Authority:

Background:
- Qualifying individuals may enter into an installment agreement with the Office of Motor Vehicles for payment of outstanding fines, fees, and/or penalties provided all other requirements have been met.
- Entering into an installment agreement will reinstate the individual's driver’s license and/or motor vehicle registration privileges for the duration of the installment agreement, provided the individual does not default on the agreement.

Guidelines:
- Customers may enter in an installment agreement or may pay reinstatement fees in full by calling OMV Customer Service at (225) 925-6146, option 3.
- Vehicle registration fees including sales or use tax or related penalties and interest, vehicle registration license tax or title fees may not be included in an installment plan.
- Individuals who have previously defaulted on an installment plan may enter into a new plan provided an initial payment of 10% of the total amount to be included in the plan is remitted at the time the plan is initiated.
- If a customer is in bankruptcy, he/she cannot enter into an Installment Agreement.
- If a customer has a valid ex-offender provisional license, he or she cannot enter into an installment agreement.
- It is the individual's responsibility to ensure the account on file has sufficient funds/credit available to cover the installment plan payment and transaction fee due each month.
- It is the individual’s responsibility to ensure the method of payment on file will allow for monthly drafts.
- Any hold of funds placed on the payment method provided will affect available funds, and could result in the draft being rejected and the installment plan defaulting.
An individual may only have one active installment agreement at a time. If additional violations are added to the individual’s driving record and the current installment plan is valid, he/she may request to enter into a new installment agreement combining the unpaid balance of the current installment agreement and the new fees/fines added to the record. This is not considered a defaulted installment plan.

  - Failure to do either within sixty (60) days will result in:
    - The individual's driver's license being marked suspended and any unsatisfied items included in the installment agreement will be returned to the previous status.
    - The outstanding debt will be referred to the Office of Debt Recovery (ODR).
    - Once referred, any insurance cancellations or operating without evidence of insurance/security that were not satisfied prior to default of the installment plan will be raised to the maximum amount and an additional 25% collection fee will be added.
