8. Exceptions

Upon the recommendation of the institutional President, the Board may grant exceptions to the minimum rank qualifications or the promotion eligibility criteria relating to the minimum number of years in rank at the institution or both. The Board shall consider for promotion under this section only those faculty members who, in the judgment of the Board, have demonstrated that their level of performance and/or professional qualifications are notably excellent and sufficient to offset the lack of a required degree or years in rank.

9. Use of Faculty Committee

The work and recommendations of promotion and tenure committees apply only to tenure-track faculty in the professorial ranks. The work and recommendations of promotion and
continuing appointment review committees apply only to research faculty. Promotion and continuing appointment of faculty in lecturer, librarian, and professor of practice ranks is governed by administrative procedures established by each institution in compliance with BOR policy.

10. Promotion and Tenure Committee Formulation

10.1. The institutional promotion and tenure committee will consist of elected members of the faculty and members of the administration. The composition of the committee shall be: fifty percent (50%) faculty members; fifty percent (50%) administrative appointees. Each President shall determine the total number of members for the institutional promotion and tenure committee at each institution and inform the faculty senate of the total number of members.

10.1.1. The faculty representatives on the institutional promotion and tenure committee will be elected by the faculty as soon as practicable after the commencement of school activities in the fall. Membership terms will be for three (3) years.

10.1.2. Vacancies shall be filled according to procedures established for the original appointment. Only tenured faculty members will be eligible for election to the institutional promotion and tenure committee. Election procedures must provide all eligible faculty members who are still employed at the institution at the time of election, with equal opportunities to nominate candidates for committee membership, be nominated for committee membership, and to elect committee members. Alternates should be selected in the same manner. Faculty members, who themselves are to be considered for promotion or tenure, are not eligible for membership on the promotion and tenure committee during the academic year in which their promotion or tenure is being considered.

10.2. Administrative appointees shall be appointed by the president or the president’s designee.

10.3. There shall be, in addition to the institutional promotion and tenure committees at USD and SDSU, college or school promotion and tenure committees as the case may be. At all institutions, departments or other appropriate administrative units may petition the president for the creation of a promotion and tenure committee for the respective department or unit. If approved, the president shall determine the membership consistent with the ratio and constituency heretofore established for the institutional promotion and tenure committee.

10.4. Each promotion and tenure committee shall be given institutional guidelines to be utilized in promotion and tenure recommendations.

10.5. The integrity of the promotion and tenure review process requires not only that it be fair, but also that it be regarded as fair. Therefore, individual committee members will recuse themselves whenever their ability to make a disinterested judgment might reasonably be called into question.
10.6. Faculty members, who themselves are to be considered for promotion or tenure, are not eligible for membership on the promotion and tenure committee during the academic year in which their promotion or tenure is being considered. If such a faculty member is denied promotion or tenure, the individual’s term on the committee will be deemed to have expired. Faculty members who have been denied promotion may serve on the promotion and tenure committee if elected in an election held no sooner than one (1) academic year following the year in which the denial occurred.

10.7. Colleges, school, departments or other appropriate administrative units that have sufficient numbers of tenured faculty to form a committee may petition the president for the creation of a promotion and tenure committee for the respective college, school, department or unit. If approved, the president will determine the membership consistent with the ratio and constituency heretofore established for the institutional promotion and tenure committee. Tenured faculty members will be elected to college or school, department or other appropriate administrative unit promotion and tenure committees using the same procedures used to elect tenured faculty members to the institutional promotion and tenure committee. Faculty members within the appropriate unit will participate in the election procedures.

10.8. The promotion and tenure committees shall make their recommendations to the administrator of the applicable department or appropriate unit. Administrators shall consider the recommendations of their departmental or unit promotion and tenure committee in formulating their recommendations to the next level of the process.

11. Procedures for Promotion Recommendations

11.1. Faculty members who wish to be considered for promotion shall submit a completed notification and application for promotion, together with supporting documents, to their immediate supervisor on such date as may be specified under institutional promotion and tenure procedures. Institutional deadlines for such notification should occur no later than October 5 unless otherwise approved by the campus. Such notification and application shall allow the promotion and tenure committee’s access to the faculty member's personnel file and individualized professional development plans. The application will include documentation to establish performance commensurate with the award of the professorial rank sought as required under BOR Policy 4.4.6 or, for faculty members not assigned the rank of Associate Professor when first awarded a tenure track contract, to establish performance commensurate with the award of tenure as required under BOR Policy 4.4.7 – Tenure and Continuing Appointments. It is the responsibility of the faculty member to prepare documentation appropriate for use by the promotion and tenure committees and appropriate administrators in judging the faculty member’s qualification for promotion. This documentation must accompany the request to the immediate supervisor for consideration. This documentation and the recommendations of the faculty member’s supervisor (and of the departmental promotion and tenure committee, if any) shall be forwarded by the supervisor to the administrator responsible for the process at the college/school level or institutional level, whichever is applicable, no later than a date to be set by the Board. Each institution may stipulate certain desired elements or format
for the documentation, which shall be made available to faculty members in written form. This documentation must accompany the request to the immediate supervisor for consideration. The immediate supervisor, and any other administrators, including the president, who review the file in order to make independent recommendations, may supplement the material assembled by the faculty with information obtained from other sources, and they may base their recommendations upon such additional information, provided that such additional information is included in the file together with the materials assembled by the faculty member. This documentation and the recommendations of the faculty member’s supervisor (and of the departmental promotion and tenure committee, if any) will be forwarded by the supervisor to the administrator responsible for the process at the college/school level or institutional level according to institutional timelines.

11.2. If the institution has college or school promotion and tenure committees, the recommendations of the appropriate administrator (and of the college or school promotion and tenure committees) will be forwarded by that administrator, with the supporting documentation to the president according to institutional timelines.

11.3. The institutional promotion and tenure committee will review all materials and may consult with applicable college, school, or departmental promotion and tenure committees, and in addition, may consult with the faculty member or other individuals as it deems appropriate. After such consultation, the institutional promotion and tenure committee will add its recommendation and forward all information to the president according to institutional timelines. The working papers and files of the promotion and tenure committee(s) will remain confidential; except that, subsequent to the Board's final determination, the president will have the written recommendations of administrators with supervisory responsibility for the faculty member placed in the faculty member's personnel file, together with any additional materials that they may have secured to assist in formulating their opinions.

11.4. If an outside recommendation is sought, the administrator or committee requesting the recommendation will provide the outside party a copy of the department/institutional standards used in the promotion review and clearly articulate that the review is to address the contributions the individual has made to the discipline and/or the impact the individual’s work has had on advancing the discipline.

11.5. The president will make the institutional recommendation to the Board by April 15. At the request of the faculty member, the recommendation of the institutional promotion and tenure committee will accompany the institutional recommendation to the Board. The faculty member will be notified according to institutional timelines of whether the president will recommend promotion to the Board. Such notice will indicate the institutional promotion and tenure committee's recommendation. If the president intends to recommend that promotion be denied, the faculty member may request the president provide reasons for the recommendation provided the faculty member makes a written request by April 15. If the faculty member makes such a request, the president shall respond in writing within fifteen (15) working days.
11.6. The reasons given shall be substantive in nature and shall transcend the mere fact of the recommendations by the committees by including the opinions of the president from the information available to him/her. The faculty member may file a written request for reconsideration according to institutional timelines after receipt of the president's reasons for denial of promotion. The request should specify the grounds and considerations that the faculty member believes warrant a different result. The president, after reviewing the request, shall notify the faculty member in writing according to institutional timelines of the final institutional recommendation to be forwarded to the Board and of its basis. The rights to obtain reasons and to request reconsideration shall not expand the rights and limitations under BOR Policy 4.4.9 – Grievance Faculty.

11.7. Faculty members appointed to tenure track appointments who have not been promoted to the rank of associate professor must apply for such promotion at the beginning of their sixth year of tenure track service. Faculty members who complete their sixth year of tenure track service without being granted promotion to the rank of associate professor will be offered a single term contract for the following academic year. This term contract is not subject to renewal, and the faculty member will be ineligible for reappointment after it expires.

11.8. No promotions shall be granted unless funds exist to provide for an increase in salary, and an increase in salary is given.

11.9. When reviewing applications for tenure, administrators and promotion and tenure committees shall consider the progress towards meeting the objectives of professional development plans and they shall heed evidence that the faculty member is effectively pursuing approved objectives, but they shall exercise independent judgment as to the quality of results achieved by the faculty member.

When assessing the quality of performance, administrators and committee members shall be guided by the principles stated in BOR Policy 4.4.3 – Statement Regarding Faculty Expectations – as complemented by institutional policy statements.

11.10. Each institution shall develop their own timelines and procedures for rank and promotion recommendations. Institutional deadlines shall comply with system deadlines stated within these policies.

12. Procedure for Awarding Promotion in Research Ranks

12.1. The institution’s chief research officer shall establish a promotion and continuing appointment review committee. Until such time as twelve or more research faculty members have been appointed to continuing appointments, the promotion review committee membership shall comprise the chief research officers of other system institutions that host research centers, together with two additional representatives from the institution, designated by the institutional president.

12.2. Research faculty members who wish to be considered for promotion will notify their immediate supervisor in writing on such date as may be specified under institutional promotion and tenure procedures as established by each institution. Institutional deadlines for such notification should occur no later than October 5 unless otherwise approved by the campus. Such notification will allow the continuing appointment
review committee access to the faculty member's personnel file. It is the responsibility of the research faculty member to prepare, assemble and submit on such date as may be specified under institutional promotion and tenure procedures all favorable documentation which is appropriate and upon which the faculty member relies for favorable action. Each institution may stipulate certain desired elements or format for the documentation, which shall be made available to research faculty members in written form. This documentation must accompany the request to the immediate supervisor for consideration.

12.3. The promotion review committee shall review the qualifications of each applicant for a promotion to determine whether the applicant has satisfied the provisions of Section C.4. To assist in the evaluation of performance, the promotion review committee may solicit outside reviews. The promotion review committee shall deliver its recommendation to the institution’s chief research officer and Vice President for Academic Affairs, and the research officer and Vice President for Academic Affairs will forward that recommendation, together with such additional comments as they may deem appropriate, to the institutional president according to institutional timelines. The work product of the promotion review committee shall remain confidential.

12.4. The applicant shall be notified, not later than March 1 of the year in which the research faculty member is being considered for tenure, of what the institutional president shall recommend to the Board regarding the faculty member's tenure status. Such notice shall indicate the promotion review committee's recommendation. If the president intends to recommend that promotion be denied, the faculty member may request the president provide reasons for the recommendation provided the faculty member makes a written request by April 15. If the faculty member makes such a request, the president shall respond in writing within fifteen (15) working days.

12.5. The institutional president shall make a recommendation to the Board not later than April 1. This recommendation shall be based upon the provisions of Section C.4, as well as upon the other provisions and requirements of this Chapter and upon an assessment of the candidate's past contributions and promise of future contributions to the goals and missions of the research center program.

12.6. The final decision whether to grant a promotion to any applicant shall remain exclusively with the Board.

12.7. Each institution shall develop their own timelines and procedures for rank and promotion recommendations for research ranks. Institutional deadlines shall comply with system deadlines stated within these policies.
