I. Purpose

UT Health San Antonio will make reasonable attempts to verify the identity of persons and entities requesting protected health information (PHI) and the authority of such persons or entities having access to PHI prior to disclosing information.

II. Scope

This policy applies to all faculty, staff, students, residents, healthcare providers, researchers, contractors, or any other individual (collectively, Workforce Member, including employees and non-employees) who has direct or indirect access to patient protected health information (PHI) created, held, or maintained by any UT Health San Antonio controlled affiliate, including, but not limited to its clinics, hospitals, and research operations.

III. Policy

A. Verification

1. If a UT Health San Antonio workforce member receives a document request for disclosure of PHI, the workforce member may accept such documents, statements, or representations from the individual and rely that, on face value the document meets the verification requirement, provided that such reliance is reasonable under the circumstances.

2. An administrative subpoena or summons, a civil or an authorized investigative demand, or similar process authorized under law may be satisfied by the subpoena or similar process or by a separate written statement, that on face value, demonstrates applicable requirements have been met. For additional guidance, see HOP policy 11.2.1 Use and Disclosure of Protected Health Information Without Authorization.
3. IRB documentation of a waiver approval of disclosure for research purposes may be satisfied by written statements, provided the waiver is appropriately dated and signed by an IRB representative.

4. UT Health San Antonio workforce members are expected to exercise professional judgement when responding to any request to use or disclose PHI. Specifically, when using or disclosing information for which the individual has a right to have the opportunity to agree to or restrict the use of disclosure, as discussed in HOP policy 11.2.14 Uses or Disclosures Requiring the Opportunity to Agree or Object.

5. Workforce members must also use professional judgement when acting in good faith using or disclosing PHI for a purpose intended to prevent a serious threat to the health or safety of a person or the public, as described in HOP policy 11.2.1 Uses and Disclosures of Protected Health Information Without Authorization.

6. Workforce members who handle routine requests for disclosure of PHI should refer non-routine requests, such as ones described in this policy, to their supervisor for guidance and oversight.

B. Identification of Public Officials

UT Health San Antonio may rely on the following to verify identity when a disclosure of PHI is to a public official or person acting on behalf of the public official:

1. If the request is made in person, presentation of any agency identification badge, other official credentials, or other proof of government status.

2. If the request is in writing, the request is on appropriate government letterhead; or,

3. If the disclosure is to a person acting on behalf of a public official, a written statement on appropriate government letterhead stating the person is acting under the government's authority or other evidence of documentation of agency, such as a contract for services, memorandum of understanding, or purchase order, that establishes the person is acting on behalf of the public official.

C. Authority of Public Officials

Workforce members may rely on any of the following to verify authority when the disclosure of PHI is to a public official or person acting on behalf of the public official:

1. A written statement of the legal authority under which the information is requested, or, if a written statement would be impracticable, an oral statement of such legal authority; or,

2. A request made regarding a legal process, warrant, subpoena, order or other legal process issued by a grand jury or judicial or administrative tribunal is presumed to constitute legal authority.
IV. Definitions

Terms used in this document, have the meaning set forth in the Patient Privacy Policies Glossary unless a different meaning is required by context.

V. Related References

For questions regarding this policy, contact the Privacy Program Director at 210-567-2014 or email compliance@uthscsa.edu.
