 - Relationship between involved parties:
 - * Domestic violence as defined by [Arizona Revised Statute \(ARS\) 13-3601](#)

- (1) See section 4 of this order for Miranda warning information.
 - (2) If the suspect does not request an attorney or to remain silent, attempt to interrogate them.
 - (a) All suspects should be interrogated, even if the suspects were caught during the commission of a crime.
 - (b) Document everything said by the suspect in an IR
 - (c) Suspects may make contradicting statements that will help impeach later testimony.
 - (d) Officers should keep an open mind and allow for the possibility the suspect did not commit the crime.
 - (3) The suspect's statement must be voluntarily given; the interrogation will not include force, threats, promises, or undue psychological plots to obtain a statement.

	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 5

3. D. Audio/Video Recordings

- (1) See [Operations Order 7.21.00, Domestic Violence Investigations](#), for procedures regarding audio recording requirements for felony domestic violence investigations.

 - Audio recordings will be processed/stored even if the contents were transcribed.
- (3) When completing the IR, officers will ensure:
 - The use of the recorder and/or body-worn camera (BWC) is documented.
 - The interview/interrogation is summarized with key facts and information clearly articulated.
 - Where/how the audio/video recording was processed/stored is also documented.

E. Interviewing/Interrogating Individuals With Disabilities - Employees will follow the guidelines established in [Operations Order 1.3.02, Individuals with Mental or Physical Disabilities](#).

4. **ADMONITION OF RIGHTS (MIRANDA WARNINGS/RIGHTS)**

- A. When officers wish to question in-custody suspects for the purpose of gaining incriminating information against the suspect for presentation in court, they will do the following prior to advising the suspect of his rights:
- Identify themselves as Phoenix police officers
 - Give their name
 - Inform the suspect of the offense about which they wish to ask questions; officers do not need to inform the suspect of every offense at issue.
- B. For purposes of this order, a person is considered to be in custody when a reasonable person in the suspect's position would believe he/she is under arrest or is otherwise deprived of his/her freedom of action in a significant way.
- (1) This does not usually include:
 - Civil traffic stops
 - "Terry" stops (investigative detention based on reasonable suspicion)
 - (2) Persons will be advised of their Miranda rights when they are in custody or otherwise deprived of their freedom of movement in a significant way **and** officers wish to question the person.
- C. General guidelines pertaining to the admonition of rights during certain situations

(1) At the Scene of a Crime	<ul style="list-style-type: none"> • General, on-the-scene questioning regarding facts surrounding a crime or other general questioning of citizens in the fact-finding process is permitted without the need to advise those questioned about their rights. * If after general, on-the-scene questioning a person who was questioned is placed in custody, then the admonition of rights will be given prior to further questioning.
(2) Field Interview	<ul style="list-style-type: none"> • Field interview (the temporary questioning of persons) does not require the rights admonition prior to interrogation as long as questions are limited to a request for name, address, and explanation of actions. * If the person is placed in custody during the field interview, the officer will advise the person of their rights when questioned further about the crime for which they are placed in custody.

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 6

4. C. (Continued)

(3) Stopping a Vehicle	<ul style="list-style-type: none"> An officer may stop a vehicle and question its operator with regard to the enforcement of vehicle and traffic laws without the necessity of the admonition of rights until the person is taken into custody. * Persons in custody will be advised of their rights when questioned concerning a criminal traffic charge, including a charge of driving a vehicle while under the influence of intoxicating liquor.
(4) Volunteered Statements	<ul style="list-style-type: none"> Volunteered or spontaneous statements of any kind are admissible as evidence, even though no admonition of rights is given. * Care must be taken with regard to questioning initiated by an officer thereafter in clarification or amplification of the volunteered or spontaneous statements (only if under the circumstance a reasonable person would believe he is in custody). * The best procedure in this instance is for the officer to give the warnings after the initial unsolicited statement is made and before requesting further details.
(5) At a Police Facility	<ul style="list-style-type: none"> There is no requirement that persons who enter a station, approach an officer, or telephone stating they wish to confess or make any other statement, be advised of their Miranda rights.
(6) Handwriting, Voice Samples, and/or Other Physical Evidence	<ul style="list-style-type: none"> Officers need not advise suspects of their rights prior to asking for a handwriting sample for use in determining whether or not a forged or bogus document was written or signed by the suspect.

D. Admonition of rights will be read verbatim from the Notification of Rights Card PPD #29 distributed by the Department.

- (1) When a person wishes to remain silent or have an attorney present during questioning, interrogation must cease immediately.
 - (a) In such cases, if an investigation would apparently be furthered by continuing the interrogation, the Department's legal advisors may be contacted for assistance with a supervisor's approval.
 - (b) If an attorney wishes to speak (in person or by phone) to a prisoner who is in custody **and** the prisoner expresses a desire to speak with the attorney, a reasonable effort will be made to accommodate the contact and ensure privacy during their consultation.
 - Officers **do not** have to stop questioning a prisoner until the suspect asserts his rights.
 - The only person who can assert the right to an attorney is the suspect, not the suspect's family, attorney, etc.
 - For exceptions, see [Operations Order 7.8.00, Juvenile Procedures](#).
- (2) If a suspect invokes his/her right to an attorney, officers must honor that invocation and not initiate further custodial interrogation.
 - If the suspect simply indicates they wish to remain silent, officers may initiate further interrogation after a reasonable amount of time has passed, such as 2 hours.
- (3) When suspects are advised of their rights, the date, time, location, response as to understanding their rights, officer's name, and the name of other persons present, will be included in appropriate reports.
 - A suspect may waive his/her Miranda rights simply by answering questions after the admonition.

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 7

4. D. (4) If the suspect has had his/her initial appearance following an arrest, indictment, or has been formally charged, and has invoked his/her right to counsel, the suspect will not be contacted or questioned without the permission of the suspect's attorney.
 - If the suspect has not invoked his/her right to counsel, he/she may be questioned after being advised of his/her Miranda rights and waiving those rights.
- E. Public Safety Exception to Miranda – Established in [New York v Quarles \(1984\)](#)
 - (1) The public safety exception allows law enforcement to ask limited questions without first providing Miranda warnings when there is an **immediate threat** to public safety.
 - (2) In order to apply the public safety exception, the following three conditions must be met:
 - There is a reasonable belief that there is an immediate danger to law enforcement officers or the public
 - The questioning is narrowly focused on neutralizing the immediate threat
 - The questions are designed solely to secure public safety
 - (3) Limitations to the public safety exception:
 - The exception is narrow in scope, addressing only issue pertaining to public safety
 - The public safety exception is time-sensitive and should be utilized in the immediate aftermath of a public safety discovery
 - Questions must cease once the immediate safety threat is resolved
 - The concern must be objectively reasonable.
 - (4) Additional documentation requirements involving the public safety exception:
 - Officers must clearly document the specific safety concern that prompted the questioning
 - Officers must provide a detailed explanation of why Miranda warnings were not provided prior to the questioning

5. IDENTIFICATION OF SUSPECTS BY WITNESSES

A. Definitions:

(1) Eyewitness Identification Process	<ul style="list-style-type: none"> • Any field identification, or photographic identification
(2) One-on-One Identification	<ul style="list-style-type: none"> • A live presentation of a single individual to a witness following the commission of a criminal offense for the purpose of identifying or eliminating the person as the suspect
(3) Photographic Lineup	<ul style="list-style-type: none"> • Presentation of photographs to a witness for the purpose of identifying or eliminating an individual as the suspect

B. Officers must remember eyewitness identifications must be reliable and fair to be valid.

- (1) Officers should not in any way influence a witness as to whether any subject or photo presented is in any way connected to the case and should avoid mentioning that:
 - The individual was apprehended near the crime scene.
 - The evidence points to the individual as the suspect.
 - Other witnesses have identified or failed to identify the individual as the suspect.

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 8

5. B. (2) Police procedures suggesting the guilt of a suspect to a victim or to an eyewitness are improper and must be avoided, even when there is other evidence to connect the suspect with the crime.

- (3) The following general rules will apply:

- (a) A suspect or likeness of the suspect (photograph, composite drawing, or sketch) should not be deliberately displayed to more than one witness at a time.
- (b) A witness who has taken part in an identification procedure must not be permitted to state a conclusion within hearing range of another person who is about to be or has been a viewer.
- (c) Officers will not, by word or gesture, suggest their opinion regarding the guilt or innocence of a suspect to a witness. Witnesses making inquiries about an officer's opinion will be informed of this restriction.

- (4) Supervisor approval must be obtained to deviate from the procedures or restrictions contained in this order.

- (5) The Legal Unit or appropriate prosecuting official may be contacted for advice.

C. Documentation

- (1) A complete record of each identification procedure will be made.

- (a) The date, time, location, and identity of those present (including those viewed other than the suspect) will be noted.
- (b) Statements made by a witness viewing the suspect will be recorded as well as any significant remarks made by an officer, attorney, or suspect.

- (2) Photographic and audio recording devices may be used whenever practical.

6. **ONE-ON-ONE IDENTIFICATIONS**

- A. A one-on-one is an identification procedure in which a subject is presented singularly to the witness.

- (1) A one-on-one may be arranged whenever the suspect is arrested or temporarily detained within a reasonable time of the offense, and the witnesses are cooperative and state they might recognize the person who committed the offense.

- (2) Officer should assess whether a witness should be included in a one-on-one identification by considering the following:

- The length of time the witness observed the suspect
- The distance between the witness and the suspect
- Whether the witness could view the suspect's face
- The quality of the lighting when the suspect was observed by the witness
- Whether there were distracting noises or activity during the observation
- Any other circumstances affecting the witness's opportunity to observe the suspect

- (3) As a general rule, one-on-ones should occur within two hours of the time of the crime.

- (4) Officers should consider many witnesses involved in a one-on-one procedure fear retaliation from a suspect.

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 9

6. A. (5) Requests from witnesses to conceal themselves during the one-on-one, or to conduct the one-on-one away from their place of residence or business, should be honored whenever practical.

- (6) No person has a right to have a lawyer present at any pre-indictment one-on-one procedure.

B. General Procedures

- (1) If there is probable cause to arrest a suspect who is located within a reasonable time after the commission of an offense, the suspect will be taken into custody and a one-on-one accomplished as soon as practical.

- (2) If an officer reasonably suspects a person who has been located within a reasonable length of time after an offense was committed did actually commit the offense, but probable cause to arrest the person is not present, the officer may detain the suspect for a reasonable amount of time under the circumstances.

- (a) Twenty minutes is a general guideline for detaining individuals for investigative purposes.

- (b) The amount of time may be extended or reduced dependent upon the development of information.

- (c) The circumstances that lead to holding an individual longer than 20 minutes must be thoroughly explained in the IR.

- (3) Witnesses should be brought to the scene of the detention as soon as possible.

- (4) If safe and practicable, the person who is the subject of the one-on-one should not be handcuffed or in a patrol vehicle.

- (5) Suspects who are not under arrest should not be taken to the witness's location unless the suspect consents to being moved or extenuating circumstances exist.

- (6) Suspects should not be detained longer than 20 minutes unless any of the following are true:

- (a) Information that could link the individual to the crime is still being freshly developed.

- (b) Probable cause to believe the individual committed the offense has been developed.

- (c) The suspects, after being clearly informed they need not cooperate, consent to take part in the one-on-one.

- (d) In emergency circumstances, such as when a victim/witness is in danger of death or blindness, or the suspect is in danger of dying, an immediate one-on-one identification may be arranged if medical authorities permit.

NOTE: If the suspect will be hospitalized for a lengthy period of time, but is not in danger of death, standard procedures will be followed.

(7) Releasing Suspects

- (a) If suspects are not identified, they will be released under appropriate Department procedures unless probable cause still exists to believe they committed the offense.

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 10

6. B. (7) (b) The suspect's name, date of birth, description, address, and circumstances of the one-on-one identification will be included in the IR, even when the suspect is not identified and is released.

- (8) Witnesses may be transported in police vehicles to search the general area in which a crime has occurred in hopes of locating the suspect and arranging a one-on-one identification.

NOTE: In such cases, officers must avoid implicating anyone on the street or suggesting a certain person looks suspicious.

7. **ONE-ROLLS**

- A. Subjects who are required to be fingerprinted or photographed to aid in a criminal investigation may be taken to any LiveScan location (Information Services Unit (ISU), any precinct, or Centralized Booking).

- (1) Subjects may only be transported to a police facility to be fingerprinted or photographed when **one** of the following conditions exists:

- (a) Probable cause exists that an offense has been committed and the subject is under arrest for that offense.

- (b) The subject is being detained under the authority of a court order for identification as defined by [Arizona Revised Statute \(ARS\) 13-3905](#).

- (c) The subject **voluntarily** consents to be fingerprinted and/or photographed by the Department.

- (d) Officers should consider the following in establishing the voluntariness of the subject:

- The subject's free choice to go to a police facility
- No restriction on the freedom to leave the police facility
- Not under arrest or in custody
- Detained for only a brief period of time at the police facility
- Actually leaves after providing fingerprints and/or photograph
- Juveniles understand they are not being compelled to consent

* If officers have any doubt regarding the juvenile's ability to understand the right to refuse, officers will obtain parental permission to conduct the one-roll.

- (2) A subject to be fingerprinted and/or photographed, when **immediate** identification is necessary, such as when an alias is suspected or the subject has no valid identification, must be taken to a LiveScan location.

- B. **Procedures** - The officer will escort the subject to ISU, any precinct, or Centralized Booking to obtain the subject's fingerprints.

(1) LiveScan System Available	<ul style="list-style-type: none"> • If the LiveScan system is available, obtain the subject's fingerprints, and once completed, obtain a Process Control Number (PCN). • A photograph of the individual should be taken in the ImageWare Systems (IWS) using the PCN obtained from the LiveScan. • Upon completion of the one-roll, officers will contact the Centralized Booking Detail Fingerprint Unit, at 602-495-3612, and advise them of the one-roll by giving them the PCN. <p style="text-align: right;">(continued on next page)</p>
--------------------------------------	--

7. B. Procedures (continued)

(1) LiveScan System Available (continued)	<ul style="list-style-type: none"> * The Centralized Booking Detail Fingerprint Unit will classify and search all fingerprints to establish the subject's identity immediately and notify the officer of the results. * One-roll information will remain on file in the Optical Print and Photo Image System (OPPIS) indefinitely.
(2) LiveScan System Unavailable	<ul style="list-style-type: none"> * If the LiveScan system is down City-wide, the Federal Bureau of Investigation (FBI) criminal fingerprint card (FD-249) (full 10 prints) may be used. <ul style="list-style-type: none"> * All spaces should be completely filled in. * Each print must be a clear, usable impression. * If IWS is available, a photograph of the individual should be taken (a PCN can be generated in IWS, which will be written on the fingerprint card). <ul style="list-style-type: none"> * If IWS is unavailable, contact ISU for possible options for obtaining the subject's photograph. * Forward the inked fingerprint card, with the PCN generated from the IWS photograph, to the Centralized Booking Detail Fingerprint Unit before the end of shift.

8. **LINE-UPS** - An identification procedure in which a suspect is placed in a live group setting and is presented to a witness.

- Live group line-ups are rarely practiced therefore any requests for a live group line-up will be approved and coordinated with the Legal Unit.

9. **PHOTOGRAPHIC LINE-UPS, COMPOSITES, AND SKETCHES**

A. The use of photographs, composites, and sketches to identify criminal suspects is permissible when the suspect cannot be found, when a suspect or witness refuses to cooperate, when a suspect is in custody some distance from the victim/witness, or when a suspicion about a person needs to be confirmed before the suspect is arrested.

B. When a photographic line-up is used to possibly identify a suspect, the photo line-up will be impounded as evidence even if there is not a positive identification.

C. When a photographic line-up depicting a definite suspect is displayed to a victim or eyewitness, it will be arranged at random, if possible, with four or more photographs of different persons.

(1) The persons depicted in the photographic display must be of similar general appearance.

(2) An adequate record of each photograph shown in each photographic display will be made and the photographs preserved so the display can be reconstructed at a trial

D The use of a mug book is appropriate when there is no specific suspect.

(1) To ensure an accurate identification by this procedure, a reasonable number of photographs should be shown to a victim/witness even if the suspect is selected almost immediately.

(2) Whenever a suspect is selected by this method, a record of the mug book will be made, and the photographs preserved so the display can be reconstructed at a trial.

E. When there is not a suspect and the use of a mug book has been or is likely to be unsuccessful, a non-photographic pictorial representation (free-hand sketch, Identi-Kit, etc.) may be used.

INITIAL INVESTIGATIVE PROCEDURES

Operations Order

7.3.00

PHOENIX POLICE DEPARTMENT

Rev. 04/18/25

PAGE 12

9. E. (1) Showing a single sketch or composite to any number of witnesses is proper until a person is definitely identified as a suspect.
- At that time, if there is probable cause to make an arrest, no other sketch, composite, or photograph will be displayed to any other witness.
- (2) If probable cause for an arrest still does not exist after this type of identification, a photograph of the suspect should be obtained and the procedures as outlined in section 10.C, should be followed.

10. **BOLO (BE ON LOOK OUT)**

A. General Information

- (1) BOLOs are not an authority to arrest but only a request to obtain specific information on a subject or vehicle, or to notify officers of an Order of Protection, Mental Health Order, or other cautions.
- (2) BOLOs may be initiated by any officer but are generally limited to investigative details.
- (3) BOLOs should contain specific directions for action to be taken in the Synopsis section: for example:
- Field Interview (FI) needed
 - Contact Detective John Doe at 602-262-XXXX
 - Contact XYZ Police Department at 520-456-XXXX
 - Call the Data Integrity Unit (DIU) for further details
- (4) BOLOs are available through the Mobil Data Computer (MDC)/Computer Aided Dispatch (CAD) link and RMS and will be displayed when a subject or a vehicle is run through these sources.

B. Entering a BOLO

- (1) BOLOs may be entered directly into RMS or by using the BOLO form.
- (2) It is the initiating officer's responsibility to maintain or cancel the BOLO from the RMS BOLO module as appropriate.

C. Vehicle BOLOs

- (1) A vehicle BOLO alone does not provide officers with the authority to arrest occupants, seize evidence, transport occupants for fingerprinting, or tow and impound the vehicle.
- (2) Vehicle BOLOs may be used to obtain information on vehicles and occupants.
- (3) Prior to entering a vehicle BOLO, all means used to obtain current owner information will be documented in the appropriate IR.
- (a) Vehicle BOLOs may be entered for any vehicle involved in a crime, when there is reasonable suspicion the vehicle has been involved in a crime*, or when the occupant/s may be a hazard to officers, and there is a valid vehicle license plate.
- *Employees who enter a vehicle BOLO for tracking and informational purposes will use the "Tracking Only BOLO" template to ensure the following is included on the top line of the Synopsis:
 - * "FOR TRACKING PUPOSES ONLY, DO NOT DETAIN OR STOP SOLELY BASED ON THIS BOLO."

	INITIAL INVESTIGATIVE PROCEDURES	Operations Order 7.3.00
	PHOENIX POLICE DEPARTMENT	Rev. 04/18/25 PAGE 13

10. C. (3) (b) In addition to the vehicle license plate, the BOLO shall also include:

- Description of the vehicle
- Suspect description
- IR number
- Any other pertinent information

(4) Once a vehicle owner has been contacted and the needed information is obtained, the officer who issued the BOLO will immediately cancel the BOLO and make a notation in RMS Case Management module.

D. Person BOLOs

(1) Person BOLOs are used for the following purposes:

- To locate a person who is a subject of or witness in an investigation
- To track a known suspect, such as a Repeat Offender Program (ROP) offender or Burglary Reduction tracking
- To give notice of Orders of Protection involving a subject
- To give notice of Mental Health Orders involving a subject

(2) BOLOs for persons do not require probable cause or reasonable suspicion, only a legitimate law enforcement need to acquire information on or locate a person.

(3) A BOLO may be entered requesting the arrest of a person based on probable cause prior to a warrant being issued.

- Under these circumstances, hold the subject for investigative detention only and verify the information with the officer entering the BOLO, or by checking the IR prior to transporting to jail.

E. Outside Agency BOLOs - To support cross-organizational information sharing and officer safety.
