Crop/Livestock Product List

Overview

This form is part of your Organic System Plan (OSP) and documents all organic crops, wild crops, livestock, and livestock products sold, intended for sale, represented, or marketed as organic. Maintaining an accurate product list supports verification that all products comply with USDA organic regulations.

How to Complete This Form

Complete this form to identify all organic products sold or intended to be sold by your operation.
List each product on a separate line.
Check the applicable opt-out declarations at the top of the form if they apply to your operation.
Update this form whenever products, brands, or export markets change.

Field Instructions

I do not package into other brands' labels – Check this box if you do not pack or sell your products under another person's or company's brand name. When checked, you may leave the Brand Name column blank.

I am not requesting an international equivalency or exporting – Check this box if you do not export any products to international markets. When checked, you may leave all Export Market columns blank.

Organic Product – Enter the name of the organic crop, wild crop, livestock, or livestock product. This field is required.

Brand Name – If you pack or sell your product under another person's or company's brand name, enter that brand name here. Leave blank if it is not sold under another company's brand name.

Export Markets (Canada, Japan, EU/UK, Korea, Switzerland, Taiwan) – Mark an X in each column corresponding to the markets where you export this product. Leave blank if you are not exporting the product.

Directly Exporting – Identify the country if you export this product to any country not listed in the Export Market columns.

Comments – Enter any additional information relevant to this product.

Example form below is for illustration only.
