# LEVEL Solutions: Significant savings over your ACA plan

## FOUR immediate benefits of a LEVEL Solutions plan

### SIGNIFICANT SAVINGS

Your employees' actual medical claims expenses may be much lower than monthly fully-insured monthly premium costs. A LEVEL Solutions plan positions you to cover employee expenses and protect your bottom line, saving 30% or more, annually over ACA plans.

### EXEMPTIONS

LEVEL Solutions health plans are exempt from some ACA tax requirements, such as the requirement to offer essential health benefits. Fewer regulations allows you the opportunity to monitor and oversee your plan in the best interest of your employees and your business.\*

### MEDICAL ACCESS

LEVEL Solutions plans have identical networks and discounts as fully-insured plans. You'll also have access to the same availability of doctors, hospitals, labs, and centers of excellence offering many free preventive services and telemedicine options.

### INFORMED DECISIONS

You'll have access to invaluable aggregate data, including claims information, utilization statistics, and prescription details. You can monitor your plan and steer plan offerings to cover benefits that are most meaningful and effective to proactively support your employees' health and wellness needs.
