: ENERGY COSTS AND SPACE RENTAL EXPENSES	FF, GG, N52
HORIZONTAL AND VERTICAL CONSTRUCTION, IMPROVEMENTS, MAINTENANCE, AND REPAIR COSTS	NN
GRANTS AND SUBSIDIES	PP
ENTITLEMENT PROGRAMS	RR
DEBT SERVICE	SS
LOANS AND SPECIAL PAYMENTS	TT
INFORMATION TECHNOLOGY (IT) EXPENSES	UU

This Handbook includes the object code descriptions and instructions regarding the encumbering and expenditure of all funds. The object code descriptions are brief explanations of the goods and/or services for which funds are encumbered and expended. The object codes in this Handbook are used for all expenditures of the Commonwealth, regardless of whether the payment is to employees, contractors, individuals, recipients, sub-recipient, beneficiaries, political subdivisions or another department.

CTR has provided accurate primary legal authority, oversight department, sub-recipient, agreement types, encumbrance/payment request documents and tax reporting requirements for each object code. However, departments are responsible for full compliance with all applicable state and federal statutes, rules, regulations and requirements governing the expenditure of funds, regardless of whether or not specifically cited in this Handbook. Departments are advised to seek additional assistance from their legal and fiscal staff.

Appendix A, the Object Code Revisions Tracking Log, illustrates any changes including the date the update occurred - New (N), Modified (M), or Inactivated (I) - made to object codes between 2007 and this update of the Expenditure Classification Handbook.

State Finance Law Reminder

State Finance Law requires that funding be in place before goods, services or other obligations can be requested or accepted from contractors, vendors, or employees. Specifically, under departments may not incur a liability for the Commonwealth in excess of their appropriation or allotments and the Comptroller may not permit the disbursement (payment) or incurring of an obligation (encumbrance) by departments without a sufficient appropriation and allotment.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

This means that a department cannot authorize performance to begin on a contract or amendment (including Interdepartmental Service Agreements), or request or accept services (including regular or contract employee services), or goods, or other obligations in excess of approved appropriations and allotments or other legally available funds. Evidence of sufficient funding (appropriation and allotment) for most contracts is an approved encumbrance in MMARS fully supporting the contract maximum obligation (if applicable) or anticipated expenditures. State Finance Law requires that annual appropriations may be expended only for expenses for the same fiscal year, (See [M.G.L. c.29, § 12](#)). This means goods and/or services to be paid from current fiscal year appropriations must be received and accepted within that same fiscal year (July 1-June 30)/(see [M.G.L. c. 4, § 7](#)).

Interim Budgets

CTR and the Executive Office of Administration and Finance (A&F), will submit an Interim Budget request in the event that the General Appropriations Act (GAA) is not passed by the Legislature and signed by the Governor by July 1st. An Interim Budget provides funding for the continuation of essential services across the Commonwealth. While no new programs or projects are supported as part of the Interim Budget, all routine business to carry out department missions is included (i.e., payrolls, client benefits, leases, goods and/or services). See [Interim Budget Guidance \(A&F 9\)](#).

Once departments are notified that the Interim Budget is signed, departments should proceed with routine business, including paying bills. Departments are allowed to incur obligations and expend funds only from accounts that are in both the House and Senate Budgets. If there is a question about whether an account will be funded, the Chief Fiscal Officer (CFO) should confer with A&F.

In addition to ensuring the availability of sufficient funding to support an expenditure, departments are responsible for determining the appropriate object code classification and requirements for any planned expenditure PRIOR to incurring an obligation. Departments unable to identify a particular expenditure by object class and object code, or having questions not addressed in these instructions, should contact CTR's Payments Team, Statewide Contracts Team, or Legal, for guidance.

The instruction section for each object code supports the use of the accounting system (MMARS) to monitor compliance with the rules and regulations. The instructions in this Handbook are the general rules for all departments.

Fringe and Indirect Costs

[Interim Budget Guidance \(A&F 9\)](#), Recovery of Fringe Benefits and Indirect Costs, requires departments to budget fringe benefit and indirect costs on all Federal grants and non-budgeted special revenue and trust accounts. Fringe benefits and indirect costs are not required to be encumbered and the charges will process regardless of the Expenditure Ceiling. In order to avoid negative balances at year-end or upon termination of funding, departments must ensure that fringe benefits and indirect costs are adequately budgeted for assessable expenditures posted to an open Accounting Period, including the Accounts Payable Period. Department Heads are responsible for budgeting for these costs from the applicable funds.

ISAs Funded with Trust and Federal Funds – Indirect Costs must be negotiated as Part of ISA Budget. Expenditures in a seller account may trigger indirect costs. Both the buyer and seller department are responsible for negotiating the type of expenditures authorized under an ISA and determining if the expenditures will trigger the assessment of indirect costs. These costs must be included as part of the ISA and funded as part of the ISA budget.

Seller budget lines, in all account types, that include compensation to regular employees (Object Class [AA](#)) and Special Employees/Contracted Services in Object Class [CC](#) supported by the ISA, must also include [DD \(D09\)](#) object class. This is necessary to cover the cost of Unemployment Compensation Insurance Premium (UI), Universal Health Insurance (UHI) contribution, and the employer share of Medicare Tax (MTX) for all payroll processed. Also, this is necessary to cover mandated charge backs for employee pension, health insurance and terminal leave expenses from federal grants, expendable trusts, capital accounts and all other non-budgetary accounts to centralized state administrative accounts.

II. OBJECT CLASS/OBJECT CODE DESCRIPTIONS

This **Handbook** provides brief descriptions of the object codes in each object class. In addition, CTR has identified additional helpful information and requirements that may apply to each object code. This information includes primary legal authority, oversight department(s), sub-recipient, agreement type(s); pre-encumbrance/encumbrance/payment request documents or methods, incidental purchase availability and tax reporting requirements, as follows:

Primary Legal Authority

The laws and regulations cited in this category are general guidance for each object code. Departments are responsible for ensuring legal compliance for all expenditures even though the citations may not be listed. Because departments are so diverse, a department may have a specific law or regulation that does not appear in this Handbook. In such cases, departments should consult with their legal and fiscal staffs. Hyperlinks to most legal authorities are found in Section III, below. **In addition to any legal authority cited here, all state departments in any branch of government are required to comply with state finance law which includes [M.G.L. c. 29](#) and [M.G.L. c. 7A](#), and regulations, policies and procedures issued by CTR related to state finance law compliance.**

Oversight Department

A department that has the primary responsibility for overseeing the implementation of the rules and regulations for each object code is listed. An attempt has been made to identify the correct department and, when there is more than one department, these appear in order of degree of oversight. If a department has a payroll or pending approval, it will be listed as an oversight department. CTR is listed as the oversight department based upon the Comptroller's authority to prescribe accounting rules and instructions for all state departments and the appropriate use of the state accounting system pursuant to: [M.G.L. c. 7A, § 7](#), [M.G.L. c. 7A, § 8](#), [M.G.L. c. 7A, § 9](#) and [M.G.L. c. 29, § 31](#).

Sub-Recipient

A sub-recipient is a non-Federal entity that expends Federal awards received from another entity to carry out a Federal program but does not include an individual who is a beneficiary of such a program (see OMB Guidance, federal Single Audit Act, the American Reinvestment and Recovery Act of 2009 (ARRA), Section 210 of Circular A-133 provides guidance on distinguishing a sub recipient from a vendor, Specifically, sub-recipients are non-Federal entities that are awarded Recovery funding through a legal instrument from the prime recipient to support the performance of any portion of the substantive project or program for which the prime recipient received the Recovery funding. Additionally, the terms and conditions of the Federal award are carried forward to the sub-recipient. Sub-recipient activities will be monitored as necessary to ensure that Federal awards are used for authorized purposes in compliance with laws, regulations, and the provisions of contracts or grant agreements and that performance goals are achieved. Sub-recipients receiving in the aggregate, \$500,000 or more in Federal awards during the sub-recipient's fiscal year must meet the audit requirements for that fiscal year and are subject to the Single Audit. In addition to all of the OMB A-133 requirements, sub-awards made from the federal stimulus funds (ARRA) are subject to Buy-American and compliance with the Davis-Bacon Act of 1931. Under ARRA, these requirements pass through to sub-recipients who may have previously been exempt from compliance. In addition to general performance reporting under the Contract, OMB requirements for ARRA transparency and reporting are also passed down to sub-recipients.

A sub-recipient entity "type" is typically a non-profit, government entity, city, town, hospital, or university in the business of providing services primarily to government or public entities.

A sub-recipient typically is able to determine who is eligible to receive what federal financial assistance and how the federal funds will be used to fulfill the federal program purposes because of its relationship to a prime recipient.

A sub-recipient has its performance measured against whether the objectives of the federal program are in compliance by the prime recipient.

A sub-recipient may have responsibility for programmatic decision making delegated from the prime recipient.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

A sub-recipient has responsibility for adherence to applicable federal program compliance requirements because of this delegation.

A sub-recipient uses the federal funds to carry out a program of the prime recipient as compared to providing goods or services for a program of the pass-through entity.

A sub-recipient award, in some instances, may result from a competitive application process.

A sub-recipient award usually benefits clients/customers of a Department rather than providing a direct service to the Department itself.

Agreement Type

Many of the object codes require that obligations made by a state department be supported by a written document. When there is more than one department, these appear in order of degree of use. Some object codes require specific types of documents or contracts specified by the oversight department. The most common contract forms are the Commonwealth Terms and Conditions (T&C), the [Commonwealth Terms and Conditions for Human and Social Services](#) (T&C HSS), the [IT Terms and Conditions \(T&C IT\)](#) and the [Standard Contract Form](#) (SCF). These have been jointly issued by A&F, the Operational Services Division (OSD) and CTR and, in the case of the T&C IT, the Executive Office of Technology Services and Security (EOTSS). The T&C / SCF are the default forms to be used whenever law, regulation or policy does not specify another contract form. The T&C, T&C HSS, or T&C IT is incorporated, by reference into each Standard Contract Form.

Executive (Level III) and Non-Executive (Level II) state departments are required to use these standard forms. Exempt (Level I) state departments that take advantage of MMARS document processing delegation are also required to use these standard forms. Exempt state departments are encouraged to use the standard forms, but may use an alternative format provided the contract contains the minimum necessary contract information to enable CTR or other oversight entity to process the contract in (MMARS), and the contract meets state finance law requirements identified by CTR.

CTR and OSD support the Office of the Attorney General's (AGO) recommendation against the execution of any vendor or contract boilerplate, or the acceptance of vendor invoices or purchase orders with contractual terms. Many of these forms contain terms which contradict standard Commonwealth boilerplate terms, provide a benefit to the vendor to the detriment of the Commonwealth, restrict the AGO's ability to successfully defend or litigate on behalf of the Commonwealth or severely limit contract recoveries for breach of contract. Departments that sign vendor contracts or accept terms that are contrary or in conflict with the T&C, T&C HSS, or T&C IT assume any risks, costs or liabilities associated with this decision and the AGO may choose not to represent the department in any resulting litigation. See [State Finance Law and General Contract Requirements](#).

Pre-encumbrance/Encumbrance/Payment Request

Guidance has been provided regarding object codes and the type of MMARS document to be used for obligating funds and making payments and, when there is more than one document, these appear in order of use. CTR will determine alternative procedures if circumstances warrant and alternatives are available. The encumbrance policy for MMARS GAE encumbrance documents differs depending upon whether or not the object code is governed by [M.G.L. c. 7, § 22](#). If an object code is governed by [M.G.L. c. 7, § 22](#), it is regulated by OSD's Incidental Purchasing rules. See section in [Incidental Purchases](#).

Tax Forms

CTR is the Tax Clearinghouse for all tax reporting forms using the Commonwealth's Federal Tax Identification Number (TIN). CTR is responsible for issuing Forms W-2 for payroll payments paid through the Commonwealth's Central Payroll Systems (*HR/CMS* or *e*mpac - UMASS Payroll System*).

CTR is also responsible for issuing Tax Forms (including Forms 1099 and 1042) for certain expenditures identified by the Internal Revenue Service (IRS) **AND** paid on MMARS using specific object code(s). Every object code requiring tax reporting has been identified. If a state department makes a payment from a delegated payment system or any mechanism, other than utilizing a specific vendor code on MMARS, the department is responsible for issuing the Tax Form directly to the recipient(s). In these cases, the Commonwealth TIN may not be used, and the department should submit Tax Forms

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

directly to the IRS and DOR in accordance with directions from CTR. **NOTE:** In order for a Form 1099 to be issued, two criteria must be satisfied:

1. The payment must be for a reportable expense.

AND

2. The payment must be made to a reportable payee.

Electronic Fund Transfers (EFT)

The use of Electronic Funds Transfer (EFT) is the payment method for all vendors. This provides cost savings to both the Commonwealth and the vendors for banking fees. The EFT Authorization Form is available for registration at. All remittance advice information is sent with the EFT. Many banks provide a hard copy of the "electronic remittance advice", if requested by the vendor. State departments may want to recommend that a vendor inquire as to the availability of this information from the bank. As an alternative, payment information is available on VendorWeb (<https://massfinance.state.ma.us/VendorWeb/vendor.asp>). VendorWeb is the communications tool for remittance information. The information provided from MMARS references payments by Vendor Invoice Number (formerly Payment Reference Number), Related Data and Text and appears in that order on the remittance advice. The Vendor Invoice Number is the primary communication field on the remittance advice (both electronic and paper) and must never include personally identifiable data. In MMARS, this number has been expanded to 30 characters and must be unique for each payment made to a vendor/customer. As part of a department's opening activities, it is encouraged that a department review its procedures for establishing Vendor Invoice numbers. Where possible, vendors should be consulted prior to a change in the basic data or format of the vendor invoice number.

III. OTHER KEY INFORMATION RELATED TO DEPARTMENT EXPENDITURES

Department Head Signature Authorization and MMARS Security

MMARS security will be based on roles that users will perform in the system. Three levels have been created, *user level*, *administrator level*, and *administrator authorized signatory*. Only those with an administrator level role will be able to submit documents to Final status. Anyone who logs on with MMARS security agrees that they will be responsible for all actions under their UAID and agrees to comply with CTR's policies and procedures and other applicable laws and regulations. Department Heads must certify security requests before security is turned on.

Please note that all Authorized Signatories of a Department Head who will be representing the Department Head, approving contracts or any other obligation or expenditure, approving hiring, or making any other legal obligation on behalf of the Department must be assigned a MMARS UAID with a security Administrator role with a DHSA flag even if they will never access MMARS. Audits of DHSA rely on reports from MMARS identifying who are authorized signatories. If individuals are acting as authorized signatories and are not recorded in MMARS with DHSA authorization, the department may be subject to an audit, quality assurance or internal controls finding for a DHSA irregularity.

CTR has aligned Electronic Security with Department Head Signature Authorization (DHSA) in order to take advantage of electronic signatures for MMARS processing. See [Department Head Signature Authorization and Electronic Signatures for MMARS Transactions](#). Every MMARS action must be confirmed/authorized by the Department Head or an authorized signatory.

Department Head Signature Authorization may NOT be delegated to a "contract" employee, to any "non-employee" (such as a consultant, or employee of an outside entity, an Authority or quasi-public agency) or to an employee of another Department since these individuals may NOT act as agents of the Department Head.

Department Heads should be careful when assigning titles to "contractors" or "non-employees" that might be perceived as placing these individuals in a decision-making role for the Department or in the position of "appearing" to replace or supervise state employees. (See [M.G.L. c. 29, § 29A](#)).

Electronic Signature and Department Head Authorization of MMARS Transactions

With the implementation of the MMARS accounting system, CTR aligned Electronic Security with Department Head Signature Authorization (DHSA) to take advantage of electronic signatures for MMARS processing. Every MMARS action must be confirmed/authorized by the Department Head or an authorized signatory. Department Head authorization can be accomplished in one of two ways:

1. Administrator Security with DHSA

If the employee (Administrator - system processor) who submits a transaction to final status is a Department Head authorized signatory, the data in the MMARS system will be sufficient documentation of the transaction approval. What appears in MMARS will be the record copy of the transaction.

- **Recording Doc Id on all supporting documentation.** Since there is **no paper copy required for the MMARS transaction** the Department will be required to include the MMARS Document Identification number (Doc ID) on all supporting documentation to "match" the supporting documentation with the electronic record of the MMARS transaction which will reside on MMARS. Recording the Doc Id on all supporting documentation can be

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

accomplished by entry of the MMARS Doc Id on the first page of the supporting documentation, or by entering the Doc Id on a **MMARS Document Records Management/Signature Authorization Form** that will act as the cover sheet to the supporting documentation for records management purposes.

2. Administrator Security without DHSA

If the employee (Administrator - system processor) who will be submitting a transaction to final status is not a Department Head authorized signatory, the Administrator must obtain a signature from an authorized signatory approving the transaction ***PRIOR*** to submitting the transaction to final status in MMARS.

- **Review of transaction and supporting documentation**

Since a Department Head is required to authorize the official record of a MMARS transaction, which is what **actually appears in the MMARS system**, departments must ensure that whoever authorizes the transaction has reviewed the transaction (or key data from the transaction) and related supporting documentation prior to authorization.

- **Evidence of DHSA**

MMARS functionality is designed to support extensive use of electronic signatures for DHSA purposes. Departments are encouraged to use this functionality to electronically document DHSA by encouraging signatories to access and view transactions on-line and apply approvals. However, Department Head signoff can be made in a variety of ways and does not necessitate approval in MMARS or HR/CMS directly or screen prints of MMARS or HR/CMS screens. Departments can use the **MMARS Document Records Management/Signature Authorization Form** to approve one or multiple MMARS transactions. Emails from the Department Head (or authorized signatory) with the key data elements for approval; signature or initials on invoices, spreadsheets or memorandum, or other “evidence” of signoff is also sufficient. Departments may develop any internal process as part of the Department Internal Control Plan that efficiently “documents” Department Head signoff. Once the evidence of DHSA approval is obtained, electronic approval can be made in MMARS, and the approval evidence can be filed for Records Management, Quality Assurance and Audit purposes.

- **Filing of authorization with supporting documentation**

Authorization documentation must be kept on file at the Department along with the record copy of the contract or other supporting documentation related to the MMARS transaction.

What does electronic signature of a MMARS transaction mean?

When a Department electronically submits a transaction to final status in MMARS, the Department Head is certifying to the Comptroller that the individual, on behalf of the Department Head, understands that their UAID (universal access identification) is being recorded for any entries made in the MMARS system **and that** individual certifies under the pains and penalties of perjury that:

it is their intent to attach an electronic signature approval and date to the MMARS transaction

AND THAT

they are either an authorized signatory of the Department Head who is authorized to approve the MMARS transaction as part of the Department Internal Control Plan

OR

that the transaction they are processing, and any supporting documentation have been approved by an authorized signatory of the Department Head, secretariat and any other required prior approval (including secretariat signoff if required) and a copy of these approvals are available at the Department referencing the MMARS transaction number

AND THAT

any expenditure or other obligation is supported by sufficient available legislatively authorized funds and is in accordance with the Department’s enabling legislation and funding authority

AND THAT

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

the MMARS transaction and any underlying supporting documentation are accurate and complete and comply with all applicable general and special laws, regulations and policies including public record intention and disposal requirements.

The MMARS transaction itself will be retained electronically on behalf of departments in MMARS. Therefore, MMARS transactions do not have to be printed and saved with supporting documentation, provided the Doc ID is identified on the back up documentation to match with the MMARS transaction. The same types of documentation used in the past to support payments/expenditures are required in MMARS. Reviewers, auditors, oversight agencies, etc., will access MMARS to review the accuracy, authorizations, and set-up of transactions. Departments must continue to maintain files with documentation to support these transactions. Departments are encouraged to use the e-signature functionality in MMARS to continue to eliminate paper where possible.

MMARS is designed to support extensive use of electronic signatures and review and approvals by users accessing MMARS. Screen printing MMARS screens, while allowable, does not support the functionality available to users. Department employees charged with approving MMARS documents are capable of accessing MMARS and viewing documents on-line.

The fact that the MMARS system “allows” a transaction to process to final status does not mean that the transaction is automatically legal, in compliance with legislative or funding authority, or properly authorized by a Department Head. Therefore, merely finding a systemic way to process a transaction to final status is insufficient, and department employees, will be held responsible and accountable for all activity under their UAID. Individuals unsure of proper processing or required approvals have an obligation to obtain guidance and approvals from their Chief Fiscal Officer prior to processing a transaction to final status.

Therefore, a CFO and/or Security Officer should not grant electronic security Administrator access to allow submission of MMARS transactions to “Final” status unless the Department can maintain sufficient internal controls, oversight and quality assurance (post audit) reviews to ensure that individuals who exercise such electronic security authorization in accordance with applicable laws, regulations, policies and procedures.

Public information and Privacy Concerns

It is important to provide payees with remittance information that will facilitate proper payment application to their receivables. When negotiating a contract establish a mutually agreeable data structure to communicate goods delivered or services rendered.

Since these fields are a matter of public record MMARS Doc IDs (encumbrances, payments, etc.), vendor invoice numbers, contract numbers, check descriptions, and any comment fields MUST NOT contain personal information (such as individual’s names, SSN numbers, bank account numbers, date of birth, addresses etc.) or other information that could jeopardize privacy or facilitate identity theft. MMARS Doc IDs and key comment fields may be printed on checks, sent electronically as part of remittance advice, and will appear on VendorWeb and may be viewable as part of public records requests, therefore care must be taken that individual personal information is not used.

Department Liaisons/Key Appointments

CTR maintains a database of individuals, formally appointed by a Department Head, who are responsible for the department’s compliance with various aspects of state finance law. CTR uses this database to communicate information and relies on these individuals as the knowledge base of the departments in their areas of expertise. These individuals are *appointments* by the Department Head with very specific duties. The duties of these individuals have been clarified. Please check the [Key State Finance Law Compliance Roles and Responsibilities document](#) to review these responsibilities. We recommend that the Security Officer be responsible for managing DHS A approvals prior to giving security access.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

The Internal Control Officer is responsible for ensuring that the DHSA, MMARS security, and Key Appointments are up to date, both at the department and at CTR. These responsibilities are vital for maintaining the series of reliances CTR uses to approve the warrant. It is critical that departments notify CTR promptly of any changes so that we can accurately communicate information to your department.

The following are considered “key fiscal contacts” who are formally appointed by the Department Head and who are designated as responsible for the department’s compliance with various aspects of state finance law:

- [Chief Fiscal Officer \(CFO\)](#)
- [General Counsel](#)
- [Internal Control Officer \(ICO\)](#)
- [Security Officer \(DSO\)](#)

Each of these positions is a senior staff appointment of the Department Head. While the CFO is expected to be an authorized signatory of the Department Head, most key fiscal contacts will also have Department Head Signature Authorization (DHSA).

Appointments to these roles cannot be made to contractors, contract employees, non-employees or employees of another department and cannot be shared across multiple departments.

The Internal Control Officer is responsible for ensuring that the DHSA, MMARS Security Officer and Key Appointments are up to date, both in the department’s documentation and at CTR (through designation in MMARS). These responsibilities are vital for maintaining the series of reliances CTR uses to approve the warrant. It is critical that departments notify CTR promptly of any change to key fiscal contacts so that we can accurately communicate information to your department.

Additional fiscal contacts include:

- [Payroll Director](#)
- [MMARS Liaison](#)
- [GAAP Liaison](#)
- [Single Audit Liaison](#)

Department Head(s) should review the list of personnel who coordinate policy and procedures on their behalf and reappoint individuals to these roles. Please review the current list within your department and forward any changes. For a description of the responsibilities of each individual, go to the [Key State Finance Law Compliance Roles and Responsibilities document](#). Each individual listed requires access to the Internet in order to retrieve and process documents and information posted by CTR.

Please note that procurement actions and expenditure actions under state finance law are distinctly separate responsibilities, and sometime are performed by different staff in a Department. At the present time, all state finance laws and procedures for MMARS activity remain status quo and all encumbrances and expenditures will follow the same rules as currently exist. COMMBUYS and MMARS are separate systems with separate security considerations and Departments should ensure that staff are properly trained in each system prior to initiating actions that involve purchasing that starts in COMMBUYS and will be separately encumbered and paid for in MMARS. CTR will be working very closely with OSD to translate activities in COMMBUYS and how Departments will record these activities in MMARS related to encumbering and expenditures.

Departments must ensure that procurement and purchasing actions and decisions comply with state finance law and that no action to incur an obligation through procurement and purchasing is initiated without first being approved internally as being supported by appropriations or other legally available funds, and once an obligation is incurred taking the steps to timely record through an encumbrance or pre-encumbrance in MMARS. Internal controls should be updated to ensure that procurement plans and purchasing and funding actions are coordinated with purchasing and fiscal staff up through the Chief Fiscal Officer (CFO) and expenditure are properly budgeted prior to procurement and purchasing actions in COMMBUYS or MMARS.

Fiscal Activity Based on a Series of Reliances

The Comptroller attempts to strike a balance between the Comptroller’s statutory responsibilities and minimizing unnecessary oversight of state government fiscal transactions by managing MMARS through a series of reliances:

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

1. The Governor submits a warrant to the Governor’s Council for approval relying upon the “certification” by the Comptroller. ([M.G.L. c. 29, § 18](#));
2. The Comptroller certifies expenditures on a warrant relying upon the “certification” of the Department Head or designee evidenced by an electronic signature approval of a transaction in MMARS. ([M.G.L. c. 7A, s. 3](#), [M.G.L. c. 29, § 61](#); [M.G.L. c. 29, § 20](#));
3. The Department Head certifies expenditures and other obligations in MMARS by relying on the Chief Fiscal Officer and other authorized Department Head signatories to manage the day-to day business of the Department and approve expenditures on behalf of the Department Head.
4. The Chief Fiscal Officer and other Department Head authorized signatories who approve purchases and expenditures, rely on Department employees to make purchases and confirm receipt, delivery and acceptance of commodities and services (including payroll) in accordance with prescribed laws, regulations, policies and procedures.

The Comptroller has set up the state accounting system (MMARS) with a series of checks and balances to balance fiscal risks with administrative and business efficiencies. The Comptroller relies on Department Heads to ensure that all payments and other transactions sent to the Comptroller for certification through MMARS have been approved by the Department Head as being legal, appropriate and properly submitted in accordance with applicable law, policies and procedures.

Although MMARS is an effective management tool, departments cannot rely solely on the MMARS system to manage fiscal responsibility and decisions. MMARS will not always prevent mistakes or incorrect entries. Some transactions will pass all the system tests (edits) and be processed to final status even though the expenditure, underlying procedures, procurement process, or contract documentation is legally deficient or inaccurate. Compliance responsibility remains at all times with the Department that processes transactions to final status. Since MMARS will track the UAID of the Department employee that approves transactions, quality assurance reviews will identify not only the transactions that will be reviewed, but also the security identification (UAID) of the individual(s) who entered and approved the transactions.

In order to support the series of reliances, the Comptroller establishes the following requirements for the management of Department Head Signature Authorization, Internal Control Plan Updates and Electronic Signatures for MMARS transactions. These policies and any applicable procedures shall apply to all departments unless specifically exempted. A Department’s use of MMARS requires at a minimum, agreement to comply with Comptroller laws, regulations, policies and procedures, even if other general or special laws exempt the department from compliance with Executive Branch requirements.

MMARS Encumbrance and Payment Documents

Under MMARS the term “commodity” applies to **both** goods *and* services. Goods include but are not limited to any articles of trade, items, products, supplies, information technology resources, automated data processing and telecommunication hardware, software and systems. Services include but are not limited to furnishing of time, labor, effort, specialized skills by a contractor including operational, professional, maintenance, consultant, maintenance and repair, non-professional and human and social services.

OFFICE OF THE COMPTROLLER

PRE-ENCUMBRANCE DOCUMENTS	ENCUMBRANCE DOCUMENTS	PAYMENT DOCUMENTS
RQS (Standard Requisition) A pre-encumbrance for the CT, RPO and PC, which can be used to reserve funds prior to encumbering.	CT (Contract Commodity) Encumbrance for contracts for services, leases that are less than 6 months and construction. PC (Commodity Purchase Order) Encumbrance for contracts for commodities that are “goods”.	PRC (Payment Request Document) The payment request document for the CT, PC and the RPO (manual payment).
	RPO (Recurring Payment Order) Encumbrance for recurring payments. The RPO is required for all space leases (Object Code G01), all TELP object codes (L02-L12 , N62 and U08), and all operating and capital leases longer than 6 months; ready payments; maintenance contracts and other contracts with scheduled payments.	PRM (Payment Request Matching Document) The payment request document for the RPO which is system (automatically) generated.
GAP (General Accounting Pre-Encumbrance) A pre-encumbrance to reserve funds prior to encumbering a GAE, with the exception of incidental purchase object code(s).	GAE (General Accounting Encumbrance) Encumbrance for obligations including incidental purchases (IP).	GAX (General Accounting Expenditure) The payment request document for non-incidental purchase payments encumbered with a GAE INP (Incidental Payment Document) The payment request document for incidental purchase payments encumbered with a GAE.

Departments should refer to this **Handbook** for details on which encumbrances are available for selected object codes. For additional guidance related to MMARS documents see Policy Chapters “**Contracts**” and Policy Chapters under “**Accounts Payable (Payments)**” for Payments.

MMARS Transactions Must Match Contract

MMARS must match the underlying contract or supporting documents, including extensions and amendments. What appears in the MMARS system will be considered the “official record” or “record copy” of fiscal activities and will supersede paper or other formats of the same information. Departments must remember that MMARS is an accounting system, used to accurately record and report on fiscal activities.

Although MMARS is an effective management tool, departments can not rely solely on the MMARS system to manage fiscal responsibility and decisions. MMARS will not always prevent mistakes or incorrect entries. Some documents will pass all the system tests (edits) and be processed to “Final” status even though the expenditure, underlying procedures, procurement process, or contract documentation is legally deficient.

Therefore, just because department employees are capable of processing a document to “Final” status in MMARS will not be interpreted to mean that the document, or underlying documentation are automatically legal, appropriate or in compliance with applicable laws, regulations, policies or procedures. Compliance responsibility remains at all times with the department employees who process documents to “Final” status. Since MMARS will track the UAID of the department employee who approves documents, quality assurance reviews will identify not only the documents that will be reviewed, but also the security identification (UAID) of the employee who approved the documents.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

- Departments must be especially careful when modifying MMARS documents (such as encumbrances) to support contract extensions and amendments, specifically effective dates. It is improper for departments to enter a modification to a MMARS document to reflect start and end dates that are not supported by the underlying contract documentation.
- The document ID number remains the same throughout the life of a contract.

MMARS Document Processing Delegation

In an effort to balance efficiency and appropriate levels of oversight control, CTR and OSD extend the offer of MMARS document processing delegation to all departments that demonstrate compliance with state finance law and procurement laws. Delegation means that a department will have more authority and responsibility in processing financial documents and filing contracts. See [Delegation of MMARS Document Processing Authority and Quality Assurance](#). Increased authority includes the ability to:

- Process encumbrance documents up to a certain dollar limit within the department.
- Make incidental purchases (INP) up to a certain dollar limit without a procurement process or contract.
- Eliminate individual payments up to a certain dollar limit by using the Commonwealth's credit card.

Increased responsibility includes creating and maintaining a management environment that:

- Provides the appropriate level of review and approval of encumbrance documents processed within the departments.
- Provides for the records management of the contract documents, as the department now maintains the record copy of the contract, which is a public document and must be made available upon request.
- Provides a framework to achieve best value for incidental purchases without a structured procurement or contract.
- Trusts and empowers employees to use Commonwealth credit cards for Commonwealth business, thus eliminating multiple processes for incidental documents.

In order to streamline the Commonwealth's procurement process for goods and/or services, and grants, departments have been classified into one of three levels based on their governing statute and Procurement Laws: Level I-Exempt; Level II-Non-Executive, and Level III-Executive. Regardless of a department's procurement level, **all departments** must comply with state finance law and Comptroller policies and regulations. Incidental Purchases (INP)

Incidental purchases are authorized under object codes governed by [M.G.L. c. 7, § 22](#). Incidental purchases are one-time, unanticipated, non-recurring purchases of goods or services that are not available from a Statewide Contract. Executive (Level III) and any other department that follows [801 CMR 21.00](#) for its internal procurement policy must comply with the incidental purchase requirements outlined in the OSD [Learn About COMMBUYS](#) page and the [Incidental Purchase Policy Guidance](#).

Non-Executive (Level II) and Exempt (Level I) departments that do not follow [801 CMR 21.00](#) must have written internal incidental purchase procedures and comply with CTR policies and procedures for incidental purchases. These require that all incidental purchases will follow the same “one-time, non-recurring” use and dollar threshold restrictions set for incidental purchases and will not be required to use Statewide Contracts. Incidental purchases do not require a competitive procurement or contract. The vendor’s invoice is the minimum necessary documentation for payment. Ongoing or recurring purchases of goods or services (performance that recurs annually) are not incidental purchases and must be procured using a competitive procurement.

The GAE/INP transactions are the encumbrance/payment request for incidental purchases, although no encumbrance is necessary except for the month of June of each fiscal year where a supporting GAE must be put in place (encumbered) to support any payments (INP). If a department chooses to encumber funds using a CT or PC document for incidental purchases, then a Standard Contract Form must also be completed and retained in the department’s procurement file. An incidental purchase may only be processed if the purchase is not available under an existing Statewide Contract (see below for specifics).

Statewide Contracts

Statewide Contracts are procured by OSD’s Procurement Management Teams on behalf of the Commonwealth. These procurements are conducted using [801 CMR 21.00](#) – a process that uses the best value philosophy and standard guidelines, including an evaluation process and performance measures. The process and results are documented in a procurement file.

Departments that follow [801 CMR 21.00](#) are required to use Statewide Contracts, irrespective of the dollar amount of the purchase. Exceptions will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview](#) - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts (Revised 10/1/2013). Departments are required to review the OSD [Learn About COMMBUYS](#) page.

The [Commonwealth of Massachusetts Purchase Order for Goods and/or Services Form](#) may be used to confirm the selection of equipment or services from Statewide Contracts. An incidental purchase may only be processed if the purchase is not available under an existing Statewide Contract.

Referencing the Statewide Master Agreement Number

All departments encumbering against statewide contracts **MUST** reference the statewide MA Doc ID number on all MMARS encumbrance (CT, PC and RPO) documents. Adherence to this requirement ensures OSD will be able to accurately track and report on encumbrance and payment activity from statewide contracts. **Departments must review their internal guidance and procedures to make sure that this step is completed.** OSD's Quality Assurance Team will continue to

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

monitor department encumbrance documents to determine whether statewide contracts have been referenced in MMARS, as required.

Contract Employee vs. Independent Contractors – Posting or Procurement?

Departments hiring “Individual Contractors” as either contract employees or independent contractors are required to comply with the policy [Contract Employees vs. Independent Contractors](#).

A department does not always know in advance whether services can be best performed by an individual contractor or by a company or firm. Therefore, whenever services are being performed, the department should take the following actions:

1. Identify the Business Needs of the Department

The hiring department should develop performance specifications for the services necessary to meet the department’s business needs, including where the work needs to be performed, the level of control and supervision that will be required for performance, whether the work hours or schedule will be set by the department or the contractor, whether the work is performed as part of or outside the usual course of business of the department.

2. Apply the Commonwealth Three-Part Test to the Business Needs

The department must determine if the type of work to be performed can be performed by a firm or an individual and if the type of oversight relationship will trigger an employer-employee relationship or that of an independent contractor. To make this determination, the department must **review** the [Employment Status Form](#) to determine if an employer-employee relationship will be created if an individual is selected for performance, as follows:

- a) If the work can be performed by a firm or an individual, or the department is unsure of how best to perform the requisite service, *and* the review of the *Employment Status Form* 3-part test indicates that there will *not* be an employer-employee relationship, the department is required to conduct a procurement for these services. See *How to Do a Competitive Procurement* in the OSD [Learn About COMMBUYS page](#).
- b) If the work can only be performed by an individual, *and* the review of the *Employment Status Form* 3-part test indicates that there *will* be an employer-employee relationship, the department is required to post the contract notice for a contract employee.

3. To confirm the employment status when a contract is signed with an individual contractor selected from either an RFR (independent contractor) or posting (contract employee), **attach a completed [Employment Status Form](#) to the Standard Contract Form.**

Contract Employee (Contractor Payroll)

All contract employees are in the Object Class CC and will be paid through HR/CMS and e*mpac. Contract employees may not be consultants. [M.G.L. c. 29, § 29A](#) applies only to “non-employees” and, therefore, does not apply to contract employees.

Departments do not encumber funds for contract employees. The contract requirement for having a valid Standard Contract Form executed by the department and the contract employee remain unchanged. A Standard Contract Form may be executed for multi-fiscal years, or if ending this fiscal year and amendment to extend the end date must be executed no later than June 30th of this fiscal year.

Contract employees pay will be subject to the same funds availability controls that are currently applied to regular employee payroll. Funds availability for regular employees will be addressed prior to contract employee processing.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

Regular employee payroll will not be held if funds are insufficient to pay contractors. LCM Labor History and Commonwealth Information Warehouse (CIW) reports can be used to track contract employees' payroll expenses.

Prompt Payment Discounts (PPD)

The Commonwealth has business relationships with thousands of business entities totaling billions of dollars, offering a significant base for Prompt Pay Discounts. It is mutually beneficial to negotiate and include Prompt Pay Discount terms in all new and amended contracts with all vendors/contractors. Contractors benefit from Prompt Pay Discounts because they result in improved cash flow and predictable payment stream for commodities or services rendered. The Commonwealth benefits because vendors/contractors reduce the cost of products and services through the applied discount. Departments must check the terms of discounts on department-initiated contracts and statewide Master Agreements (MA) to identify the prompt payment discount options available to ensure maximum savings.

Departments should review and process all payment requests in MMARS in a timely manner. The goal of the Commonwealth is to process payments within 9 calendar days of invoice receipt. This goal will allow MMARS to take the maximum discount available or, if none was negotiated, will support the Commonwealth [Bill Payment Policy](#).

To assist with department analysis of payments made and discounts taken or missed, CTR Memo FY2007-20 provides starter queries that departments can run in the Commonwealth Information Warehouse (CIW).

Understanding the potential savings to the Commonwealth, CTR/OSD continue to work together promoting PPD to assist departments so that new/modified contracts will include standard discount terms. For further guidance on Prompt Payment Discounts please see the [Prompt Payment Discounts Policy](#).

If the contractor has not offered prompt payment discounts or is not enrolled in Electronics Funds Transfer EFT (either because it was not required in the procurement or it was deemed inappropriate at the time) contract renewal provides an excellent opportunity for departments to encourage contractors to offer prompt payments and to take advantage of this cost saving payment method offered by EFT. EFT is the payment method for all contract payments. Please see: [Commonwealth Bill Paying Policy](#).

W-9 Certification

In order to receive payments from the Commonwealth, a vendor must be registered in the Vendor/Customer (VCUST) Table of the state accounting system (MMARS). Departments are required to obtain a completed Massachusetts Substitute Form W-9 (Request for Taxpayer Identification Number and Certification) or an appropriate Form W-8 Series (W-8BEN, W-8ECI, W-8EXP and W-8IMY) for foreign vendors.

For Vendor registrations, departments should enter vendor's information through a Vendor Customer Creation (VCC) transaction based on Form W-9 information from vendor. Vendor should have a legal name, address and a Tax Identification Number. A TIN will either be:

- A Social Security Number (SSN) issued by the Social Security Administration (SSA) for individuals or
- An Employer Identification Number (EIN) issued by the IRS for sole proprietorships, trusts, estates, partnerships, corporations, non-profit organizations, and public entities.

For Customer registrations departments should make every effort to obtain a Form W-9. When entering a VCC/VCM for a customer, remember to put CUST in the first four positions of the document identification.

Like any other MMARS transaction, when a department submits a VCC or VCM to pending status, the authorized Department Head signatory is certifying that the document is accurate and complete, and that they have verified the information in the VCC or VCM. Merely obtaining a Form W-9 is not enough. CTR cannot verify the information in a Form W-9 or Form W-8. Departments are in the best position to verify the accuracy of payee information because they are working directly with the payee and can take whatever steps are necessary to verify information. By accepting Forms W-9 and updates only from authorized signatories, verifying the signatures match the [CASL Form \(Contractor Authorized Signatory Listing\)](#) or some other verification, departments assist with reducing the risk of misdirecting payments to the wrong payee or address, delaying payments or inadvertently allowing fraudulent payments.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

- **New VCCs**

Ensure that the payee is actually a new vendor that does not already have an existing vendor code on MMARS. Not all vendors know that they are already registered on the VCUST table. A search of the TIN/EIN should identify if the payee has a current vendor code.

- Departments should ensure that the payee has submitted an SSN/TIN or FEIN with a legal name and address that match what they have already filed with the IRS and DOR. Many entities have a legal name and a “DBA” (“doing business as”) with a different operational name. The legal name should be the name listed in VCUST. If the entity needs the dba name also, this should be listed under “Division”. If the legal name is not used, the Commonwealth may get a B-Notice requiring modifications both for the Commonwealth and the payee and require a payee to modify already filed tax returns.

- **VCMs**

Departments should always look up the vendor in MMARS to verify the current information and to obtain the necessary supporting documentation for the requested change. No legal address, remittance address, tax id, legal name or structure changes should be made unless an authorized signatory of the payee has submitted an updated W-9 or other acceptable supporting documentation.

- Special care must also be taken when a payee requests payment to be sent to a different **remittance address** (other than the legal address where tax reporting is made) or to another bank account to ensure the address or bank account is verified by an authorized signatory of the payee with sufficient back up documentation. This verification is necessary to ensure that payments are not fraudulently diverted to another address or bank account.

See [Contractor Authorized Signatory Listing Policy](#).

Contractor Signature Authorization Listing (CASL)

For a contract (including grants, leases, subsidies, etc.) to be legally valid, it must be executed by an authorized signatory of both the department and the contractor. As requested by the Office of the Attorney General (AGO), a department is required to take reasonable steps to verify that a contract, including the applicable Commonwealth Terms and Conditions found in the Standard Contract, has been executed by an authorized signatory of the contractor and that the signature that appears on the contract was actually made by the authorized signatory and not a representative. An authorized signatory is an individual who is legally authorized to sign on behalf of the contractor and legally bind the contractor. It must be standard business practice for departments to verify the signature that appears on a contract was made by an individual authorized to execute a contract on behalf of the contractor (regardless of the contract amount).

Departments must establish internal procedures for obtaining and filing contractor authorized signatory listings for all contractors (filed as part of Internal Control Plan). A department may use the [Contractor Authorized Signatory Listing](#) form issued by CTR or any comparable form, provided the contractor certification language appears on the comparable form.

At a minimum, a list of authorized signatories for a contractor must be attached to the record copy of each contract or contract amendment filed at the department. This listing may be obtained once per contractor (as part of either the procurement or contract execution process) and photocopied and attached to each contract the department has with that contractor until the listing is updated. The listing does not need to be attached to a photocopy of any contract submitted to CTR or OSD for workflow review and processing. Quality Assurance Reviews and other post-audit activities will verify proof of contractor signature authorization. For further information, see [Contractor Authorized Signatory Listing](#).

VendorWeb

Vendors can view their scheduled payments and payment history by logging on to VendorWeb. Available online are the tentative scheduled payment date or the actual payment date, payment number, vendor invoice number, contract number, line amount, any associated text information and the department making the payment. VendorWeb is located at <https://massfinance.state.ma.us/VendorWeb/vendor.asp>.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

The VendorWeb application was created to help the Commonwealth’s vendors get their payment information free and easily. Vendors access VendorWeb with their Commonwealth Vendor Customer code and last 4 digits of their tax identification number (TIN). Vendors can view or download information for payments made and payments scheduled in MMARS to be paid. Payment information can be generated using date ranges and can be sorted by a selected department or by payment from all departments.

Quality Assurance Review

CTR’s Statewide Risk Management Team provides a post-audit review of the business activities for which the Office of the Comptroller has oversight and issues guidance on internal controls and identifies compliance strengths and weaknesses as well as promoting Department compliance with appropriate regulations, policies, and procedures for all fiscal business.

Records Management

Pursuant to [815 CMR 10:00 - Records Management of Bills, Vouchers and Contracts](#), departments have been designated the “keeper” of all record copies of contracts and supporting documentation. This policy governs *all* contracts, grants, Interdepartmental Service Agreements (ISAs) and amendments, which use the BGCN/BGCS, IE, CT, RPO, PC, GAE, or RQS/GAP MMARS pre-encumbrances, encumbrances and the following supporting payment request documents: PRC, PRM, GAX, INP & IET documents, or any other document necessary to process a contract.

Records Management includes maintaining the complete original “record copy” of a document for the required retention period and then archiving the document in accordance with the records retention schedule published by the Records Conservation Board of the Secretary of State’s Office (SEC). See [SEC Statewide Records Retention Schedule](#).

- **CTR** will maintain the electronic record copy of **transactions** processed in MMARS and will be responsible for retaining and archiving these records. Departments do not have to separately maintain electronic copies of MMARS Transactions.
- **CTR** will also maintain record copies of **W-9 Forms, and Electronic Fund Transfer (EFT) Authorization forms** which must continue to be submitted to CTR to register a vendor. Departments should retain copies of these documents for the contract files.
- **Departments** are required to maintain all “back up” or “supporting documentation” related to a MMARS document (marked with the Doc ID) for the requisite period of time specified for that type of document in accordance with the [Statewide Records Retention Schedule](#). For example, contract and payment related documentation must be maintained for 6 years from the last payment made under that contract or until any litigation involving the contract is resolved (which would include procurement, contract, payment and correspondence.) Please see previous section for more examples.

This is to clarify the use of the use of the term’s “transaction” and “document”:

Transaction refers to a specific event that occurs in MMARS that may reference one or more documents.

Document is a discrete article (may be paper or electronic text) that supports the transaction event in MMARS: for example, T&C and signed SOW are documents that support the CT transaction in MMARS.

PART TWO: OBJECT CLASS / OBJECT CODE DEFINITIONS AND DESCRIPTIONS

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

OBJECT CLASS AA STATE EMPLOYEE COMPENSATION

Covered Expenditures

This object class includes compensation for state employees in authorized positions. Compensation includes regular salary, overtime and other financial benefits.

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and CTR Fiscal Policies (including payroll policies and [Payroll Best Practices](#)). *All expenditures from this object class must be made through one of the Commonwealth's two central payroll systems (HR/CMS or e*mpac) and are governed by the Fair Labor Standards Act (FLSA).* Most departments are subject to the rules and regulations of the Human Resources Division (HRD) for compensation payments. In order to receive payments through this object class, the employee must be in an authorized position. Departments which are not subject to the Human Resource Division (HRD) regulations for personnel classification, such as the Legislature, Judiciary, State Treasurer, State Auditor, State Secretary, Attorney General, District Attorneys, Sheriffs, Higher Education, Independent Commissions and Boards, will be governed by applicable enabling statutes, collective bargaining agreements, personnel policies and Federal laws.

Expenditures Not Covered

This object class does not include employee reimbursements or payments for job related activities (see Object Class BB).

A01	SALARIES: INCLUSIVE Salaries for authorized positions. One or more persons may occupy these positions. These positions are scheduled through HRD for Executive departments.

OBJECT CLASS CC

SPECIAL EMPLOYEES/CONTRACTED SERVICES

Covered Expenditures

Contract employees are individuals who are employed through contracts, as opposed to being appointed to authorized state positions as state employees. Contract Employees have an employee-employer relationship with the Commonwealth as determined by conducting the Commonwealth Three-Part Test by completing the [Employment Status Form](#) in compliance with the [CTR/OSC/HRD policy on contract employees](#).

Contract Employees are determined to work under the direct supervision and control of the department. This object class does not include consultant contracts, which are specialized services, performed by “non-employees” by either firms or individuals (independent contractors) that are governed by [M.G.L. c. 29, § 29A](#).

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and CTR Fiscal Policies (including payroll policies and Payroll Best Practices). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements](#)” for [801 CMR 21.00](#) covered goods and services.
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

Contract employees:

- are not included in the Full Time Equivalent (FTE) count of Commonwealth employees.
- are not entitled to membership in the state retirement plan.
- are not entitled to membership in any employee insurance programs.
- are not eligible for fringe benefits, sick, vacation or personal leave.
- are required to contribute to the Alternative Retirement Plan, the Omnibus Budget Reconciliation Act of 1990 (OBRA);
- are considered temporary employee under contract for the life of a particular project and may not directly or indirectly supervise temporary or permanent employees of the Commonwealth and may not be used as permanent substitutes for state positions
- are covered by Fair Labor Standards Act (FLSA) and may claim overtime for work required over 40 hours per week.
- must complete a Form W-4; are hired following the department’s standard Hiring Procedures.
- must execute a Standard Contract Form.
- must have a completed [Employment Status Form](#) attached to the Standard Contract Form;
- must receive a W-2 tax form.

*All contract employees are compensated in this object class must be made through one of the Commonwealth’s two central payroll systems (HR/CMS or e*mpac). Departments do not encumber funds for Contract employees. Instead, contract employees are subject to the same funds availability controls that are currently applied to regular employee payroll. Funds availability for regular employees will be addressed prior to contract employee processing. Regular employee payroll will not be held if funds are insufficient to pay contractors. Labor Cost Management (LCM) Labor History and Commonwealth Information Warehouse (CIW) reports can be used to track contract employees’ payroll expenses.*

Expenditures Not Covered

State employees may not be reimbursed through this object class. This object class does not include compensation for state employees in authorized positions (see Object Class [AA](#)) or for independent consultants (see Object Classes [HH](#) and [NN](#)).

Departments must follow 815 CMR 5.00 and CTR’s policies on processing Settlement and Judgments when using this object code. Payments under this object code include settlements, court or administrative judgments resulting in damage payments which are not tax reportable to the claimant, and which are payable either jointly to the Claimant and 3rd party (such as an insurer) or solely to the 3rd party. No payments may be made to an attorney under this object code. All payments must be made using the 3rd party’s TIN with payee name “Claimant name and 3rd party” or just “3rd party”. Includes actual medical cost reimbursement for emotional distress (employee or non-employee), employee indemnification reimbursements paid to claimant’s attorney, non-employee personal injury or sickness damages or damages directly arising from the personal injury or sickness, wrongful death, non-employee reimbursement for property damages (substantiated by receipts for actual costs incurred), and other claims authorized to be paid under this object code by CTR’s Legal Unit. M.G.L. c. 258 Tort Claims must be paid by CTR using Liability Management Reduction Fund (LMRF) since departments may not pay tort claims using department funds. Upon approval of use of object code by CTR’s Legal Unit, Settlements and Judgments are payable either by department using department Funds or if department does not have sufficient legally available funds, by CTR using the Settlement and Judgment Account. See A11 for Tax Reportable Settlement and Judgment payments to current and former state employees. See E29 for all interest payments, which must be paid separately from damages. OBJECT CLASS HH CONSULTANT SERVICE CONTRACTS

Covered Expenditures

This object class includes expenditures for temporary professional services for specific projects during defined time periods. Services are specialized and are not ordinarily provided by, or available from, state employees. Consultant Contractors (Independent Contractors) provide advice, develop programs, and provide other services. Consultants do not provide direct services to clients. (For example: under this object class a department may contract with a physician to review case files and give expert medical advice that will enable employees to develop comprehensive treatment plans. The physician would not, however, treat clients.) The use of the term “persons” includes firms or companies, as well as individuals.

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and [CTR Fiscal Policies](#). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts (Revised 10/1/2013). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- Individuals must be determined to be “Independent Contractors” by conducting the Commonwealth Three-Part Test in the [Employment Status Form](#) and attaching it to the Standard Contract Form in compliance with the CTR/OSC/HRD policy on contract employees: [Contracts](#).
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

Expenditures Not Covered

State and/or contract employees may not be reimbursed through this object class. For direct client services, see Object Class [MM](#). For Operational Services, see Object Class [JJ](#). For Information Technology (IT) expenses, see Object Class [UU](#).

HH1	FINANCIAL SERVICES Persons who provide financial and audit services, including but not limited to keeping books or accounts, design and control systems of accounting, compiling statistical data and preparing statistical reports, contract compliance, managerial expertise in fiscal or budgetary matters, market analysis and projections in business development and economic forecasting, land appraisers or persons who set the value of a piece of land or other real property interests. <i>Departments contracting for audit work must obtain prior written approval from CTR before contract is executed to ensure that contract does not raise conflict issue with State audit contract and GAAP requirements.</i>

OBJECT CLASS KK PROGRAMMATIC EQUIPMENT PURCHASE

Covered Expenditures

This object class includes expenditures for the procurement (outright purchase) and installation of equipment to support the programmatic functions administered by state departments.

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and CTR Fiscal Policies (see [Fixed Asset Acquisition Policy](#)). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts \(Revised 10/1/2013\)](#). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

PROGRAMMATIC EQUIPMENT TAX EXEMPT LEASE-PURCHASE (TELP), LEASE AND RENTAL, MAINTENANCE AND REPAIR

Covered Expenditures

This object class includes expenditures for non-Information Technology (IT) and non-facility infrastructure Tax Exempt Lease-Purchases (TELP), Equipment Term Leases and short-term rentals, and equipment maintenance and repair.

Expenditures Not Covered:

This object class does not cover outright purchase of equipment without financing. For this expenditure, see Object Class [KK](#). For facility infrastructure and systems, see Object Class [NN](#). For Information Technology (IT) expenses, see Object Class [UU](#).

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and [CTR Fiscal Policies](#) (see [Fixed Asset Acquisition Policy](#)). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts \(Revised 10/1/2013\)](#). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

The format of this object class differs from other object classes because the object codes are divided into the following three categories:

OBJECT CODES L02 THROUGH L12 – EQUIPMENT LEASE-PURCHASE (TELP) (PURCHASE OF COMMODITY WITH THIRD PARTY FINANCING WITH GOAL OF ULTIMATE OWNERSHIP)

- Department has a definite long term need for the Commodity.
- Commodity is not likely to be quickly outdated by advances in technology, or the durability of the Commodity will provide a long-term useful life.
- Department wants to “own” equipment.
- Department does not have sufficient available funds for outright purchase.
- A&F has approved the use of a TELP.
- Department must commit to ensuring sufficient operating or other non-capital funds are available for TELP payments.
- TELPS paid (in full or in part) with Commonwealth funds (appropriated) MUST use either the Tax-Exempt Financing by Commonwealth TELP, Statewide TELP Contracts or an approved Contractor TELP; Universities, Non-Executive and Exempt departments that plan to use appropriated funds to pay for a TELP MUST use the approved TELP contractors since use of appropriated funds potentially impacts the Commonwealth’s bond rating and must be carefully monitored.
- Department builds equity in equipment and title passes to the department at end of Lease-Purchase payments.
- Procuring departments are required to service/maintain equipment. Service/Maintenance contracts should be executed with an appropriate service vendor and recorded on MMARS as a CT or RPO.
- TELPS require recurring payment mechanism to ensure timely payments (RPO).
- TELPS may not be terminated without prior approval of the Comptroller.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

OBJECT CODES L22 THROUGH L32 - EQUIPMENT SHORT TERM RENTAL OR TERM LEASE (SHORT TERM USE OF EQUIPMENT WITHOUT OWNERSHIP.)

Short Term Equipment Use Without Ownership (Less than 6 months) – Rental

- Short Term “use” department does not wish to own.
- Rental payments are usually significantly more than Term Lease or Lease Purchase (TELP) payments.
- Maintenance/insurance is provided by the contractor.
- Departments will not build equity in the equipment and will not own or buy out the equipment as an option of the Rental.
- Title and ownership and risk of loss remain with the contractor and will NOT be transferred to the department as part of the Rental.

Long Term Equipment Use Without Ownership (Longer than 6 months) – Term Lease

- Lease gives the department only the “use” of the commodity for a specified period.
- Lease payments are usually less than a rental for the same period of time.
- Procuring departments are usually required to maintain and service the commodity, either as part of the lease payment or under a separate maintenance contract.
- Procuring departments will not build equity in the equipment and will not own or buy out the equipment as an option of the lease.
- Leases may offer automatic upgrades or replacement with new models during or at the end of the term of the lease.
- Title and ownership and risk of loss remain with the Contractor and will NOT be transferred to the department as part of the lease.

A **Term Lease** must be evaluated to determine if it should be categorized as capital or operating. **The key points are as follows:**

- Is there are transfer of ownership at the end of the lease?
- Is there a “bargain purchase option?” In other words, can the asset be purchased at the end of the lease for less than its fair market value at the end of the lease?
- Is the term of the lease GREATER THAN OR EQUAL TO 75% of the asset’s **USEFUL LIFE**?
- Is the present value of the lease payments GREATER THAN OR EQUAL TO 90% of the asset’s **FAIR MARKET VALUE** at the time of signing of the contract?

If the answer to **ANY** of the above is **YES**, the lease type is a **CAPITAL** lease. All others are **OPERATING LEASES**.

OBJECT CODES L42 THROUGH–L63 EQUIPMENT MAINTENANCE AND REPAIR (INCLUDES REPLACEMENT PARTS ONLY AS PART OF THE SERVICE AGREEMENT)

Maintenance is day-to-day, recurring repair and upkeep, which maintains an asset in good working condition throughout its estimated useful life.

OBJECT CLASS MM

PURCHASED CLIENT HUMAN AND SOCIAL SERVICES AND NON-HUMAN SERVICES PROGRAMS

Covered Expenditures

This object class includes expenditures for client services including, but not limited to, social, special educational, health, medical, mental health, rehabilitative, and elder programs and services to clients, residents, and students. This object class is divided into object codes based upon who provides the client services (individuals or corporations) and whether or not the services are part of a Purchased Program of Client Services (POS) under [M.G.L. c. 29, § 29B](#).

POS – PURCHASE OF SERVICE PROGRAMS

Purchased Program of Client Services under [M.G.L. c. 29, § 29B](#).

- Purchased Service Programs provided by organizations or Commonwealth departments (see object codes M03 and MM3);
- Purchased Service Programs providing direct services to clients, such as client transportation, designed to support and enhance the delivery of other direct client services, and indirect or ancillary services which enhance, or supplement purchased client human and social services such as contractor staff training (see object code M04).
- Human and Social Services Program Equipment (see object code M11).

NON-POS PROGRAM SERVICES

Services not part of a Purchased Program of Client Services and not covered under [M.G.L. c. 29, § 29B](#).

- Ongoing care to residents, patients and clients rendered by individuals other than state employees of the procuring department (see object codes M01 and MM1).
- Client services rendered by individuals employed by incorporated entities such as agencies providing respite workers and medical group practices (see object codes MIM and M2M).
- Reimbursements to clients or to individuals for expenses incurred on behalf of clients (see object codes M02 and MM2); tuition and educational fees (see object code M07).
- Non-Human Service – Cooperative Funding Contracts (see object code M10).

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

OBJECT CLASS NN

HORIZONTAL AND VERTICAL CONSTRUCTION, IMPROVEMENTS, MAINTENANCE AND REPAIR COSTS AND LAND ACQUISITION

Covered Expenditures

This object class includes expenditures for the construction, reconstruction, installation, demolition, maintenance or repair of any building (vertical structures). The Division of Capital Asset Management and Maintenance DCAM/(DCP) oversees vertical structure construction, improvement, major maintenance and repair of fixed building systems and structures, land acquisition and related costs. This object class also includes expenditures for the construction, reconstruction, alteration, maintenance, remodeling or repair of any Horizontal/Lateral structures such as highways, roads, bikeways, sidewalks, airport runways, waterways, railroads, bridges, tunnels, and dams. The Massachusetts Department of Transportation (DOT) oversees most Horizontal/Lateral structure construction, improvements, maintenance, land acquisition and related costs and services. Costs and services related to this work include planning, survey, engineering, design, project management, purchase of rights of way, environmental studies and permitting, utility relocation, drilling services, and any other services necessary to complete the work, excluding those expenditures specifically identified elsewhere in this Handbook. Examples of major building construction projects are an addition, alteration, betterment or structural change to an asset, which results in its greater durability or extended useful life or to comply with current code regulations. Non-major facility infrastructure maintenance and repair of state buildings is overseen by the occupying department and includes day-to-day, routine and/or recurring repair and upkeep activities to keep an asset in good working condition throughout its estimated useful life or minor, non-recurring repair and upkeep that is needed to keep assets in good working condition. See Object Class LL for rules regarding lease, rent or TELP expenses. The use of the term “persons” includes firms as well as individuals.

Expenditures Not Covered

Purchase, lease, rental, maintenance and repair of equipment used in facility programs. For those, see Object Classes: [FF](#), [KK](#) and [LL](#). Formula-based local aid expenditures for road and bridge projects shall be coded as Object Class [PP](#) specifically object code [P01](#) (Use restricted to DOT).

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and [CTR Fiscal Policies](#). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition, for goods and services contracts:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22, 801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts \(Revised 10/1/2013\)](#). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- All Departments must comply with the Operational Services Division (OSD) Tax-Exempt Lease Purchase Financing Handbook [COMMBUYS](#). (Search for “PRF17” under Contracts. The TELP Handbook is under “Terms/Forms”);
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

EQUIPMENT LEASE-PURCHASE (TELP) (PURCHASE OF COMMODITY WITH THIRD PARTY FINANCING WITH GOAL OF ULTIMATE OWNERSHIP).

- Department has a definite long term need for the Commodity.
- Commodity is not likely to be quickly outdated by advances in technology, or the durability of the Commodity will provide a long-term useful life.
- Department wants to “own” equipment.

EXPENDITURE CLASSIFICATION HANDBOOK

OFFICE OF THE COMPTROLLER

- Department does not have sufficient available funds for outright purchase.
- A&F has approved the use of a TELP.
- Department must commit to ensuring sufficient operating or other non-capital funds are available for TELP payments.
- TELPS paid (in full or in part) with Commonwealth funds (appropriated) MUST use either the Tax-Exempt Financing by Commonwealth TELP, Statewide TELP Contracts or an approved Contractor TELP; Universities, Non-Executive and Exempt departments that plan to use appropriated funds to pay for a TELP MUST use the approved TELP contractors since use of appropriated funds potentially impacts the Commonwealth's bond rating and must be carefully monitored.
- Department builds equity in equipment and title passes to the department at end of Lease-Purchase payments.
- Procuring departments are required to service/maintain equipment. Service/Maintenance contracts should be executed with an appropriate service vendor and recorded on MMARS as a CT or RPO.
- TELPS require recurring payment (RPO) mechanism to ensure timely payments.
- TELPS may not be terminated without prior approval of the Comptroller.

EQUIPMENT SHORT TERM RENTAL OR TERM LEASE (SHORT TERM USE OF EQUIPMENT WITHOUT OWNERSHIP).

Short Term Equipment Use Without Ownership (Less than 6 months) – Rental

- Short Term “use” Department does not wish to own.
- Rental payments are usually significantly more than Term Lease or Lease Purchase (TELP) payments.
- Maintenance/insurance is provided by the contractor.
- Departments will not build equity in the equipment and will not own or buy out the equipment as an option of the Rental.
- Title and ownership and risk of loss remain with the contractor and will NOT be transferred to the department as part of the Rental.

Long Term Equipment Use Without Ownership (Longer than 6 months) – Term Lease

- Lease gives the department only the “use” of the Commodity for a specified period.
- Lease payments are usually less than a rental for the same period of time.
- Procuring departments are usually required to maintain and service the Commodity, either as part of the Lease payment or under a separate maintenance Contract.
- Procuring departments will not build equity in the equipment and will not own or buy out the equipment as an option of the Lease.
- Leases may offer automatic upgrades or replacement with new models during or at the end of the term of the Lease.
- Title and ownership and risk of loss remain with the Contractor and will NOT be transferred to the department as part of the Lease.

A **Term Lease** must be evaluated to determine if it should be categorized as capital or operating. **The key points are as follows:**

- Is there are transfer of ownership at the end of the lease?
- Is there a “bargain purchase option?” In other words, can the asset be purchased at the end of the lease for less than its fair market value at the end of the lease?
- Is the term of the lease GREATER THAN OR EQUAL TO 75% of the asset’s **USEFUL LIFE**?
- Is the present value of the lease payments GREATER THAN OR EQUAL TO 90% of the asset’s FAIR MARKET VALUE at the time of signing of the contract?

If the answer to **ANY** of the above is **YES**, the lease type is a **CAPITAL** lease. All others are **OPERATING LEASES**.

For non-construction related legal services, see H09. All Commonwealth departments are required to obtain prior written review by the Office of the Attorney General (AGO) for any legal services performed for the department under a contract. The AGO review of legal services contracts is limited to determining that any attorney/firm hired by a department is a member of the Massachusetts Bar (or out of state bar) in good standing, has no apparent conflicts of interests, and if providing litigation services, will appear in court on behalf of the Commonwealth only after his/her appointment as a Special Assistant Attorney General (SAAG) by the AGO. The Attorney General Review Form for Attorneys Providing Legal Services form must be completed and mailed (with required attachments) to the AGO for any new legal services contract, and for any significant amendment to the scope of services under an existing contract, PRIOR to the start of performance or change in performance. See: Attorney General Policy for Prior Review of Attorneys. Attorneys hired by Executive departments are also required to obtain prior approval of the Governor's Chief Legal Counsel prior to posting or hire.</p>

OBJECT CLASS PP GRANTS AND SUBSIDIES

Covered Expenditures

This object class includes grants and subsidies to both public and non-public entities, with certain specified restrictions, as outlined in [815 CMR 2.00](#) and CTR Policy [State Grants and Federal Sub Grants](#). A public entity includes, but shall not be limited to, a city, town, township, municipality, commission, district, school district, special district, local public authority, or any department or instrumentality of local public authorities, and public authorities (as defined in [M.G.L. c. 29, § 1](#)). A grant provides financial assistance under contractual terms with Grantees (Public and Non-Public entities) to achieve, through a joint venture, a specified public purpose to benefit the general public or a segment of the general public consistent with the Grantor department's legislative mandate. A grant may not be made for a procurement or contract for the purchase of Goods or Services for a department's own use. Grants of discretionary funds that have not been legislatively designated to either be distributed through a formula or other non-discretionary method, or to specified grantees, are awarded through an open public process. A subsidy is a legislatively mandated payment of a specific amount of funds to a specifically named entity.

Requirements

All Commonwealth departments disbursing grants must comply with [815 CMR 2.00](#) and are responsible for making contract obligations and expenditures in compliance with applicable laws and CTR Fiscal Policies. All departments that take advantage of Incidental Grants must comply with Incidental Purchase requirements identified by CTR and OSD. All grants must use the Standard Contract Form. Subsidies must use the Subsidy Agreement or comparable agreement.

Expenditures Not Covered

This object class does not include purchased human service programs, and other contract types of client human and non-human services and social services, see Object Class [MM](#). For Entitlement Programs, see Object Class [RR](#).

P01	GRANTS TO PUBLIC ENTITIES: SUB-RECIPIENT Payments of discretionary and non-discretionary (designated) financial assistance under contractual terms to achieve, through a joint venture, a specified public purpose to benefit the general public or a segment of the general public consistent with the Grantor department's legislative mandate. Grants to public entities may be made from all sources of funds (account types: Budgetary, Capital, Trust and Federal). Federal funds are reported as sub-recipient payments. Vendor services must use other appropriate object codes. (Use required object codes for vendor services).

OBJECT CLASS RR ENTITLEMENT PROGRAMS

Covered Expenditures

This object class includes entitlement payments made to recipients/beneficiaries and/or service providers on behalf of recipients/beneficiaries for authorized services to Commonwealth residents. The Commonwealth through an authorized state department that maintains the program and is governed by specific rules and regulations determines eligibility and verification of the recipient and/or provider to participate in entitlement programs. **These payments are primarily categorized as financial assistance and the recipients/beneficiaries are identified prior to payment.**

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and CTR Fiscal Policies). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition, for commodity and services contracts:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts \(Revised 10/1/2013\)](#). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth forms.

Expenditures Not Covered

This object class does not include purchased human service programs, and other contract types of client human and non-human services and social services, see Object Class [MM](#). For Grants and Subsidies, see Object Class [PP](#).

OBJECT CLASS UU

INFORMATION TECHNOLOGY (IT) EXPENSES

Covered Expenditures

This object class includes information technology expenditures associated with departmental operations.

Requirements

All Commonwealth departments are responsible for making contract obligations and expenditures in compliance with applicable laws and [CTR Fiscal Policies](#). All departments that take advantage of incidental purchases must comply with incidental purchase requirements identified by CTR and OSD. In addition:

- Executive departments “Level III” must comply with [M.G.L. c. 7, § 22](#), [801 CMR 21.00](#) and the “[Conducting Best Value Procurements Handbook](#)” for [801 CMR 21.00](#) covered goods and services, and must purchase from available Statewide Contracts, and use specified Commonwealth contract forms. Exceptions from using Statewide Contracts will only be permitted with prior written approval from the State Purchasing Agent explained in [Procurement Overview - OSD Legal Authority, Strategic Oversight and the Required Use of Statewide Contracts \(Revised 10/1/2013\)](#). Departments are required to review [Conducting Best Value Procurements Handbook](#);
- Individuals must be determined to be “Independent Contractors” by conducting the Commonwealth Three-Part Test in the [Employment Status Form](#) and attaching it to the Standard Contract Form in compliance with the CTR/OSC/HRD policy on contract employees: [Payroll and Labor Cost Management \(LCM\)](#).
- Non-Executive departments “Level II” must comply with [M.G.L. c. 7, § 22](#), internal procurement policies and procedures and use specified Commonwealth contract forms.
- Exempt departments “Level I” must comply with internal procurement policies and procedures and if the department takes advantage of MMARS document processing delegation, the department must use specified Commonwealth contract forms.

Expenditures Not Covered

State or contract employees may not be reimbursed through this object class.

INFORMATION TECHNOLOGY (IT) EQUIPMENT RENTAL OR LEASE

Short-term rental (less than 6 months) or longer-term use of computer or other information technology hardware, software, systems, peripherals and telecommunication equipment with no intention to own. See [U07](#) for outright purchase. See [U08](#) for TELP lease-purchase; [U10](#) for maintenance and repair costs. The following requirements apply to rentals and leases in this object code:

Short Term Equipment Use Without Ownership (Less than 6 months) – Rental

- Short Term “use” Department does not wish to own.
- Rental payments are usually significantly more than Term Lease or Lease Purchase (TELP) payments.
- Maintenance/insurance is provided by the contractor.
- Departments will not build equity in the equipment and will not own or buy out the equipment as an option of the Rental.
- Title and ownership and risk of loss remain with the contractor and will NOT be transferred to the department as part of the Rental.

Long Term Equipment Use Without Ownership (Longer than 6 months) – Term Lease

- Lease gives the department only the “use” of the Commodity for a specified period.
- Lease payments are usually less than a rental for the same period of time.
- Procuring departments are usually required to maintain and service the Commodity, either as part of the Lease payment or under a separate maintenance Contract.

Procuring departments will not build equity in the equipment and will not own or buy out the equipment as an option of the Lease.

- Leases may offer automatic upgrades or replacement with new models during or at the end of the term of the Lease.
- Title and ownership and risk of loss remain with the Contractor and will NOT be transferred to the department as part of the Lease.

A **Term Lease** must be evaluated to determine if it should be categorized as capital or operating. **The key points are as follows:**

- Is there are transfer of ownership at the end of the lease?
- Is there a “bargain purchase option?” In other words, can the asset be purchased at the end of the lease for less than its fair market value at the end of the lease?
- Is the term of the lease GREATER THAN OR EQUAL TO 75% of the asset’s **USEFUL LIFE**?
- Is the present value of the lease payments GREATER THAN OR EQUAL TO 90% of the asset’s **FAIR MARKET VALUE** at the time of signing of the contract?

If the answer to **ANY** of the above is **YES**, the lease type is a **CAPITAL** lease. All others are **OPERATING LEASES**.
