III. DEFINITIONS:

- A. California Children’s Services (CCS): The CCS program is a program of the State of California, established under the Health and Safety Code, Section 123800 et seq. which is administered by the Department of Health Care Services (DHCS). It provides diagnostic and treatment services, medical case management, and physical and occupational therapy services to children under age 21 with CCS-eligible medical conditions.
- B. Whole Child Model (WCM): A program of the California Department of Health Care Services (DHCS) established under the authority of Senate Bill (SB) 586 (Hernandez, Chapter 625, Statutes of 2016), which allowed designated County Organized Health Systems (COHS) or Regional Health Authority Counties to incorporate CCS covered services into Medi-Cal managed care for CCS-eligible members.

IV. ATTACHMENTS:

- A. NA

V. PURPOSE:

The Partnership HealthPlan of California (Partnership) Pediatric Quality Committee (PQC) was established by the Chief Medical Officer (CMO) to provide Partnership with advice on clinical issues related to CCS conditions. It reports its findings to the Partnership Physician Advisory Committee (PAC) and the Family Advisory Committee (FAC). The PAC has the ultimate authority over clinical policies for Partnership, so recommendations of the PQC are subject to the approval of PAC.
