Policy Statement: The UCF PD Emergency Response Team (ERT) may be activated to handle large demonstrations, riots, and mass arrest situations in the Department jurisdiction or as part of the Regional Team in other jurisdictions. The ERT may be used when an event is pre-planned and would tax on-duty resources beyond acceptable limits. The ERT may also be activated to support Patrol Division mobile field force operations already in progress.

603.01 ERT Members Duties: The ERT provides a rapid, organized, and disciplined response, of specially trained officers, to situations that require the coordinated efforts of large numbers of agency personnel. Response situations include, but are not limited to, the following:

- a. Civil disorder,
- b. Crowd control situations, or
- c. Other situations as deemed necessary by Chief or designee.

603.02 Activation: Before activating the ERT, the Sergeant will use on-duty resources to attempt to resolve any disturbance and restore order. ERT may be requested by any member of the rank of Sergeant or higher. Activation of the team shall be accomplished by contacting the on-duty Commander. Upon approval from the Operations Bureau Major, the initiating member will contact the ERT Commander to broadcast the call-out information. The text will indicate staging location and the designated radio talk group for the operation. Mode of response will be a non-emergency response unless otherwise advised.

The Sergeant is responsible for briefing the ERT Commander of the nature of the problem. The Sergeant will also notify the appropriate chain of command.

Upon arrival, the ERT Commander shall confer with the Sergeant. All orders for the ERT will go through the ERT Commander. The ERT Commander will direct the Communications Section to establish a Talk Group which will be maintained for the duration of the operation, if not already established. The Sergeant is in overall command of any incident unless relieved by higher authority. ERT personnel will respond to the designated location and establish a Mobile Field Force Unit to address the situation.

603.03 Field Force Operations: Operations of the ERT will be conducted in a coordinated manner. The Field Force is designed to provide a rapid and organized response to events. It may be deployed to restore order, move crowds, rescue victims and isolate problem areas. The keys to the successful use of a Field
