INCIDENT REPORTS		
<p>RATIONALE: <i>The purpose of this policy is to establish a consistent and comprehensive reporting system that accounts for all incidents occurring within the Division, its facilities and programs. This system will ensure communication occurs during a crisis situation, a chain of command is followed, and the Division is able to monitor all incidents, thereby enhancing Division efficiency. Further, incident reports document critical situations and help provide an accurate description of events.</i></p> <p><i>Related Policies, Applicable Standards, Statutes: DHHS Policy 01-02 Records Management and Access; JJYS Policy 06-01 Creation, Storage, and Retention of Juvenile Records.</i></p>

I. DESCRIPTION

This policy established criteria for creation and submission of incident reports. It is intended to help create consistent incident reports throughout the Division.

II. DEFINITIONS

The following terms are defined for this policy as:

- A. **Incident:** A safety concern, non-routine, unusual, or potentially threatening event.
- B. **Primary Incident Report:** A report generated by the staff member who is predominantly involved in the incident. There should only be one primary report per incident. This is determined by the lead staff or shift lead following the incident.
- C. **Supplemental Report:** A report generated by all other staff directly involved or who witnessed an incident. These reports are to accompany the Primary Incident Report.
- D. **Absent Without Leave (AWOL):** A minor who is absent from a community-based placement for an extended or unexpected

period of time without authorization.

- E. **Addendum Report:** A report generated by a staff member who has already submitted either a Primary or Supplemental Report. The addendum clarifies, corrects, or includes additional information after the original incident report was submitted.
- F. **Level of Severity:** Defines the seriousness or urgency of an incident. The two different levels of severity are critical incidents and standard incidents.
- G. **Critical Incidents:** Include safety concerns, or non-routine, unusual, or potentially threatening events that are critical in nature, require immediate response, and impact the wellbeing of the youth or staff.
- H. **Standard Incidents:** Include safety concerns, or any non-routine, unusual, or potentially threatening event that does not meet the definition of a Critical Incident. These events may require immediate response and do not impact the wellbeing of the youth or staff.
- I. **Classification:** The process of identifying the type of behavior, activity, or potentially threatening situation involved in an incident and selecting all applicable options in the primary incident report.
