### **5. High School Full-Tuition Program Eligibility**

High school students may be eligible as early as the ninth grade to take dual enrollment courses by paying full tuition. Students must gain approval from their school district and parents prior to applying. School districts must count the credit earned for comparable high school credit as applicable (based on the courses that the student enrolls, and grade received).

These exams cannot be mixed and matched with other parts of the first three sections of admissions criteria. High school students may take the ACCUPLACER one time per semester (Summer, Fall, or Spring) prior to high school graduation to earn the necessary score for program admission and/or course placement.

<sup>4</sup> Per correspondence from Lale Kuyumcu, Program Analyst, Office of Designation – ECA Bureau for the U.S. Department of State on June 30, 2015. “J-1 Secondary School Student Program participants taking college courses, as long as the J-1 high school exchange student is actively participating and doing well in his/her secondary school student program, he/she may take college courses for college credit. The J-1 high school exchange student should contact his/her program sponsor to discuss the student’s wish to take college courses.”

<sup>5</sup> <sup>5</sup> [SDCL 13-53-47](#) specifies that students enrolled in postsecondary institutions in the state after July 1, 2008 must provide the appropriate immunization documentation. Board of Regents Policy further defines “student” to include those “who meet face-to-face at least once per week to receive instruction.

## **7. Application Management**

- 7.1 The application for high school student dual enrollment is managed by a Regental system solution in which all institutions will utilize.
- 7.2 Students will apply through the student application portal and require parental and high school approval to enroll and register for courses.
- 7.3 The timeline associated with the semesters (Fall, Spring, Summer) will outline when the application will open and close. It is recommended that all applications be submitted one week prior to the start of the course. However, if a student is delayed in submitting their application, an exception can be accommodated up to the first day of the course(s) the student is enrolling in. This best practice is to ensure students can effectively start the course in a timely manner. A delay in applying may delay a student's enrollment until after classes have already started.
- 7.4 If the student has submitted their application on time, but it is missing required materials that need to be provided by the designated high school representative (i.e., unofficial transcripts, placement scores, etc.), the school district will be allowed to submit those supplemental documents until 5pm on the third day of classes for the term, and enrollment by a Regental institution will be allowed.

## **8. Registration Management**

- 8.1 Students will be registered based on the application and the student's eligibility. The institutional representatives will validate and ensure validation. Students may not always be placed in the course section requested due to section capacity.
- 8.2 To ensure student success and timely starting of the class, students wishing to add courses after they are enrolled may do so until 5pm on the third day of classes by completing the Add/Drop/Withdraw Form and submitting it to the institutions contact(s). Requests to add courses that are received after the deadlines specified shall not be considered.
- 8.3 Students may drop courses via BOR Policy 2.1.1, and institutions should be mindful of the withdrawal dates and refund availability.
