Sales Tax Charged on Termination of Lease/Rental

Authority:

R.S. 47:305.36

R.S. 47:301(7)(a), (10)(a)(i)

To view Louisiana Statutes: <https://legis.la.gov/legis/home.aspx>

General:

- Once a rented or leased vehicle has been paid in full and is being transferred into the renter's or lessee's name, sales tax may be owed based on the buyout amount.

Requirements:

- Sales tax will be assessed based on the amount listed on the bill of sale, provided a copy of the lease agreement is submitted and includes one of the following:
 - An option to purchase the vehicle for the same amount shown on the bill of sale.
 - **Lease Example:** John Deaux provides a lease agreement that states he has the option to purchase the vehicle at the end of the lease for \$10,000. The bill of sale also lists the purchase price of \$10,000. In this case, sales tax will be collected on the \$10,000 amount shown.
 - Early termination where the vehicle is paid off earlier than shown on the contract.
 - **Lease Example:** John Deaux's lease agreement lists 30 payments of \$250, and he pays off the vehicle in 20 payments. Tax shall be assessed on the agreed-upon sales price reflected on the bill of sale, in addition to the total amount of remaining payments under the lease agreement.
 - **Rental Example:** The contract indicates 30 payments of \$250 and the renter pays the vehicle off in 20 payments, tax will be due on \$2500 (10 payments early X \$250).
 - A provision stating that ownership of the vehicle automatically transfers to the lessee/renter at the end of the agreement. If a termination value is listed, it must be zero
 - **Example:** John Deaux's agreement states that ownership of the vehicle will automatically transfer to the lessee/renter at the end of the agreement with no additional purchase price. The agreement and bill of sale lists the termination value at \$0 and the payments were completed as scheduled. In this case, no sales tax will be due.
- **Transfer of Lease**
 - Occasionally a lease agreement provides that the rights and privileges of the lease can be transferred from the lessee to another individual. Sales taxes can be charged according to the requirements listed above if:
 - The lease agreement contains a provision that all rights and privileges can be transferred; AND
 - Documentation is attached showing that the lessor has transferred the lease agreement to the applicant.

Notes:

- Schedule for state/local sales taxes due on lease/rental vehicles
