I. Purpose

The Family Education Rights and Privacy Act (FERPA), 20 U.S.C. §1232g, and the Texas Public Information Act, Texas Government Code § 552.001 et seq., are respectively a federal and state law that provide for the review and disclosure of student educational records. In accordance with these laws UT Health San Antonio has adopted the following policy. Individuals are informed of their rights under these laws through this policy which is included in the Handbook of Operating Policies (HOP) and Catalog. The Catalog is available at: http://catalog.uthscsa.edu.

II. Scope

This policy applies to current and former UT Health San Antonio students for which education records are maintained by the university; and personnel, including contractors, with access to the education records maintained by the university.

III. Policy

A. Requirements

1. UT Health San Antonio students have the right of confidentiality under the federal Family Educational Rights and Privacy Act (FERPA) of 1974. Generally, no one outside the institution shall have access to, nor will the institution disclose any information from students’ educational records without the student’s written consent.

2. UT Health San Antonio affords all the rights under the law to students who are declared independent. However, student education records may be released without written consent for legitimate educational interest. Legitimate educational interest is access to educational records by appropriate UT Health San Antonio administrators, faculty members, staff members or contractors acting on behalf of UT Health San Antonio, who require such access in order to perform their

legitimate educational and business purposes of the student or UT Health San Antonio. Examples include:

a. to appropriate UT Health San Antonio official who require access to educational records in order to perform their legitimate educational duties;

b. to officials of other institutions in which students seek to enroll;

c. to federal, state, or local officials or agencies authorized by law;

d. to persons or organizations providing students financial aid provided that such disclosure is necessary to determine eligibility, amount, conditions or enforcement of terms and conditions of the financial aid;

e. to accrediting agencies carrying out their accreditation function;

f. to the parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954, provided a reasonable effort is made to notify the student in advance;

g. in compliance with a judicial order or subpoena, provided a reasonable effort is made to notify the student in advance unless such subpoena specifically directs UT Health San Antonio not to disclose the existence of a subpoena;

h. in an emergency situation if the information is necessary to protect the health or safety of the students or other persons; or

i. to an alleged victim of any crime of violence, the results of the alleged perpetrator’s disciplinary proceeding may be released;

j. to organizations conducting studies for, or on behalf of educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student financial aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted; and,

k. to authorized agents, vendors, or contractors of the university who have agreed to abide by the provisions of FERPA regarding covered student data.

3. UT Health San Antonio will release information in student education records to appropriate University officials, as indicated above, when there is a legitimate educational interest. A University official is:

a. a person employed by UT Health San Antonio in an administrative, supervisory, academic, research or support staff position (including law enforcement unit personnel and health staff);

b. a person or company with whom UT Health San Antonio has contracted (such as an attorney, auditor, or collection agent); and,
2.2.3 Family Educational Rights and Privacy

c. a person serving on the Board of Regents, a student serving on an official committee or assisting another University official in performing his or her tasks.

4. A University official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility; perform a task related to a student’s education; perform a task related to the discipline of a student; provide a service or benefit to the student such as health care, counseling, job placement, or financial aid; provide educationally related information to the student concerning extracurricular activities and student organizations; or maintain safety and security of the campus.

5. A legitimate educational interest is determined by the appropriate administrator from the Office of the University Registrar in consultation with the vice president for academic, faculty and student affairs and the appropriate school-specific dean. Release of information to a school official having a legitimate educational interest does not serve as permission to share that information with a third party without the student’s written permission.

6. Where required by regulations, a record of requests for disclosure and such disclosure of personally identifiable information from student education records shall be maintained by the Office of the University Registrar for each student and will also be made available for inspection pursuant to this policy.

B. Student Information

1. UT Health San Antonio designates the personally identifiable information contained in a student’s education records listed below as “directory information” in order that the university may at its discretion, disclose the information without a student’s further prior written consent. 2. Notice of required training reaches students, staff, and faculty through their UT Health San Antonio email accounts, at which time they are prompted to complete online training. Training covers the purpose of FERPA, directory information, and scenarios of potential FERPA violations.

D. Access to Records

1. Students who wish to inspect their records should fill out the Request to Review Education Records form from the Office of the University Registrar. The Registrar or other designated record custodian will make the needed arrangements and advise the student when and where the records will be available. 2. If agreement is reached with respect to the student’s request, the appropriate records will be amended. If not, the student will be notified within a reasonable period of time that the records will not be amended, and they will be informed by the Office of the University Registrar of their right to a formal hearing.

6. The education records will be corrected or amended in accordance with the decision of the hearing officer if the decision is in favor of the student. If the decision is unsatisfactory to the student, the student may place with the education records statements commenting on the information in the records or statements setting forth any reasons for disagreeing with the decision of the hearing officer, or both.

7. The statements will be placed in the education records, maintained as part of the student's records and released whenever the records in question are disclosed.
