11.2 Unity of Command; Cooperation; Coordination

- A. Unity of command is hereby established. Each organizational component is under the direct command of only one *supervisor*. Each *employee* of the *Department* is accountable to only one *supervisor* at any given time.
- B. Commanders and supervisors are responsible for encouraging and ensuring the exchange of information necessary for the effective provision of law enforcement services to the community. All available methods to communicate information, including face-to-face meetings and the use of electronic information systems (email, voice mail, bulletins, etc.) should be used in an effort to maintain the flow of information.
- C. Commanders and supervisors are responsible for coordinating among various department units as necessary to ensure the effective provision of law enforcement services to the community. Cooperation with efforts to coordinate activities, whether planned or unplanned, is expected.
