

Commercial Availability Form

The purpose of this form is for certified organic entities to document when non-agricultural ingredients in accordance to §205.605 and agricultural ingredients in accordance to §205.606 used in organic food product are not commercially available in organic forms (as applicable). Commercially available is defined as the ability to obtain a production input in an appropriate form, quality, or quantity to fulfill an essential function in a system of organic production or handling, as determined by the certifying agent in the course of reviewing the organic plan.

Operators must contact three suppliers for each ingredient. Suppliers contacted must carry organic ingredients. This form must be updated annually.

Name of Non-Organic Ingredient: _____			Product(s) containing this ingredient: _____			
Manufacturer of Non-Organic Ingredient: _____						
Ingredient Suppliers Contacted	Date Contacted	Does this supplier carry organic ingredients?	Method of Contact	Does this supplier carry an organic version of your ingredient?	If supplier carries an organic version, why is it not sufficient?	Explanation of Reasoning
