PowerDMS

Brittany Van Etten

Training Specialist I

You will learn to:

- Define surveys.
- Explain the benefits of using surveys.
- Create, assign and manage surveys.
- Use the administrative dashboard to review survey progress.
- Create reports for surveys using PowerDMS analytics.

How can surveys be used in PowerDMS?

- Surveys can be a standalone and not associated with any content in your PowerDMS site. IE. An employee satisfaction or opinion survey

- Surveys can be attached in a course created in PowerDMS. IE. Adding a survey to a PowerDMS course to collect feedback.

You should now be able to:

- Define surveys.
- Explain the benefits of using surveys.
- Create, assign and manage surveys.
- Use the administrative dashboard to review survey progress.
- Create reports for surveys using PowerDMS analytics.
