

Louisiana Department of Public Safety
Office of Motor Vehicles

Policy 2.03 Out-of-State Driving Records Received on Louisiana Drivers (Driving Records Transferred from Other States)

Section: 2. Driver's License Laws

Effective Date: 04/06/1994

Revised Date: 08/03/1994

General:

- Driving records from a previous state of record on drivers who are now licensed in Louisiana are reviewed for DWI convictions that were convicted within the past 10 years. Only these DWI convictions will be added to the driving record for record keeping and counting purposes.
- Convictions are added to DMB from the CVOO screen, with disposition code "21" (No Action Required - Record Keeping Only).
- If the driving record does not contain sufficient information to be added, return the record to that state requesting a certified copy of the court conviction.
