INSTRUCTIONS FOR USE OF FORM
CS-1033
Current Description of Child

Current Description of Child form is part of the Pre-Placement Summary Outline. It provides a current description of the child to prospective adoptive families. The Pre-Placement Summary is completed within 60 days after the child is identified as needing adoption services, along with the Current Description of Child. Updates should occur as needed, but no less than every six months. The Family Service Worker, Permanency Specialist, or the Provider Agency Adoption Specialist completes the Current Description of Child.
