Featured services:

Accessible emergency services

All PHP members have world-wide coverage for emergency services—those services that are necessary to prevent death or serious impairment of health and, because of danger to life or health.

Dependent student coverage

PHP extends in-network coverage for dependent students when they are away at college. College students may seek treatment from providers near campus as if they are in-network doctors.

Remote Employees are covered

PHP provides complete network access for across the country. These individuals can access the First Health Network for in-network coverage.
