For UT Health San Antonio (University), this includes a person who presents a false claim to a government employee or who provides a false record to get a claim paid or approved by the U.S. Government. The FCA outlines the federal penalties for submitting false claims, as well as protections granted to an individual who reports a violation.

Management is responsible for establishing internal controls and other monitoring mechanisms to prevent or detect fraud and abuse. Each manager should be familiar with the types of fraud, abuse, and false claims that might occur within their area of responsibility and should be alert for any indication of occurrences of fraud, abuse, and false claims.
