

Long School of Medicine Family Medicine Clerkship

Clerkship Learning Objectives

1. Demonstrate the ability to gather relevant patient data (including family and psychosocial history) and perform an appropriate physical examination.
2. Deliver an organized and concise oral presentation of a clinical encounter.
3. Effectively document a clinical encounter in the patient record.
4. Provide, under supervision, individualized patient-centered care in the context of one's family and community as a member of an interprofessional team.
5. Apply current US Preventive Services Task Force (USPSTF) guidelines and Centers for Disease Control (CDC) immunization schedule recommendations to create health promotion plans for patients of all ages.
6. Formulate differential diagnoses, interpret common diagnostic tests, and develop management plans for undifferentiated and complex patients.
7. Optimize and prioritize management of common chronic conditions by addressing non-medical drivers of health (NMDoH) and using evidence-based, cost-effective protocols.
8. Demonstrate professional behavior in the clinic and classroom as outlined in the Clerkship Professionalism Expectations.

Required Clinical Experiences

Required clinical experience	Patient type	Level of student engagement	# required
Abdominal Pain, Dyspepsia, or GERD	Outpatient	Participate	1
Back Pain (Acute or Chronic)	Outpatient	Participate	1
Chronic Pain	Outpatient	Participate	1
Depression	Outpatient	Participate	1
Diabetes	Outpatient	Participate	1
Fatigue	Outpatient	Participate	1
Headache	Outpatient	Participate	1
Hyperlipidemia	Outpatient	Participate	1
Hypertension	Outpatient	Participate	1
Hypothyroidism	Outpatient	Participate	1
Menopause, Menstrual Disorders, or Vaginitis	Outpatient	Participate	1
Obesity	Outpatient	Participate	1
Obstructive Lung Disease (Asthma or COPD)	Outpatient	Participate	1

Family Medicine Clerkship AY 26-27
