15.4 Crime Analysis

Crime analysis, including the collection, collation, analysis and dissemination of data related to local criminal activity is the responsibility of the Crime Analyst. This position shall primarily use departmental reports when conducting analysis, but shall use any documents with relevant data. All such *reports shall* be forwarded through the chain of command to the Chief, with the Chief being briefed as necessary. They shall also be distributed to any unit whose operations might impact crime based upon the analysis.
